

Royal Air Maroc selects FinesseMBS™

The airline chooses the class-leading IATA SIS compliant solution that automates and standardises the entire miscellaneous billing process

Barcelona, Mumbai, New Jersey, 29 August, 2012: Accelya Kale Solutions Limited is part of the Accelya Group, a leading solution provider to the Airline and Travel industry, today announced that, Royal Air Maroc, the flag carrier airline of Morocco, has selected Accelya Kale's FinesseMBS™ to automate and standardise the entire Miscellaneous billing process.

Speaking on the occasion Mr. Yousfi Fouad, Director of Information System, Royal Air Maroc said, "Royal Air Maroc wanted to acquire a solution to replace the existing legacy system, apart from achieving automation and compliance. FinesseMBS™ is an ideal fit for us, as it not only helps us achieve SIS compliance, but also automates the entire miscellaneous billing process. It has the capability to seamlessly integrate with our existing airline and airport systems".

FinesseMBS™ will enable Royal Air Maroc to:

- Ensure compliance to IATA's SIS (Simplified Interline Settlement) standards for miscellaneous billings
- Prevent revenue leakages in miscellaneous billing
- Reduce implementation risks significantly by rapid deployment methodology
- Reduce total cost of ownership through SaaS model (Software-as-a-Service)
- Reduce manual work through implementation of Contract Management system and automated interface to accounting system

Speaking on this occasion, Mrs. Neela Bhattacharjee, Head - Airlines SBU, Accelya Kale Solutions said, "FinesseMBS™ is built on modern technology and includes industry best practices for miscellaneous billing. We are happy to be selected by Royal Air Maroc as their trusted service provider."

About FinesseMBS™

FinesseMBS™ is a SIS-compliant solution that streamlines miscellaneous receivables and payables. Using a single, integrated invoicing and settlement process, FinesseMBS standardises billing and accounting practices across business units. A powerful contract management engine helps airlines effectively manage pricing contracts and prevent revenue leakage.
