AMC stock rally may have more steam left

Shares have risen as much as 53% in six months

TANMAY TIWARY
New Delhi, 11 September

Asset management company (AMC) stocks have delivered sharp gains in the past six months, outperforming the broader market, aided by strong mutual fund (MF) inflows, robust growth in assets under management (AUM), and rising retail participation through systematic investment plans (SIPs), analysts said.

Among listed AMCs, HDFC AMC has surged 53.4 per cent, followed closely by Nippon Life India AMC (52.9 per cent), BSE data showed. Aditya Birla Sun Life AMC gained 44.3 per cent, while UTI AMC advanced 47.2 per cent. KFin Technologies rose 21.2 per cent, and Shriram AMC added 28.8 per cent. By comparison, the BSE Sensex climbed just 10 per cent over the same period.

Kranthi Bathini, director of equity strategy at WealthMills securities, said: "With rising disposable incomes, accelerating digitalisation, and savings shifting steadily from physical assets to financial instruments, Indian retail investors are becoming far more equity-savvy. Systematic investment plans, exchange-traded funds (ETFs), and real estate investment trusts (REITs) are beginning to diverge from traditional parking grounds like gold and silver. Given this environment, AMC stocks are uniquely positioned to benefit from structural tailwinds."

SIP momentum underpins flows

That said, despite moderation in active equity inflows, analysts believe the SIP-led resilience in industry flows sets the stage for an earnings recovery for asset managers. According to Nuvama Institutional Equities, active equity net inflows fell 25.1 per cent month-on-month (M-o-M) in August to ₹42,360 crore, largely due to a steep 49.8 per cent drop in lumpsum inflows to ₹14,100 crore. However, SIP contributions remained stable at ₹28,270 crore, down just 0.7 per cent sequentially.

"AMCs and RTAs (registrar and transfer agents) would report a recovery in earnings growth quarter-on-quarter (Q-o-Q) on the back of steady inflows led by SIPs and stable equity markets. Our top picks in the sector are HDFC AMC (target price ₹6,530), NAM (₹1,010), and KFin Tech (₹1,540)," said Madhukar Ladhia and Mahrukh Adajania of Nuvama in a note dated September 10. In a report on Wednesday, Meghna Luthra of InCred Research also said: "We believe this slowdown (in SIP) is transitory and will turn around once the geopolitical stress and market volatility ease."

What lies ahead?

While valuations of AMC stocks have run up sharply alongside a surge in investor participation, analysts remain constructive on the sector given its structural

Asset management companies (As on Sep 11)	Share price (₹)	6-mth chg (%)
HDFC Asset Management	5,799.0	53.4
Nippon Life India AMC	818.2	52.9
UTI Asset Management	1,351.9	47.2
Aditya Birla Sun Life AMC	854.9	44.3
Shriram Asset Management	479.6	28.8
KFin Technologies	1,106.9	21.2
BSE Sensex	81,548.7	10.0

growth levers. Steady SIP flows, growing retail participation, and rising share of passive funds are expected to provide a durable earnings cushion.

Luthra said, "We believe any softness in select AMC stocks on account of market volatility will give a good opportunity to add... We remain optimistic over the mid-to-long-term horizon amid improving geographic penetration as well as the rising popularity of mutual fund schemes, mainly among the young and mid-income investors."

Whether the sharp rally in AMC stocks has more steam left will depend on the trajectory of equity markets and fund flows, but brokerage houses see room for further upside in key players like HDFC AMC, NAM, and KFin Tech.

Among individual stocks, NAM India (target price ₹920) remains the top pick for InCred for its consistent performance-led market share gains. The brokerage appreciates the yield protection by HDFC AMC ('Hold', target price ₹5,600), although the run-up in the stock price makes the risk-reward ratio unfavourable. "We maintain 'Add' rating on ABSL AMC (target price ₹1,000) for the slowdown in market share loss and its turnaround story. The undercurrent of likely acquisition of UTI AMC ('Add', target price ₹1,600) makes the stock attractive," it noted.

Meanwhile, Bathini said: "Although much of the recent rally is already priced in, the fundamentals — rising AUM, steady retail flows, growing passive fund adoption, and operating leverage — suggest there is still room for further upside over the medium-to long-term."

HEALTH POLICY PORTING BY SENIORS

Get written assurance on continuity benefits when switching

HIMALI PATEL

A decade or so earlier, senior citizens found it difficult even to purchase a health insurance policy. Today, not only do they buy them in greater numbers, they also switch to policies offering better features. According to data from Policybazaar.com, portability among senior citizens has risen from 18 per cent in 2022-23 to 29 per cent in 2024-25.

Policy reforms, innovative products

The Insurance and Regulatory Authority of India (Irdai) removed the entry age for new and ported business, while also allowing continuity of benefits such as waiting periods. "The launch of dedicated plans for senior citizens, insurers offering riders that reduce the waiting period, and day-one coverage for common pre-existing diseases (PEDs) are encouraging more seniors to port," says Siddharth Singhal, head of health insur-

ance, Policybazaar.

Hurdles seniors encounter

Underwriting norms for seniors are stricter. Insurers often make them undergo extensive medical tests. "The new policy may carry a steep premium. Seniors with multiple existing conditions could be denied coverage. High-risk ailments could be excluded from coverage," says Vinita Porwal, associate director, Anand Rathi Insurance Brokers.

Documentation requirements can be heavy. Rejection rates are typically higher in this group.

Home loan topups for education, health, and more

For many Indians juggling long-term financial goals, a topup home loan often emerges as a smarter borrowing option than personal or gold loans. Experts say that they are cheaper, come with longer repayment windows, and offer more flexibility.

What is a home loan topup?

A topup is an additional loan

linked to an existing home loan. Borrowers with a clean repayment record and at least six months of history are generally eligible. "Topup home loans are often a better alternative to high-cost personal or gold loans, as they come with lower rates and longer tenures," said Siddharth Jain, chief financial officer at MinEMI.

How much can you borrow?

The topup amount depends largely on the loan-to-value (LTV) ratio, property valuation, and repayment behaviour. "If a property is worth ₹1 crore and the borrower still owes ₹50 lakh, a topup of ₹25-₹30 lakh may be sanctioned, subject to income eligibility," explained Jain.

Common uses in real life

- Home renovation or interiors
 - Children's higher education
 - Medical expenses
 - Business funding
- Jain cited the case of a salaried borrower who needed ₹12 lakh for his daughter's overseas education. Instead of a personal loan at 15 per cent, he secured a top-up at 9 per cent, saving on interest.
