K2 Infragen Limited Bags Highway Project in Gujarat

With this ~Rs 142 crore order, the company's order book now stands at Rs.550 crore

Gurgaon, 3rd February, 2025 - K2 Infragen Limited, one of the fastest-growing players in India's infrastructure and EPC sectors, has secured a road project contract worth INR 142.14 Crores for the **"Strengthening and Maintenance works/activities on the section from Km 0.00 to Km 123.454 of the Jetpur-Somnath Section (excluding Junagarh Bypass, 103 Km) in the state of Gujarat, under a Performance-Based Maintenance Contract (PBMC)."** The contract was awarded by NHAI to M/s SRM Contractors Ltd. and will be executed by K2 Infragen Ltd.

This order further strengthens K2 Infragen's credentials and enhances its ability to bid for direct contracts from NHAI in the future. With this addition, the company's total order book under execution now stands at INR 550 Crores, providing strong growth visibility.

Commenting on this milestone, Mr. Pankaj Sharma, Managing Director at K2 Infragen, stated: "We are honored to have secured this landmark project-our largest single order in the Roads & Transport infrastructure domain. While the scheduled completion is set for September 2026, we expect to complete most of the construction within this year. The company continues to secure significant contracts of NHAI while diversifying into the Transmission & Distribution (T&D) and Railways sectors. We have developed in-house expertise across design, procurement, and construction supervision, delivering comprehensive EPC solutions spanning roads, railways, water supply, and civil construction. By integrating AI-driven solutions to optimize efficiency in turnkey projects, we are reinforcing our position as a leader in multi-sector infrastructure development. Additionally, we are also actively exploring opportunities in the solar EPC space, anticipating a major breakthrough soon and are actively engaging in discussions with financial institutions to enhance fund-based and non-fund based credit limits."

Additionally, K2 Infragen is actively engaged in discussions with large financial institutions to enhance its banking limits, which will enable the company to:

- Execute the current order book efficiently.
- Continue bidding for attractive opportunities across various infrastructure verticals to further expand its order pipeline.

With a continuously expanding sales pipeline and enhanced execution capabilities, K2 Infragen is on track for consistent, sustainable growth over the next three years, driven by strategic expansion across India. The company is also making steady progress towards its vision of becoming a multi-sector, diversified infrastructure EPC player. Earlier this year, K2 Infragen secured significant orders in the Transmission & Distribution (T&D) and Railways sectors. Additionally, the company is actively exploring opportunities in the solar EPC sector and expects a major breakthrough soon.

About K2 Infragen

Founded in 2015, K2 Infragen is a key player in India's infrastructure development. As an integrated EPC company, it specializes in power and project engineering, delivering large-scale projects across eight Indian states with a focus on quality work and timely completion. The company serves a diverse clientele, including North Western Railways, Hindustan Copper Ltd., Vindhya Telelinks Ltd., L&T, TATA, HG Infra, and GR Infra. K2 Infragen offers a comprehensive suite of services, from project design to execution, along with power engineering solutions tailored to the evolving energy sector. With operations spanning Uttar Pradesh, Rajasthan, Madhya Pradesh, Odisha, Haryana, and Delhi NCR, K2 Infragen continues to demonstrate strong adaptability and execution capabilities. Committed to quality, timely delivery, and exceeding client expectations, the company is well-positioned to make significant contributions to India's infrastructure growth.
