JET AIRWAYS PARTNERS BCAS & BIAL TO TEST

MOBILE BOARDING PASSES

Mumbai, February 19 2015: In a first of its kind initiative in India, Jet Airways, India's premier international airline, is collaborating with the Bureau of Civil Aviation Security of India (BCAS) and Bangalore International Airport Limited (BIAL) for a pilot project to test the use of Mobile Boarding Passes on its flights.

During this trial phase, guests can use barcoded boarding passes on their mobile phones to enter Bengaluru's Kempegowda International Airport (KGIA), pass through security and board their flight. This removes the need for paper boarding passes and fast tracks departure process.

This pilot project is being carried out select Jet Airways flights from Bengaluru to Mumbai and Delhi on a trial basis from February 12, 2015.

BIAL has installed mobile boarding pass scanners at the entrance of the terminal, security check points and the boarding gate.

To use mobile boarding passes during the trial period, Jet Airways guests will need to check in at jetairways.com, m.jetairways.com or the Jet Airways mobile app and opt for a mobile boarding pass which has been designed in-house by Jet Airways and follows all IATA standards and requirements.

Mr. Cramer Ball, Chief Executive Officer, Jet Airways, said, " We are delighted to partner BCAS and BIAL to test the application of mobile boarding passes. This initiative is set to greatly improve the on-ground guest experience during the departure process.

Following the successful completion of the trial we'll look to extend this service across all Jet Airways flights once regulatory approvals are notified.

Jet Airways has always been at the forefront of using technology to enhance the travel experience of its guests and this is one of many initiatives we will look to implement over the coming years."

Jet Airways (India) Limited

Mr. GV Sanjay Reddy, Managing Director, BIAL said: "At KIAB our efforts have been to constantly evolve our IT systems and processes to help us serve our passengers and airlines more efficiently. The mobile boarding pass trial is a process improvement with simplicity and convenience at its core. This will have a direct impact on time saved and the overall passenger experience during departure. We are delighted that Jet Airways and Bengaluru Airport have partnered to test this concept and we hope this process improvement will receive the necessary regulatory clearances, and can be a reality and established process soon."

About Jet Airways

Jet Airways currently operates a fleet of 116 aircraft, which include 10 Boeing 777-300 ER aircraft, 8 Airbus A330-200 aircraft, 4 Airbus A330-300 aircraft, 76 next generations Boeing 737-700/800/900/900ER aircraft and 15 ATR 72-500 and 3 ATR72-600.
