Sub: **Intimation of Fire Accident at one Section of Agro Division, Derabassi (Punjab) Plant of the Company.**

Ref: **Intimation under Regulation 30 and other applicable regulations of SEBI (Listing Obligations & Disclosure Requirements) Regulations, 2015**

Dear Sirs,

Please refer your email dated 23rd July, 2019 on the captioned subject matter.

The desired information is as under:

1.Factory/unit where the strike/lock out takes place including reasons for such strike.

There was no strike/lock out in the plants. However, there was fire in one of the plant building which was used for Job work production and investigation is underway to know the cause of fire.

2.Estimated impact on the production/operations in case of strikes/lock outs;

Once the fire was noticed, production in all plants was stopped and power connection was cut off for restricting the fire in that area only. The fire brigades alongwith the Company's Safety team and other workers controlled the fire with the help of Fire Hydrant System, Fire Extinguishers, Foam, Water, etc. Company's safety system was sufficient to meet such instances. Thereafter, once the plant got cooled down, the search operation was started. In this accident eight persons got injured and two were missing. Out of eight one succumbed to injuries and the missing were also found dead. After testing and inspection, the damaged plant has been got segregated and normal operations in all other plants has been resumed w.e.f. 18th July, 2019.

3.Expected quantum of loss/damage caused:

As informed earlier, the full plant is insured under IAR Policy which included interruption of loss and business. The insurance Company has already appointed the Surveyor. The Surveyor has inspected the plant and seeking various information for making estimates and processing of claim. The exact quantum of loss/damage can only be ascertained once the surveyor prepares its report.

Thanking you,

Yours faithfully,
for PUNJAB CHEMICALS AND
CROP PROTECTION LIMITED,

CS. PUNIT K ABROL
