

Jindal Poly Films Limited

Corporate Presentation
January 2016

This presentation has been prepared by Jindal Poly Films Limited (also referred to as 'JPFL' or 'Company') and is strictly confidential and may not be taken away, copied, published, distributed or transmitted or redistributed or passed on directly or indirectly to any other person, whether within or outside your organization or firm, or published in whole or in part, for any purpose by recipients directly or indirectly to any other person. By accessing this presentation, you agree to be bound by the following restrictions and to maintain absolute confidentiality regarding the information disclosed in these materials. The Company may alter, modify or otherwise change in any manner the contents of this presentation, without obligation to notify any persons of such change or changes. By attending the meeting where this presentation is being made or by reading the presentation materials, you agree to be bound by following limitations:

The information in this presentation has been prepared for use in presentations by JPFL for information purposes only and does not constitute, or should be regarded as, or form part of any offer, invitation, inducement or advertisement to sell or issue, or any solicitation or initiation of any offer to purchase or subscribe for, any securities of the Company in any jurisdiction, including the United States and India, nor shall it, or the fact of its distribution form the basis of, or be relied on in connection with, any investment decision or any contract or commitment to purchase or subscribe for any securities of the Company in any jurisdiction, including the United States and India. This presentation does not constitute a recommendation by the Company or any other party to sell or buy any securities of the Company. The distribution of this presentation in certain jurisdictions may be restricted by law and persons into whose possession this presentation comes should inform themselves about and observe any such restrictions. None of the Company's securities may be offered or sold in the United States without registration under the U.S. Securities Act of 1933, as amended, except pursuant to an exemption from registration therefrom.

This presentation and its contents are not and should not be construed as a prospectus or an offer document, including as defined under the Companies Act, 2013, including the rules formulated thereunder (to the extent notified and in force) or an offer document under the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2009 as amended.

In particular, this presentation is not for publication or distribution or release in any country where such distribution may lead to a breach of any law or regulatory requirement. No person is authorized to give any information or to make any representation not contained in or inconsistent with this presentation or and if given or made, such information or representation must not be relied upon as having been authorized by us. Receipt of this presentation constitutes an express agreement to be bound by such confidentiality and the other terms set out herein. Any failure to comply with this restriction may constitute a violation of applicable securities laws. In no event shall the Company be responsible to any person or entity for any loss or damage, whether direct, indirect, incidental, consequential or otherwise, arising out of access or use or dissemination of information contained in this presentation, including, but not limited to, loss of profits.

No representation or warranty, express or implied, is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of the information or opinions contained in this presentation. Neither JPFL nor any of its affiliates, advisors or representatives shall have any responsibility or liability whatsoever (for negligence or otherwise) for any loss howsoever arising from any use of this presentation or its contents or otherwise arising in connection with this presentation. The information set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially. This presentation is based on the economic, regulatory, market and other conditions as in effect on the date hereof. It should be understood that subsequent developments may affect the information contained in this presentation, which neither JPFL nor its affiliates, advisors or representatives are under an obligation to update, revise or affirm.

This presentation contains forward-looking statements based on the currently held beliefs and assumptions of the management of JPFL, which are expressed in good faith and, in their opinion, reasonable. Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, financial condition, performance, or achievements of JPFL or industry results, to differ materially from the results, financial condition, performance or achievements expressed or implied by such forward-looking statements. Significant factors that could make a difference to the Company's operations include, but are not reasonable to, domestic and international economic conditions, changes in government regulations, tax regime and other statutes. Unless otherwise indicated, the information contained herein is preliminary and indicative and is based on management information, current plans and estimates. Industry and market-related information is obtained or derived from industry publications and other sources and has not been independently verified by us. Given these risks, uncertainties and other factors, recipients of this document are cautioned not to place undue reliance on these forward-looking statements. JPFL does not undertake any obligation to update or revise these forward-looking statements to reflect future events or developments.

This presentation contains certain supplemental measures of performance and liquidity that are not required by or presented in accordance with Indian GAAP, and should not be considered an alternative to profit, operating revenue or any other performance measures derived in accordance with Indian GAAP or an alternative to cash flow from operations as a measure of liquidity of the Company.

You must make your own assessment of the relevance, accuracy and adequacy of the information contained in this presentation and must make such independent analysis as you may consider necessary or appropriate for such purpose. Any opinions expressed in this presentation are subject to change without notice and past performance is not indicative of future results. By attending this presentation you acknowledge that you will be solely responsible for your own assessment of the market and the market position of the Company and that you will conduct your own analysis and be solely responsible for forming your own view of the potential future performance of the Company's business.

By accessing this presentation, you accept that this disclaimer and any claims arising out of the use of the information from this presentation shall be governed by the laws of India and only the courts in Mumbai, and no other courts, shall have jurisdiction over the same.

THIS PRESENTATION IS NOT AN OFFER FOR SALE OF SECURITIES IN INDIA, THE UNITED STATES OR ELSEWHERE

Jindal Poly Films Limited

One of the leading manufacturers of BOPP films in the world

- ❖ Jindal Poly Films Limited (“JPFL” or “Company”) is a global flexible packaging solutions provider for consumer goods, with manufacturing operations in India, Europe and US with sales footprint in over 40 countries
 - ✓ Global Market: One of the largest manufacturers of BOPP films with around 5% share of global capacity¹
 - ✓ Domestic Market: One of the key manufacturers in India with largest capacity for both BOPP and BOPET²
- ❖ Capacity to manufacture 430 KTPA (‘000 Tons Per Annum) of BOPP; 126 KTPA of BOPET globally, along-with coating and metalising facilities^{1,2,3}
- ❖ Plans to increase combined BOPP capacity by 161 KTPA globally along-with additions in coating and metalising facilities
- ❖ Offers wide spectrum of packaging solutions with strong R&D capabilities and 250+ registered patents
- ❖ Significant scale economies, Nashik plant is the largest single location plant in the world for manufacture of BOPP Films³
- ❖ Enjoys relationship with several global packaging /consumer goods companies
- ❖ Successful acquisition and turnaround of ExxonMobil’s BOPP films business

1. As per the report on the Global BOPP Film Industry by PCI Films Consulting Ltd dated Dec 2014

2. As per the report on the Global BOPP Film Industry by PCI Films Consulting Ltd dated Dec 2014 and World BOPET Film Market 2013-18 A Statistical Review y PCI Films Consulting Ltd dated Jun 2014 b

3. As per the report on the Global BOPP Film Market Trends to 2016 by PCI Films Consulting Ltd dated August 2012

Business Overview

Jindal Poly Films in Flexible Packaging Value Chain

Product Portfolio

Flagship Business

Base Films

Specialized Films

Product Features

BOPP is a thin, flexible film which can be used as interface with food products or as stretchable packaging items
It has higher moisture retention properties

BOPET is a strong/thick film which is largely used for external applications in packaging.
BOPET improves shelf life of product

Metalized / Coated Films are improvisations in BOPP or BOPET to provide advanced barrier, decorative applications

Product Range

Upto 75 Micron

Thin : Upto 50 Micron
Thick: Over 50 Micron

Customised as per end use requirements

Applications

FMCG packaging, Textile, Tape, Labels
Lamination to Paper and other plastic films

- Thin: FMCG packaging, lamination to other plastic films
- Thick: Electronics, Stationary, Motor Insulation, Sequence for textile

Flexible Packaging Industry, Packaging of food items with moisture, oxygen barrier, Pressure sensitive labels, etc.

JPFL Capacity

210 KTPA in India, 220 KTPA in Europe and US¹

126 KTPA (only in India)²

Metalising 63 KTPA, Coating 4.5 KTPA in India. Also has metalising and coating facilities in Europe and US³

Raw Material

Resins procured from petro-chemical suppliers

Backward integrated with 176.4 KTPA Polyester Chips making Capacity at Nasik, Maharashtra

Base films, aluminum wires and other additives and chemicals

1. As per the report on the Global BOPP Film Industry by PCI Films Consulting Ltd dated Dec 2014
2. As per the report on World BOPET Film Market 2013-18 A Statistical Review y PCI Films Consulting Ltd dated Jun 2014
3. As per the report on the Global BOPP Film Market Trends to 2016 by PCI Films Consulting Ltd dated August 2012

Technical Textiles (Global Non Wovens)

Products

Polypropylene based nonwoven packaging solutions with Germany Technology

Applications

- Hygiene and medical applications

Capacity

Nasik, India – plant commissioned on 1st July 2015, Capacity 18 KTPA

Other Particulars

Currently major part of Indian demand of these products is serviced by imports

Photo Films

Marketing/manufacturing of Photographic Color Paper, Photographic Chemicals, Thermal Printers & Media, Medical X-Ray Films

- Imaging and medical/diagnostics

NA

Jindal Photo and the Company have filed a Scheme of Arrangement under Sections 391-394 of the Companies Act 1956 before the High Court of Allahabad and the High Court of Bombay for demerger of the manufacture of photographic paper and film business and transfer to JPFL

End Use Markets for Flagship Products

BOPP End Uses¹

Global capacity ~ 9,500 KTPA³

BOPET End Uses²

Global capacity ~ 5,000 KTPA²

1. 2011 data: As per the report on Global BOPP Film Market Trends to 2016 by PCI Films Consulting Ltd dated August 2012
2. 2013 data: As per the Report on World BOPET Film Market 2013-18 A Statistical Review by PCI Films Consulting Ltd dated June 2014
3. 2013 data: As per the report on the Global BOPP Film Industry by PCI Films Consulting Ltd dated Dec 2014

Key Investment Highlights

1. Favourable Industry Scenario

Growth Drivers

Growing penetration of packaged food driven by new applications in food retailing, higher disposable incomes

Growing importance of smaller pack sizes

Increasing prominence of organised and online retailing

New converting and packaging equipment, which have increased applications of poly films

Shift from rigid material, aluminum foils, towards flexible packaging driven by lower cost, end-product quality

1. Favourable Industry Scenario contd..

Growth Projected

(Demand in KTPA)

Global BOPP Demand¹

South East Asia & Oceania (including India) BOPP Demand¹

Europe BOPP Demand¹

North America BOPP Demand¹

Global BOPET Demand²

India BOPET Demand²

- End products (FMCG) growth as well as innovations/changes in consumption patterns have ensured global volume growth 4-5%¹
- In medium term US is expected to grow around 4%, Europe being slightly mature market would grow 2.4%¹
- Indian BOPP market demand was ~300 KTPA in 2013, which grew by 10-12% during 2008-13 period¹
- In BOPET global as well as India demand is expecting 8% growth in 2013-18 period²

1. As per the report on the Global BOPP Film Industry by PCI Films Consulting Limited dated December 2014

2. As per the Report on World BOPET Film Market 2013-18 A Statistical Review by PCI Films Consulting Limited dated June 2014

2. Leading Market Position

Global Leader in BOPP films

(Rated Capacity in KTPA)

Global BOPP¹

Europe BOPP¹

North America BOPP¹

India BOPP¹

India BOPET²

1. 2013 data: As per the report on the Global BOPP Film Industry by PCI Films Consulting dated December 2014;

2. 2013 data: As per the Report on World BOPET Film Market 2013-18 A Statistical Review by PCI Films Consulting dated June 2014

3. Global Platform

Geographical Spread

Manufacturing facilities in India, USA, Belgium, Italy and Netherland

- Presence
- Manufacturing Facilities
- ★ Innovation Centre

Breakup of Consolidated Revenues (FY15)

3. Global Platform contd..

Manufacturing Facilities

3. Global Platform contd..

Jindal Films Transformation

Jindal Poly Films India acquired the global BOPP films business of ExxonMobil (now called “Jindal Films”) in 2013

- Jindal Films is a leading manufacturer of BOPP (including Metalized and Coated Films) in US and Europe
- Products mainly used in flexible packaging and label applications by large FMCG companies
- 5 manufacturing units globally – 3 in Europe and 2 in the US – total capacity of 220 KTPA
- Modern technology and R&D capabilities with 250+ patents and a strong product pipeline
- Local customer base includes global brand owners (FMCG) and large converters
- BRC Packaging Standard Certified

.. And has implemented a remarkable improvement in profitability

Quality of Revenue

Took targeted price increases across product categories and also reduced the sales of loss making products

SG&A Cost Reduction

Renegotiated all service and procurement contracts and revisiting the scope of the services, resulting in lower cost

Planning & Implementation

Pre acquisition planning followed by close monitoring during implementation

Global RM Procurement

Leveraging global requirements and relationships for sourcing & introduced new suppliers to create competition

Manufacturing Efficiencies

Continuous focus and shorter payback capex initiatives have resulted in reduction of waste and improvement in the productivity

4x EBIDTA by 1st full FY of operations

3. Global Platform contd..

Jindal Poly Films + Jindal Films consolidated strengths

Jindal Poly Films Ltd (India)

Standard Products

Latest Orientation Technology

Highly Competitive Cost Structure (largest single location plant in the world)¹

Quality Standard Products

Un-interrupted supply with high emphasis on quality

Jindal Films (business acquired from ExxonMobil) (Europe & US)

Premium FMCG Products

R&D and Process Know-how

Downstream Customer Relations and Sales Network

Quality Standard and Value Added Products in the premium segment

Core Business with Long Term Commitment

One of the leading manufacturers in BOPP films

250+ Registered Patents and access to value added products, R&D spend USD 11 million in FY15

Global Solutions for Packaging Innovation

Global Foot Print with Manufacturing Base in 3 Continents

Amalgamating best practices from two different organizational cultures

4. R&D and Technology Focused Product Development

Keeps JPFL ahead of the curve..

Differentiating Capabilities

- ✓ 40 years of commitment & continuous investments in product, process and application technologies
- ✓ Technology building blocks, 250+ patents
- ✓ Strong market and applications knowledge
- ✓ Customer/end-use focused approach for product development
- ✓ Technology centres dedicated for developing innovative product platforms globally

Focus on innovations across the organisation

5. Robust Financial Performance

Recent Trends (consolidated numbers in INR million unless otherwise stated)

Sustained revenue growth

....with improving EBIDTA margins

Steadily improving RoE

Not Annualised, based on only half year's PAT
 ROE = PAT/Average Network of FY and corresponding previous FY

Healthy debt position provides significant headroom for growth

Net Debt = Long Term Borrowings *plus* Short Term Borrowings *plus* Current Maturities of Long Term Debts *minus* Cash and Cash Equivalents *minus* Current Investments

Strategy

Business Strategy

Consolidate leadership position, capitalize on opportunities

- Expand capacity to increase market share in a fragmented industry
- Increase combined BOPP capacity by 161 KTPA globally along with additions in coating and metalising facilities

Expanding BOPP
production in select
locations

Implementation of
new technologies

Inorganic growth
opportunity

- Further strengthen R&D & technical capabilities
- Strive to leverage technology and R&D strengths to create niche products

- Continue to evaluate consolidation and geographical expansion opportunities

Realignment of
production and
marketing
strategies

Continue to
focus on cost
management

- Realign product mix in favour of higher value added and higher margin items
- Increase production of base films

- Further improve cost efficiency
- Strive to further ring-fence from raw material price variability
