## JSPL-Angul posts record production of Hot Metal

**New Delhi, July 3, 2019:** India's largest Blast Furnace at JSPL Angul Odisha has produced its highest ever Hot Metal production of 10845 MT for a single day on 2nd July 2019. It is also reported that this is the ever highest production produced by any of the BFs in India.

The furnace is stable for the last one week and has continuously produced more than 10,000 Tons per day. The largest BF of country having volume of 4554 m3 is running smoothly to cater the maximum need of hot metal for 6 MTPA capacity of Steel Melt Shop.

It is noteworthy that JSPL's 6MTPA Integrated steel making complex at Angul is the most modern and Odisha's largest integrated steel plant.

**About JSPL:** Jindal Steel & Power Limited (JSPL), a part of the USD 22 billion diversified O. P. Jindal Group, is amongst India's fastest growing and leading business conglomerates with significant presence in core infrastructure sectors including steel, power, mining and infrastructure. JSPL's business operations span across the states of Chhattisgarh, Odisha and Jharkhand in India, where it operates some of India's most advanced steel manufacturing and power generation capacities of global scale. JSPL also has world's first DRI plant based on Indian High Ash Coal Gasification. JSPL is amongst the lowest cost producers of steel and power in India.
