Dear Sir/Madam,

Subject: Kavveri Defence & Wireless Technologies Limited (“Kavveri”) Wins Major Global Account via Wholly Owned Subsidiary Til-Tek

Ref: Disclosure under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (“Listing Regulations”)

We are pleased to inform you that Til-Tek, the North American wholly owned subsidiary of Kavveri Defence & Wireless Technologies Limited, has been **approved as a vendor by a leading US-based multinational** engaged in large-scale industrial and infrastructure solutions, with a strong global presence across the United States, Europe, and the Asia-Pacific region.

The customer plays a pivotal role in enabling advanced connectivity and automation across critical industrial systems. Til-Tek’s RF antenna products have now been **exclusively embedded into their network design framework**, following a rigorous technical qualification process. This development underscores Kavveri’s growing credibility in delivering robust, high-performance wireless RF products for complex deployments.

Notably, this engagement **follows the replacement of a long-standing international incumbent**, reflecting Kavveri group’s ability to deliver dependable, technologically advanced, application-specific products at a significantly more competitive cost structure. It highlights our focus on innovation-led execution, where performance, design flexibility, and value are key differentiators. This engagement represents a **\$2 million (approximately ₹17.3 crores) revenue opportunity**, with the relationship expected to expand into Kavveri serving as a comprehensive RF subsystem partner for this global customer in the future. As deployments accelerate, volumes are expected to scale steadily over the coming quarters, further reinforcing Kavveri’s momentum across all segments of the RF marketplace from high-performance antennas and filters to complete subsystem design and delivery.

Mr. Shivakumar Reddy, Managing Director of Kavveri Defence & Wireless Technologies Limited, commented:
“This milestone reflects our ongoing commitment to earning the trust of global leaders in critical infrastructure. Antennas form the backbone of every communication system, and our proven track record in quality and excellence was a key factor in securing this global account. It stands as a testament to the passion of our people, the strength of our engineering, and the clarity of our strategic focus.”
