Alarm as doubling time in Covid fatalities shortens in six states

India recorded the highest single-day spike of 1,15,736 Covid-19 cases, taking the overall tally to 1,28,01,785. The country reported 630 Covid-linked deaths in a span of 24 hours, the highest since November.

New Delhi. With its highest number of confirmed infections, India is the world's latest epicentre of the Covid outbreak now. That said, India still doesn't have a fatality rate as severe as most of the other countries. But the speed with which deaths from the new wave of the pandemic are doubling up in several states is a cause of serious concern.

Sample this: The doubling time of Covid fatalities in six states in the past two weeks alone Chhattisgarh, Punjab, Himachal Pradesh, Maharashtra, Jharkhand, and Madhya Pradesh has worsened so much so that if not controlled it would contribute to doubling the national figure of deaths from coronavirus in the next 230 days.

That means if India's has recorded 166,177 deaths from Covid-19 since it was declared a pandemic in March last year, the number could well jump to over 332,000 in about the next eight months. And state-wise data suggest Covid fatalities may double in only 76 days in Chhattisgarh and 83 days in Punjab.

Chhattisgarh reported 9,921 new cases and 53 Covid-related deaths while Punjab reported 2,905 new cases and 61 deaths on

Wednesday. The current fatality rate in Punjab is substantially higher (2.8 per cent) than the national average. Kerala, as an

exception, is witnessing a rise in fatality rate even as the spread of infections has moderated in the last few weeks.

FATALITY RATE VS. DOUBLING DEATHS

For now, though, India ranks 14 in terms of deaths per million cases. There are 120 deaths per million population in India whereas it's been as high as 1,868 in the United Kingdom, 1,665 in the United States, and 1,582 in Mexico.

The world average, as of now, is also higher than India at 365 deaths per million population.

Beware though! This drop is primarily attributed to the denominator, which is the surge in the total number of cases.

The Union Health Secretary, Rajesh Bhushan, pointed out that the high number of deaths reported by Chhattisgarh and Punjab is a matter of extreme concern.

So, if the total number of confirmed cases is not considered and only the deaths in the last two weeks are taken into account, the doubling rate does paint a scary picture.

PUBLIC NOTICE

Notice is hereby given that Flat No.503, adm 418 sq. ft. Carpet area (696 sq. ft.
