Airport Authority of India (AAI) goes live with ERP modernization within record time

KPIT Cummins completes SAP ERP roll-out across 125 airports simultaneously in 8 months

Pune, INDIA; April 5, 2013: KPIT Cummins Infosystems Ltd. (BSE: 532400; NSE: KPIT) announced the Go-Live of SAP ERP for the Airport Authority of India (AAI). As a part of E-Governance initiative, AAI decided to implement ERP in HR, Finance, Material Management and Project System functions to improve productivity, efficiency and transparency under the project named "PARIVARTAN." KPIT was selected as the implementation partner in June 2012.

The SAP ERP implementation by KPIT Cummins covers 125 Airports across India and is being synchronized with the new financial year. The system will handle payroll accounting for nearly 19000 employees of AAI at various Airports across the country. The system will also be integrated with the legacy systems such as Electronic Tendering and Procurement System (ETAPS), Airport Information Management System (AIMS) etc. With this implementation the organization shall become process driven and substantially paperless. Apart from automating the HR, Finance, Material Management and Project Systems functions, the system will provide "MIS dashboards" for senior management.

Shri K.N. Srivastava, IAS, Secretary Civil Aviation, Govt. of India was the Chief Guest on the occasion of Go-Live of project "PARIVARTAN". Shri V.P. Agrawal, Chairman, AAI, Board Members and Senior Officers of AAI graced the occasion. Also present were Mr. Mathew Thomas, Vice President SAP India, Mr. Pawan Sharma, President & Head of Integrated Enterprise solutions, KPIT Cummins and Mr. Vishal Jain, Vice President, SAP Business Unit, KPIT Cummins along with their team members.

On the occasion of 'PARIVARTAN' Go-Live, Shri V.P. Agrawal, Chairman, AAI said, "This new enterprise software implementation will not only improve productivity, efficiency and cost effectiveness but will also bring high level of transparency in the vital HR and finance functions within the organization. The ERP implementation will enable standardization of processes across all the AAI operations in India and will become an accurate and single source of information."

Mr. Pawan Sharma, President, KPIT Cummins Infosystems Ltd. said, "We leveraged our proven expertise and experience in large scale ERP implementations to partner with the Airport Authority of India in their ERP modernization program which included digitization of over 20 years' of HR data of more than 18000 employees. We brought in all regional & main offices under an integrated single system instance software solution and integrated it with various pre-existing legacy applications."

About AAI

Airports Authority of India (AAI) is the mainstay of Civil Aviation Sector in the country. AAI manages 125 airports, including 19 international airports (3 civil enclaves), 7 custom airports (4 civil enclaves), 80 domestic airports and 19 other civil enclaves. AAI also provides CNS-ATM facilities at all the civil airports in the country. AAI control and manages the entire Indian airspace covering 2.8 million square nautical miles, which includes 1.05 million square nautical miles on land and 1.75 million nautical miles over the ocean. This includes 5 newly declared International airports at i.e. Tiruchirapalli, Coimbatore, Mangalore, Varanasi and Lucknow. Earlier these airports were Customs airports where requisite facilities were extended, as desired, as per the norms of an international airport in terms of customs, Immigration, Health, Animal & Plant Quarantine etc.; on temporary basis. This has opened the door for more international flights to different destinations. AAI is continuously engaged in the modernization and upgradation of airport infrastructure, both metro and non-metro airports including Tier-II & Tier-III cities.
