

PRESS RELEASE

Jainik Power Cables Limited Secures Government Orders Worth Over ₹25 Crore from Haryana

Major milestone strengthens the company's position in the power transmission and distribution sector

New Delhi / Sonipat, Haryana | October 22, 2026

Jainik Power Cables Limited, a manufacturer of aluminium conductors and power cables, has achieved a significant business milestone by securing rate contract orders worth more than ₹25 crore from the Haryana Government for the supply of electrical conductors and power cables.

The orders were finalised following the High Powered Purchase Committee (HPPC) meetings held on October 19, 2026, at Haryana Niwas, Sector 3, Chandigarh. The rate contracts cover the supply of key products required for power transmission and distribution infrastructure across Haryana.

Products Covered Under the Rate Contracts

- 150 sq. mm ACSR Wolf Conductors for overhead power transmission and distribution applications.
- 100 sq. mm ACSR Dog Conductors for overhead electrical networks.
- LT XLPE Armoured Cables, S/C × 120 sq. mm, for low-tension power distribution applications.

The company has submitted revised rates for these contracts, with the applicable terms providing for a one-year validity period and a possible extension for a further year by mutual agreement, as specified in the respective rate contract documents.

Strengthening Presence in Government and Utility Markets

The development marks an important step in Jainik Power Cables Limited's strategy to expand its presence in government procurement and utility infrastructure projects. These contracts provide an opportunity for the company to participate in the supply of essential electrical products supporting the development and reliability of power distribution networks.

With its manufacturing facility in Sonipat, Haryana, Jainik is focused on strengthening its manufacturing capabilities, improving operational efficiencies and expanding its product portfolio to serve the growing requirements of electricity utilities, infrastructure companies and industrial customers.

Expanding Manufacturing Capabilities

Jainik Power Cables Limited manufactures aluminium wire rods and a range of power cables and conductors. The company has been expanding its capabilities in low-tension power cables, aerial bunched cables and medium-voltage covered conductor solutions, alongside its established aluminium wire rod operations.

The company continues to invest in production infrastructure, machinery, quality systems and market development to enhance its ability to serve customers across domestic and international markets.

The Haryana Government contracts represent a meaningful opportunity for Jainik to strengthen its engagement with public-sector utility procurement and build a broader base of institutional business.

Management Commentary

Commenting on this milestone, the management of Jainik Power Cables Limited stated:

"Securing orders worth more than ₹25 crore from the Haryana Government is an important milestone for Jainik Power Cables Limited. It reflects our continued efforts to strengthen our presence in the power transmission and distribution sector and expand our participation in government and utility procurement."

We remain focused on building a reliable manufacturing platform, delivering products that meet the required technical and quality standards, and developing long-term business relationships with customers. As we continue to enhance our production capabilities and expand our product portfolio, we believe government and utility markets will remain an important avenue for our future growth."

About Jainik Power Cables Limited

Jainik Power Cables Limited is an Indian manufacturer operating in the aluminium and electrical cable industry. The company manufactures aluminium wire rods, LT power cables, aerial bunched cables and other conductor and cable products for power distribution and infrastructure applications.

With its manufacturing operations in Sonipat, Haryana, the company is focused on expanding its production capabilities, strengthening its customer relationships and pursuing growth opportunities in domestic and international markets.

The company is listed on the NSE Emerge platform.
