Being successful and big in the insulin market provides a huge tailwind when it comes to selling GLPs

"We do have an in-house R&D team as well." Globally, the GLP-1 market is dominated by Eli Lilly and Novo Nordisk. "Being successful and big in the insulin market provides a huge tailwind when it comes to selling GLPs," Vaidyanathan said. Torrent Power Q1 Profit Down 25%

Press Trust of India

New Delhi: Torrent Power on Tuesday reported over 25% dip in consolidated net profit of ₹741.6 crore in the June quarter due to lower revenues from generation as well as transmission & distribution businesses over lower electricity demand. It reported a consolidated profit of ₹596.3 crore in the year-to-date period, a BSE filing showed. Total income declined to ₹6,011 crore during the quarter from ₹5,110 crore in the same period a year ago. The company explained that while the company's underlying business remains resilient, the performance during the quarter was particularly impacted

due to lower power demand following the early onset of monsoon and elevated gas prices, impacting merchant gains from gas-based generation. "Adjusted for these, total comprehensive income remained comparable to the same quarter last year," the company said. The company remains well-positioned to navigate cyclical variations, supported by its diversified business operations, it stated. Torrent Power, the ₹29,165 crore integrated power utility of about ₹45,000 crore Torrent

Group, is one of the largest companies in the country's power sector, with presence across the entire power value chain—generation, transmission, and distribution.
