Management Commentary

Mr. Shashank Agarwal, Deputy Managing Director of Kanpur Plastipack Ltd., said:

"We have begun FY27 on a strong note, delivering healthy growth across revenue and profitability despite global disturbances and supply chain disruptions. Our focus on improving product mix, operational efficiency and disciplined execution, combined with the strength of our long-standing relationships with suppliers and distributors, enabled us to navigate this crisis effectively and report robust year-on-year growth in EBITDA and net profit.

A significant milestone during the quarter was the successful commencement of commercial production and sales of Premium Taslan Yarn through our Joint Venture, ESSEKAN Private Limited. This marks the transition of our strategic investment into commercial operations and further strengthens our capabilities in value-added technical textile applications.

We are also progressing well on our Non-Woven Fabrics project and remain on schedule to commission the facility by September 2026. Together, these initiatives represent important growth engines that will diversify our product portfolio, expand our addressable market and enhance long-term profitability.

Supported by our diversified export presence, strong customer relationships and continued investments in manufacturing excellence, we remain confident of creating sustainable long-term value for all our stakeholders."
