Press release

KPIT Cummins' Chhote Scientists Program to reach 1,600 school children this academic year

The CSR program aimed at developing scientific acumen and love for science in underprivileged students

Pune, September 5, 2013: As the nation celebrates Teachers' Day to appreciate the contribution of its teaching fraternity, KPIT Cummins (BSE: 532400; NSE: KPIT), a leading product engineering and IT consulting partner to automotive & transportation, manufacturing and energy & utilities corporations, today kick-started its enhanced flagship corporate social responsibility (CSR) program, Chhote Scientists, for the year 2013. Aimed at reaching over 1,600 students by the end of the academic year, this initiative endeavors to develop scientific acumen and cultivate the love for science in students and encourage them to embrace real application of scientific principles.

Commenting on the success achieved last year by the program, **Pankaj Sathe, Chief People & Operations Officer, KPIT Cummins** said: "A scientific and inquisitive mindset is critical in accelerating cognitive growth and logical reasoning in children. However, a lack of emphasis on practical teaching of fundamentals of science and our rigid education curricula are draining out creativity and rational thinking in today's youth. The nation requires astute young minds with scientific acumen and 'Chhote Scientists' is helping to bridge this gap and create a positive social impact. We are planning to reach out to a larger section of beneficiaries by targeting over 1,600 students in Pune as well as replicating the program at our centers across India and the USA."

Highlights of the program:

- KPIT to reach 1,600 students in five months with a team of over 800 volunteers from the company
- Over 120 programs on topics such as pressure, motion, magnetism, electricity and energy, to be conducted for students of Standard 8th and 9th across 20 schools in Maval and Mulshi Talukas
- Collaboration with the prestigious Jnana Prabodhini institution in Pune to source and develop innovative science learning kits from easily available materials
- Encouraging volunteering response to the initiative across the company through easy registration on the KPIT CSR website

Note: About KPIT's CSR philosophy

KPIT's CSR philosophy states that employees of KPIT will contribute to CSR initiatives through their actual efforts and not just in terms of monetary contribution. KPIT will work in select areas with full commitment in a collaborative manner with other like-minded organizations. The progress of CSR initiatives will not be bound by limitations of time, money, place or commitment.
