PRESS RELEASE

Jindal Stainless ranks among global top 5% in DJSI scores; secures 4th position in steel sector and 1st in Stainless Steel with a score of 78, for its strong commitment to sustainability

- *With Environmental, Social and Governance scores of 83-73-76 respectively, Jindal Stainless exceeds the global steel industry averages of 37-35-36*
- *Jindal Stainless became the steel sector's sole recipient of the prestigious Golden Peacock Award for Sustainability (GPAS) in FY 25*

New Delhi, December 3, 2025: Jindal Stainless, India's largest stainless-steel manufacturer, has achieved a landmark milestone in global sustainability rankings, securing an ESG score of 78 in the Dow Jones Sustainability Index (DJSI) Corporate Sustainability Assessment (CSA) for FY25. This recognition places Jindal Stainless among the top 5% of steel companies globally and ranks it fourth in the steel sector and 1st in the stainless steel sector worldwide in the DJSI-modelled scores as of November FY25. The score represents a significant rise from 60 in FY24, underscoring the company's accelerated transition towards sustainability-driven growth, transparency, and long-term value creation.

Commenting on this achievement, Jindal Stainless, Managing Director, Mr Abhyuday Jindal, said, *"Securing one of the top global positions in the DJSI-modelled ESG rankings is a proud moment for us. Our significant improvement over the past year scores reflects our continuous commitment to responsible growth, grounded in transparency, innovation, and care for our people and planet. Sustainability at Jindal Stainless is not driven by targets alone; it is anchored in our values, embedded in everyday action, and strengthened by the trust of our communities and stakeholders. This milestone further reinforces our resolve to accelerate our Vision 2030 ambitions and continue shaping a future where industrial progress and sustainability advance together."*

The CSA scorecard highlights Jindal Stainless' exceptional performance across all three ESG dimensions, with scores of 83 in Environmental, 73 in Social, and 76 in Governance & Economic. These figures far exceed the industry averages of 37, 35, and 36, respectively. The company's data availability rate of 97% and a perfect score of 100 in Transparency & Reporting place it among the most transparent and accountable companies in the global steel sector.

Jindal Stainless, Chief Sustainability Officer, Mr Kalyan Bhattacharjee, added, *"Our ESG score this year is the result of deep integration of sustainability across our operations, from climate strategy and energy efficiency to occupational health and stakeholder engagement. Our efforts across Energy Efficiency, climate strategy, water & waste management, biodiversity, occupational Health & Safety, Information*

security, Enterprise Risk Management and business ethics led to us achieving this milestone. Honoured and proud to be setting new benchmarks for sustainable material globally.”

Jindal Stainless has emerged as the only company in the steel sector to be honoured with the Golden Peacock Award for Sustainability in FY25. This is another major recognition which underscores the company’s continued progress in strengthening its ESG performance and reporting standards. The company has consistently demonstrated its commitment to ESG through strategic investments in decarbonisation and sustainability initiatives. In FY25 alone, these efforts led to a 14% year-on-year reduction in GHG emissions, driven by projects ranging from Odisha’s largest captive solar plant to energy-efficiency upgrades and supply-chain digitisation, alongside community efforts in education, healthcare and skilling around their plants.

About Jindal Stainless

India’s leading stainless-steel manufacturer, Jindal Stainless, had an annual turnover of INR 40,182 crore (USD 4.75 billion) in FY25 and is ramping up its facilities to reach 4.2 million tonnes of annual melt capacity in FY27. It has 16 stainless steel manufacturing and processing facilities in India and abroad, including in Spain and Indonesia, and a worldwide network in 12 countries, as of March 2025. In India, there are ten sales offices and six service centres, as of March 2025. The company’s product range includes stainless steel slabs, blooms, coils, plates, sheets, precision strips, wire rods, rebars, blade steel, and coin blanks.

Jindal Stainless relies on its integrated operations to enhance its cost competitiveness and operational efficiency. Founded in 1970, Jindal Stainless continues to be inspired by a vision for innovation and enriching lives and is committed to social responsibility.

Jindal Stainless remains focused on a greener and sustainable future. The company manufactures stainless steel using electric arc furnace, a process that significantly reduces greenhouse gas emissions and allows for recyclability of scrap without compromising on quality.
