Press Release

Kabra Extrusiontechnik Q1 FY27 Revenues grew by 44.8% YoY to ₹ 1,245 Mn
Geon revenues surged by 133.1% YoY to ₹ 701 Mn

Mumbai, July 30, 2026: Kabra Extrusiontechnik Ltd. (BSE - 524109, NSE - KABRAEXTRU, ISIN: INE900B01029), one of India's leading extrusion machinery company and emerging battery pack player, has announced its results for the first quarter ended June 30, 2026.

Financial Performance: Q1 FY27

Particulars (₹ in Million)	**Q1 FY27**	**Q1 FY26**	**YoY**	**Q4 FY26**	**QoQ**	**FY26**
Revenues	1,245	860	44.8%	1,201	3.6%	4,511
EBITDA	60	(30)	N.A.	30	109.4%	104
EBITDA margin	*5.0%*	*(3.4%)*	*N.A.*	*2.5%*	*251 bps*	*2.3%*

Financial Highlights for the Quarter Ended June 30, 2026:

- Operating Revenues grew by 44.8% YoY to ₹ 1,245 Mn in Q1 FY27
    - Extrusion Machinery revenues stood at ₹ 544 Mn in Q1 FY27
    - Geon revenues grew exponentially by 133.1% YoY to ₹ 701 Mn in Q1 FY27
- EBITDA stood at ₹ 60 Mn in Q1 FY27; EBITDA margin was at 5.0% during the quarter

Commenting on the performance, Mr. Anand Kabra, Managing Director of Kabra Extrusiontechnik said, *"We continued to advance our dual-engine growth strategy in Q1 FY27, delivering a strong performance despite a challenging operating environment. Revenue surged by 44.8% YoY to ₹1,245 million during the quarter, driven by the exceptional momentum in Geon's lithium-ion battery business, which grew by 133.1% YoY to ₹701 million in Q1 FY27. Focused execution and operational efficiencies also enabled the Company to return to positive EBITDA during the quarter.*

The Company continued to strengthen its market position despite temporary softness in the extrusion machinery segment, particularly in pipe applications. Although elevated raw material prices and higher logistics costs moderated segment margins during the quarter, the underlying business fundamentals remained strong, positioning the segment for improved performance as market conditions normalise.

On the other hand, Geon continued to benefit from accelerating EV adoption, supported by improving ownership economics and favourable industry dynamics. The division further strengthened its position across electric mobility, energy storage, telecom, solar, and residential power backup segments, reinforcing its role as a key growth driver for the Company.

Backed by strong engineering capabilities, advanced manufacturing infrastructure, and a robust balance sheet, we are well-positioned to capitalize on the significant opportunities emerging from India's infrastructure development and energy transition, driving sustainable value creation for all stakeholders in the coming years."

About Kabra Extrusiontechnik Ltd. (KET):

Kabra Extrusiontechnik (KET) is India's premier manufacturer & exporter of plastic extrusion machineries. KET is a part of renowned Kolsite Group having over 6 decades of experience, more than 15,000 installations and presence around 100+ countries in Americas, Middle East, Asia and Africa. KET enjoys leadership position in the extrusion market. KET constantly endeavours to offer better solutions to plastics processors across the globe. Kabra Extrusiontechnik has set benchmarks in plastics extrusion industry by modern R&D techniques and various processes to cater the market requirements.

Geon (erstwhile Battrixx) is the future technologies division of KET. It is dedicated to developing and producing green energy systems and solutions that will power the growth of India's transition into green energy storage and electric transportation. It is the largest technology agnostic battery pack manufacturer with a culture of continuous innovation through strong R&D capabilities. Geon provides real time data feedback loops to the OEMs. It has the capabilities to manufacture safe, optimum and regulatory compliant battery packs. Geon enjoys long term co-development partnerships with OEMs. The brand stands tall with state-of-the-art facilities for design, development and production in Chakan, Pune. The noble objectives are epitomised by the brand's flagship product – advanced lithium-ion battery packs and modules for e-vehicles.
