Sub.: Press Release – KP Energy Limited Receives Inter-State Electricity Trading Licence from CERC, Expanding Access to Nationwide Power Markets

Dear Sir/Madam,

Pursuant to the Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015, please find enclosed herewith a press release titled “*KP Energy Limited receives Inter-State Electricity Trading Licence from CERC, Expanding Access to Nationwide Power Markets.*”

We would like to inform that KP Energy Limited has been granted an **Inter-State Electricity Trading Licence (Category V)** by the Central Electricity Regulatory Commission (CERC). This approval enables the Company to undertake electricity trading across state boundaries and participate in nationwide power markets, thereby **strengthening its market reach and trading capabilities.**

This is for your information and records.

Thanking You,

Yours Faithfully,

For K.P. Energy Limited

For immediate release

KP Energy Limited Receives Inter-State Electricity Trading Licence from CERC, Expanding Access to Nationwide Power Markets

KP Energy Limited has been granted an **Inter-State Electricity Trading Licence (Category V)** by the Central Electricity Regulatory Commission (CERC), marking an important step in strengthening the Company's presence in India's evolving power markets.

This approval authorises the Company to undertake electricity trading across state boundaries, enabling participation in national power markets and enhancing the Company's ability to align power sales with demand dynamics across regions.

With this licence, the Company is now positioned to participate in inter-state electricity trading seamlessly, expanding its commercial capabilities and laying the foundation for a broader power marketing platform.

Commenting on the development, Dr. Faruk G. Patel, Founding Promoter & Managing Director, said:

"The inter-state electricity trading licence marks a significant milestone for KP Energy Limited as we expand our capabilities in the power markets. It enhances our flexibility in power sales, enables better realizations through market-linked mechanisms, and supports our strategy of building a more integrated renewable energy platform."

With this licence in place, the Company will be able to:

1. **Access demand centres across multiple states**, beyond region-specific offtake arrangements.
2. **Optimize power sales dynamically**, based on market conditions and pricing signals.
3. **Engage with a broader customer base**, including utilities and commercial & industrial consumers.
4. **Participate in exchange-led and short-term markets**, complementing long-term contracting strategies.

This development aligns with KP Energy's broader strategy of strengthening its commercial and market-facing capabilities and marks a step towards building a scalable presence in India's electricity trading ecosystem.

About KP Group:

Established in 1994, by Dr. Faruk G. Patel, KP Group has grown into a multi-faceted conglomerate with core expertise in renewable energy, infrastructure, and innovation. Over the past three decades, the group has championed sustainability by spearheading transformative projects in wind and solar energy, thereby contributing to India's green energy mission. With a strong portfolio of renewable energy projects, KP Group has earned a reputation as a trusted partner for companies committed to reducing their carbon footprint. The group remains steadfast in its mission to contribute meaningfully to India's energy transition while setting new benchmarks in the renewable energy sector.
