DATE: 8<sup>th</sup> October, 2025

Dear Sir/Madam,

**Sub: Disclosure pursuant to Regulation 30 of The Securities and Exchange Board of India (LODR) Regulations, 2015.**

**REF: SCRIP CODE: KCEIL**

**Pursuant to Regulation 30(6) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, we are delighted to announce that our Revenue from operations for the six months ended 30th September 2025 stood at ₹83.32 crores**

This performance underscores our robust business fundamentals, operational excellence and sustained growth trajectory in the power transmission sector. The Company continues to build on its strategic initiatives, driving consistent value creation and reinforcing its position as a reliable and competitive player in the industry.

## **Management Commentary**

India's power sector is witnessing strong investment momentum, with over ₹18 lakh crore expected to be infused over the next 5–7 years, building on ₹20 lakh crore invested in the past decade. Government-led transmission and distribution reforms, coupled with rising evening peak demand and growing electrification, are driving the need for robust, future-ready infrastructure. As renewable integration and grid modernization accelerate, the transmission sector remains a key pillar of India's energy transition and economic growth.

With a strong order book, strategic expansion into renewables, and a favorable sectoral tailwind, the company is well-positioned to sustain growth and drive long-term value for stakeholders."

The detailed half yearly results as per the applicable regulations will be submitted in due course. Thank you for your continued support and partnership.

**For, KAY CEE ENERGY & INFRA LIMITED**
