KPR responds to surging demand in Garment Sector through Expansion

Emergence of India as the Second Largest Textile Exporter in 2013 has geared up Indian Textile Players to widen their production base.

In order to meet increased demand in garment exports, KPR Mill has initiated expansion plans in its Garment Business. Besides expanding capacity of its existing facility, it adds up a new facility near Tirupur - the Asia's Largest Knitwear Cluster.

- **Capacity Addition of 10 Million Pieces p.a at existing garment facility**

This shall increase its present capacity of 30 Million pieces to 40 Million pieces per annum (single shift). Since major infrastructures are already in place, its operation is expected during the First quarter of FY 15. It would result in creation of direct employment for about 1,000 People

- **Creation of a New Garment Facility with 12 Million Pieces p.a Capacity**

At Thekkalur , near Tirupur, a new unit with 12 Million Pieces per annum capacity is being set up. Land has already been acquired and construction work has commenced. It is expected to become operational during the Fourth quarter of FY 15. It would result in creation of direct employment for about 1,200 People.

These capacity additions are expected to enhance the overall garment operations of KPR by over 50% in two years.
