Kabra Extrusiontechnik Q2 FY26 Revenue Grows by 50.8% QoQ at ₹ 1,358 Mn

Mumbai, November 6, 2025: Kabra Extrusiontechnik Ltd. (BSE - 524109, NSE - KABRAEXTRU, ISIN: INE900B01029), one of India's leading extrusion machinery company and emerging battery pack player, has announced its results for the second quarter and half year ended September 30, 2025.

Financial Highlights for the Quarter Ended September 30, 2025:

- Operating Revenues grew by 56.6% QoQ at ₹ 1,346 Mn in Q2FY26
 - Extrusion Machinery revenues increased by 48.0% QoQ at ₹ 887 Mn in Q2FY26
 - Geon (erstwhile Battrixx) revenues surged by 56.3% QoQ at ₹ 470 Mn in Q2FY26
- EBITDA stood at ₹ 90 Mn in Q2FY26 as against ₹ (30) Mn in Q1FY26
- Profit After Tax stood at ₹ 3 Mn in Q2FY25 vis-à-vis ₹ (76) Mn in Q1FY26

Commenting on the performance, Mr. Anand Kabra, Chairman & Managing Director of Kabra Extrusiontechnik Ltd. said,

"I am pleased to share that our company has achieved an impressive 56.6% quarter-over-quarter increase in revenues. This performance is driven by strong contributions from both our Extrusion Machinery and Geon divisions.

However, the demand outlook for Extrusion Machinery business in exports continues to be weighed by challenging global macroeconomic factors including rising tariff leading to higher landing cost. Additionally, on the domestic demand front, there is a temporary moderation in capex demand owing to extended monsoon and delayed government spent. However, we are confident that factors such as GST rationalization, an above-average monsoon, positive consumer sentiment, and easing inflation will stimulate private consumption and lead to a resurgence in capital expenditure in the upcoming quarters.

Our Geon division has shown exceptional growth, with a remarkable 56.3% increase quarter-over-quarter. This success is largely due to strong batterie pack sales, as well as significant contributions from new initiatives, including E-3 Wheeler batteries, electric light commercial vehicles batteries, High Voltage division, after-market sales, and Battery Energy Storage Systems.

Geon is making significant strides into the B2C market with its advanced lithium-ion inverter batteries, aimed at improving energy access in regions affected by frequent power outages. These batteries also provide efficient energy storage solutions for households and small businesses.

Currently in the investment phase, Geon is enhancing its research and development capabilities by bringing in skilled personnel and expanding into new business sectors. Geon is in a transitional phase that is expected to drive substantial revenue growth in the upcoming quarters."

About Kabra Extrusiontechnik Ltd. (KET):

KET is India's premier manufacturer & exporter of plastic extrusion machineries. KET is a part of renowned Kolsite Group having over 6 decades of experience, more than 15,000 installations and presence around 100+ countries in Americas, Middle East, Asia and Africa. KET enjoys leadership position in the extrusion market. KET constantly endeavours to offer better solutions to plastics processors across the globe. Kabra Extrusiontechnik has set benchmarks in plastics extrusion industry by modern R&D techniques and various processes to cater the market requirements.

Geon (erstwhile Battrixx) is the future technologies division of KET. It is dedicated to developing and producing green energy systems and solutions that will power the growth of India's transition into green energy storage and electric transportation. It is the largest chemistry agnostic battery pack manufacturer with a culture of continuous innovation through strong R&D capabilities. Geon provides real time data feedback loops to the OEMs. It has the capabilities to manufacture safe, optimum and regulatory compliant battery packs. Geon enjoys long term co-development partnerships with OEMs. The brand stands tall with state-of-the-art facilities for design, development and production in Chakan, Pune. The noble objectives are epitomised by the brand's flagship product – advanced lithium-ion battery packs and modules for e-vehicles and energy storage solutions.
