**JNK India: Business Overview**

JNK India founded in 2010 is one of the leading combustion equipment manufacturers in the country. JNK has capabilities in thermal designing, engineering, manufacturing, supplying, installing and commissioning process fired heaters, reformers and cracking furnaces. The company is headquartered in Thane, Mumbai with a manufacturing facility in Mundra, Gujarat.

**Process Fired Heaters**

(Direct Heaters) A type of industrial heater used to heat fluids or gases directly by burning a fuel source such as natural gas or propane

**Reformers**

Devices used to convert hydrocarbons, such as natural gas or naphtha, into synthesis gas (syngas), which is a mixture of hydrogen and carbon monoxide

**Cracking Furnaces**

Use to break down large hydrocarbon molecules into smaller ones, which can then be used to produce a variety of products, including fuels, chemicals, and plastics

**Flare Systems**

Important safety devices used in refineries and petrochemical facilities; they safely burn excess hydrocarbon gases which cannot be recovered or recycled

**Incinerators**

Facilitate the oxidation of all the common reduced Sulphur compounds to Sulphur Dioxide (SO<sub>2</sub>) prior to release to the atmosphere

**Renewable Energy Systems**

Enables hydrogen production, compression, and dispensing; solar EPC covers design and construction of solar systems.

**Process Plant**

Involves engineering, design and integration of equipment to convert feedstock into finished products through chemical and mechanical processes.

## About JNK India:

JNK India Limited specializes in thermal designing, engineering, manufacturing, and commissioning of process-fired heaters, reformers, and cracking furnaces. The company has expanded its portfolio to include waste gas handling systems such as flares and incinerators, hydrogen production and distribution systems, solar EPC solutions, and process plants. Its fabrication facility in Mundra, Gujarat, is spread across approximately 20,000 square meters and operates as a multi-product SEZ unit with proximity to a deep-draft port. The strategic partnership with JNK Global, a leading manufacturer in South Korea, of industrial combustion equipment, enhances JNK India's global reach and technical capabilities. Furthermore, JNK India has entered a joint venture with the founders of Chemdist Group to develop green hydrogen, sustainable fuels, chemicals, and carbon capture systems, with JNK India holding 51% equity share capital. The company serves a broad range of industries including refining, petrochemicals, steel, and fertilizers, and has demonstrated expertise in delivering customized engineering solutions. Its investment case is supported by a diversified product base, entry into new verticals, and the ability to execute complex projects, positioning it to capitalize on growth opportunities in energy infrastructure and renewable systems.
