Sir/Madam,

We are pleased to inform that JBF Petrochemicals Limited, step subsidiary of JBF Industries Limited, has commissioned its Purified Terephthalic Acid (PTA) plant at Mangalore SEZ, Karnataka. Production of PTA is a backward integration for JBF Industries Limited and its subsidiaries abroad, making the company self sufficient in meeting its PTA requirements. The plant, with capacity of 1.25 Million Tonnes per Annum, uses British Petroleum's (BP's) BP technology, known to be the most cost effective and highly environment friendly. This is the world's largest single reactor train PTA plant. Pursuant to the initial run, the company plans to take routine checks and remove deficiencies, based on technical guidelines, for sustainable satisfactory technical performance. This new plant will increase the competitiveness of the company in the Polyester chain and is expected improve margins.

This is only for the information of members.

Kindly acknowledge the receipt of the same.

Thanking you,

Yours Faithfully,
For JBF INDUSTRIES LIMITED

BHAGIRATH C ARYA
CHAIRMAN
