FOR IMMEDIATE RELEASE

GRAND ANNOUNCEMENT: JAINIK POWER CABLES LIMITED EXPANDS ITS APPROVAL FOOTPRINT ACROSS THREE KEY STATES

Approvals secured in Andhra Pradesh, Maharashtra and Chhattisgarh — strengthening Jainik's position as an emerging power infrastructure partner

Sonipat, Haryana | 24 September 2026: Jainik Power Cables Limited is proud to announce a significant milestone in its growth journey with the company now having approvals/vendor registrations across Andhra Pradesh, Maharashtra and Chhattisgarh.

This achievement marks an important expansion of Jainik's presence across major power markets in India and strengthens the company's ability to participate in utility, infrastructure and power-distribution opportunities across these strategically important states.

The latest approval from Chhattisgarh State Power Distribution Company Limited (CSPDCL) registers Jainik Power Cables Limited as an approved vendor for the supply of a wide range of LT AB Cables, LT Power Cables, ACSR conductors and 11 kV & 33 kV covered conductors, with the vendor registration valid up to 20 August 2028.

A Stronger Pan-India Power Infrastructure Presence

With approvals now established in Andhra Pradesh, Maharashtra and Chhattisgarh, Jainik is strengthening its access to state electricity utilities, turnkey contractors and major infrastructure projects.

- Quality-driven manufacturing
- Compliance with applicable Indian Standards and utility specifications
- Reliable and consistent supply
- Power distribution and infrastructure applications
- Expansion into high-value utility and institutional markets

The Chhattisgarh approval specifically covers a broad portfolio of products for supply to turnkey contractors, further demonstrating Jainik's growing acceptance within the power-distribution ecosystem.

From Manufacturing to a Trusted Power Infrastructure Partner

Jainik Power Cables Limited has been steadily expanding its capabilities across Aluminium Wire Rods, LT Power Cables, Aerial Bunched Cables and Medium Voltage Covered Conductors, while simultaneously building approvals and market access across India.

The company believes that its growing presence with state utilities will create opportunities to participate in a wider range of power distribution, rural electrification, infrastructure and grid-strengthening projects.

"This is not just another approval — it is another step in Jainik's journey towards becoming a recognised and trusted name in India's power infrastructure sector. With approvals across Andhra Pradesh, Maharashtra and Chhattisgarh, we are opening the doors to a much larger market and strengthening our commitment to serving the nation's growing power distribution requirements."

Building Momentum. Expanding Reach. Powering Growth.

The company will continue to pursue additional utility approvals, institutional registrations and strategic partnerships across India, while expanding its manufacturing capabilities and product portfolio.

Jainik Power Cables Limited remains committed to its vision of becoming a reliable, quality-focused and rapidly expanding power cable and conductor manufacturer, contributing to India's evolving power infrastructure.
