Announcement

Noida (UP), India, Thursday 5th December 2013

Jubilant Life Sciences Limited (JLL) announced today that one of its manufacturing facilities, Jubilant HollisterStier, LLC (JHS) located at Spokane, Washington State, US has been issued a Warning Letter (WL) by US Food and Drug Administration (FDA).

As required by FDA, JHS-Spokane will respond to this WL on or before 12 December 2013. The response will identify corrective actions already been completed as well as some pending corrective actions to ensure on-going cGMP compliance.

FDA specified in the WL that until all corrections have been completed and that they have confirmed correction of the violations and firm compliance to cGMPs, FDA may withhold approval of new applications or supplements listing JHS-Spokane as the drug product manufacturer.

We expect that the on-going manufacturing, distribution and sale of products from this facility will not be impacted as the WL will affect new approvals only. JHS-Spokane is committed to implementing the necessary corrective actions required to address the FDA concerns, and will work closely with the FDA to bring resolution to this matter.

During 1HFY14, the contract manufacturing operations at JHS-Spokane contributed 7% to consolidated sales and 4% to consolidated EBITDA of JLL.
