

PRESS RELEASE

Jainik Power Cables Limited to Grandly Inaugurate State-of-the-Art HT Cable Manufacturing Plant on 9th July 2026

A Major Milestone Strengthening India's Power Infrastructure Manufacturing Capabilities

Sonipat, Haryana | 5 July 2026

Jainik Power Cables Limited, one of India's rapidly growing manufacturers of aluminium and power transmission products, is proud to announce the grand inauguration of its new High Tension (HT) Cable Manufacturing Plant on 9th July 2026 at its manufacturing facility in Sonipat, Haryana.

This landmark expansion marks another significant milestone in the company's journey of continuous growth, innovation, and commitment to supporting India's expanding power distribution and infrastructure sector.

The newly commissioned facility is equipped with advanced manufacturing technology and will produce High Tension (HT) Power Cables up to 33 kV along with Medium Voltage Covered Conductors (MVCC) up to 33 kV, enabling Jainik to serve utilities, DISCOMs, EPC contractors, industrial projects, and export markets with world-class products that meet the highest quality standards.

With the commissioning of this plant, Jainik Power Cables Limited now possesses an integrated manufacturing portfolio capable of generating annual revenues of up to ₹750 crore, significantly enhancing its production capabilities and strengthening its position as a comprehensive solution provider for the power transmission and distribution industry.

Today, Jainik offers one of the most diversified product portfolios in the aluminium cable manufacturing sector, including:

- * Aluminium Ingots
- * Aluminium Wire Rods
- * AAC Conductors
- * AAAC Conductors
- * ACSR Conductors
- * ACAR Conductors
- * Aluminium Alloy Conductors
- * Aerial Bunched (AB) Cables of all sizes
- * LT Power Cables
- * Armoured & Unarmoured Power Cables
- * Medium Voltage Covered Conductors (MVCC) up to 33 kV
- * High Tension (HT) Power Cables up to 33 kV

The inauguration reflects the company's long-term vision of becoming a leading integrated manufacturer catering to India's growing demand for reliable, efficient, and technologically advanced power transmission products.

Speaking on the occasion, Mr. Shashank Jain, Managing Director of Jainik Power Cables Limited, said:

"The commissioning of our HT Cable and MVCC manufacturing facility represents another defining chapter in Jainik's growth story. We have consistently expanded our capabilities with a focus on quality, innovation, and customer satisfaction. This investment enables us to offer a complete range of conductors and cables under one roof while strengthening our commitment to supporting India's rapidly growing power infrastructure."

Mr. Prateek Jain, Director & CFO, added:

“From beginning our journey in 2011 as an aluminium trading company to becoming a fully integrated manufacturer, every milestone has been driven by our vision to create long-term value for customers, shareholders, and the nation. With this expansion, Jainik is now better positioned to participate in major infrastructure projects, government electrification programmes, renewable energy developments, and international markets. Our enhanced manufacturing capabilities reinforce our ambition of becoming one of India’s most trusted power cable manufacturers.”

Over the years, Jainik Power Cables Limited has steadily transformed itself into a vertically integrated enterprise by expanding from aluminium trading to manufacturing aluminium wire rods, conductors, AB cables, LT power cables, and now HT cables and MVCC. The company continues to invest in advanced technology, quality systems, and manufacturing excellence to meet the evolving requirements of the power sector.

The inauguration of the new HT Cable Manufacturing Plant is expected to further accelerate Jainik’s growth trajectory, strengthen its market presence across India and overseas, and reinforce its commitment to the Government of India’s vision of building a robust and self-reliant power infrastructure.

About Jainik Power Cables Limited

Established in 2011, Jainik Power Cables Limited is a leading manufacturer of aluminium products and power transmission solutions. The company manufactures Aluminium Ingots, Aluminium Wire Rods, AAC, AAAC, ACSR, ACAR and Alloy Conductors, Aerial Bunched Cables, LT Power Cables, Armoured Cables, Medium Voltage Covered Conductors (MVCC) up to 33 kV, and High Tension Power Cables up to 33 kV. With modern manufacturing facilities, stringent quality standards, and a growing domestic and international presence, Jainik continues to contribute to the development of reliable and sustainable power infrastructure.
