## **Kellton Tech Strengthens Credit Profile with ‘IND A- / Stable’ Rating; Reinforces Growth and Financial Discipline**

*India Ratings & Research has upgraded the organization’s long-term issuer rating on account of sustained operational momentum*

**Hyderabad, April 30, 2026:** Kellton Tech Solutions Ltd., an AI-led digital transformation and enterprise technology consulting company, has announced that **India Ratings & Research (Ind-Ra)—a subsidiary of the Fitch Group**—has upgraded its long-term issuer rating to ‘IND A-’ with a Stable Outlook. This rating further reinforces Kellton’s improving credit profile and sustained operational momentum. This upgrade follows a recent rating action by ICRA, which underscores a consistent and independent validation of Kellton’s strengthening fundamentals across key financial and business parameters.

Kellton’s diversified client base and deep domain expertise across industries have enabled resilient growth, even in a dynamic macro environment. The company has also demonstrated disciplined capital allocation while continuing to invest in high-growth areas such as AI, data, and platform-led transformation. The “Stable Outlook” reflects confidence in Kellton’s ability to maintain its financial discipline and operational consistency, while continuing to scale its global delivery capabilities and expand its digital services portfolio.

**Niranjan Chintam, Executive Chairman, Kellton Tech Solutions Limited** said, “The upgrade by India Ratings & Research reflects the consistency of our execution and the progress we have made in strengthening our financial and operational fundamentals. What is particularly encouraging is the alignment of independent external assessments on our improving credit profile, which reinforces confidence in the direction we are taking as an organization. We remain focused on maintaining financial discipline while continuing to invest in high-impact areas such as AI and cloud-led services, ensuring that we build a resilient and scalable growth platform for the long term.”

### **What the Ind-Ra rating upgrade reflects:**

- Continued improvement in operating performance and profitability
- Strengthened balance sheet with prudent leverage
- Healthy cash flow generation and liquidity position
- Strong client retention, with a high proportion of repeat business
- Sustained demand across digital transformation, AI-led services, and cloud-native engineering

Kellton continues to see strong traction across its core service lines, including digital transformation programs, AI-led intelligent automation, cloud modernization, and enterprise platform implementations. The company is well-positioned to benefit from sustained enterprise demand for technology-led transformation initiatives globally.

### **About Kellton**

Kellton is an AI-led digital transformation and technology consulting company with global delivery capabilities. The company partners with enterprises to build scalable digital platforms, modernize operations, and accelerate intelligent automation journeys. With over 2,000 professionals across North America, Europe, the Middle East, and Asia, Kellton delivers solutions across cloud, data, AI, enterprise platforms, and digital product engineering.
