1. Instruction

iVAS Partners (Valuer Registration Number: IBBI/RV-**E/02/2020/112; hereinafter referred as 'Valuer')** represented by its partner Mr. Shubhendu Saha, a registered valuer under the Companies Act 2013 with IBBI (Valuer Registration Number: IBBI/RV/05/2019/11552) has been instructed by Knowledge Realty Office Management Services Private Limited (hereinafter referred as the 'Management', the 'Instructing Party') in its capacity as the Manager of Knowledge Realty Trust **('KRT REIT' or 'REIT')** to estimate the Market Value (MV) of the Subject Assets as of September 30, 2026 comprising commercial office real estate assets located across North India (Gurugram), West India (Mumbai & GIFT City, Ahmedabad) and South India (Hyderabad, Bengaluru & Chennai) and four solar plants located across Karnataka and Maharashtra (herein referred as the 'Subject Asset(s)' or 'Asset(s)' across the Summary Report). Further, the valuation has been carried for the respective assets in accordance with the **Securities and Exchange Board of India (Real Estate Investment Trusts) Regulations, 2014 ('SEBI REIT Regulations 2014')**. This Summary Report is a summary of the full valuation report prepared in accordance to the requirements of Regulation 21 of SEBI (REIT) Regulations, 2014

Additionally, the Valuer has relied upon the market intelligence provided by CBRE for market analytics covering overall structure and condition of the relevant markets including analysis of the supply-demand situation, the market trend and investment activities.

The details of the assets under the purview of this valuation exercise are tabulated below:

Source: Information provided by the Management

1.1 Intended Purpose

We understand that the valuation is required by the Management for Financial and Investor Reporting purpose to comply with the requirements of Regulation 21 of the SEBI (REIT) Regulations, 2014.

1.2 Reliant Party

The Reliant Parties to the Summary Report will be Knowledge Realty Office Management Services Private Limited as the Manager of Knowledge Realty Trust, its holdcos, special purpose vehicles (Asset SPVs), investment entities and Axis Trustee Services Limited (the Trustee for KRT REIT) for the purpose of the valuation as highlighted in this report. We also provide our consent to share this Summary Report on non-reliance basis with the auditors and advisors to the Management.

The valuation has been prepared strictly and only for the use of the parties as stated above (Reliant Parties) and for the Intended Purpose specifically stated.

1.3 Limitation of Liability

- Valuer is neither responsible for any legal due diligence, title search, zoning check, development permissions and physical measurements nor did it undertake any verification/ validation of the zoning regulations/ development controls etc. Valuer is not operating under any financial services license when providing this Summary Report and this document does not constitute financial product advice. Investors should consider obtaining independent advice from their financial advisor before making any decision to invest in KRT REIT.

- Valuer has provided the services exercising due care and skill, but Valuer does not accept any legal liability arising from negligence or otherwise to any person in relation to possible environmental site contamination or any failure to comply with environmental legislation, which may affect the value of the Subject Assets. Further, Valuer shall not accept liability for any errors, misstatements, omissions in the Summary Report caused due to false, misleading or incomplete information or documentation provided to Valuer by the Management. Notwithstanding

the foregoing and anything to the contrary, nothing should limit or exclude the liability of Valuer for (i) fraud, gross negligence and wilful misconduct; (ii) breach of the obligations of confidentiality under this Letter of Engagement (LOE); or (iii) anything else which may be otherwise excluded by the applicable law.

- In the event that any of the Sponsors, Manager, Trustee, KRT REIT, in connection with the report be subject to any claim (Claim Parties) in connection with, arising out of or attributable to the Summary Report, the Claim Parties will be entitled to require Valuer to be a necessary party/respondent to such claim and Valuer shall not object to their inclusion as necessary party/respondent. If Valuer does not co-operate to be named as a necessary party/respondent to such claims or co-operate in providing adequate/successful defence in defending such claims, the Claim Parties jointly or severally will be entitled to initiate a separate claim against Valuer in this regard and Valuers liability shall extend to the value of the claims, losses, penalties, costs and liabilities incurred by the Claim Parties.

- The Management agrees to the fullest extent permitted by law, the aggregate liability of Valuer and its professionals, officers, partners, employees, agents for any and all claims, losses, indemnities, costs, expenses or damages (Claim) shall be limited to INR 30 Mn

- The liability of the Valuer is limited to the Instructing Party, and any Reliant Party nominated within the Summary Report only. No accountability, obligation or liability to any third parties is accepted by the Valuer. Valuer disclaims all liability to any investor.

- No liability is accepted for any loss, harm, cost or damage (including special, consequential or economic harm or loss) suffered as a consequence of fluctuations in the real estate market subsequent to the date of valuation. Valuer shall not be liable for any indirect, special, punitive or consequential loss or damage howsoever caused, whether in contract, tort or otherwise, arising from or in connection with the Summary Report.

- Valuer accepts no responsibility or liability whatsoever

  (i) unless full disclosure of all information and matters that may have an impact upon the value and marketability of the asset has been made by the Instructing Party or

  (ii) for any matter arising out of or in relation to possible environmental site contamination or any failure to comply with environmental legislation which may affect the value of the asset.

- None of our employees, partners or Valuers hold any individual contract with the Management or owes them a duty of care.

- Valuer has prepared this Summary Report relying on and referring to information provided by the Management and/or third parties including financial and market information (Information'). Valuer has assumed that the information is accurate, reliable and complete and has not independently verified such information.

- The Summary Report draws attention to the key issues and considerations impacting value and provides a detailed assessment and analysis as well as key critical assumptions, general assumptions, disclaimers, limitations, qualifications and recommendations. As commercial investments of this nature are inherently complex and the market conditions have changed and/or have been uncertain in recent times.

- This Summary Report may not be reproduced in whole or in part without the prior written approval of the Valuer. This Summary Report does not purport to contain all the information that a potential investor or any other

interested party may require. It does not consider the individual circumstances, financial situation, investment objectives or requirements. It is intended to be used as guide and for information purposes only and does not constitute advice including without any limitation, investment, tax, legal or any other type of advice. The valuations stated are only best estimates and are not to be construed as a guarantee. Potential investors should not rely on any material contained in the Summary Report as a statement or representation of fact but should satisfy themselves as to its correctness by independent investigation.

1.4 Valuer Capability

iVAS Partners, (Valuer Registration Number: IBBI/RV-E/02/2020/112), a registered valuer entity, represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552) delivers independent valuation (across categories viz. land & building, plant & machinery, and securities or financial assets), advisory and technical due diligence services, that combine professional expertise with comprehensive databases, analytics and market intelligence across various asset classes and locations in India.

Mr. Shubhendu Saha is registered as a valuer with the Insolvency and Bankruptcy Board of India (IBBI) for the asset class Land and Building under the provisions of The Companies (Registered Valuers and Valuation) Rules, 2017 since May 15, 2019. He completed his bachelor's in planning from the School of Planning and Architecture, New Delhi in 1997 and master's in management studies from Motilal Nehru National Institute of Technology, Allahabad in 1999. He has previously valued the assets in the portfolio of Mindspace Business Parks REIT and Brookfield India Real Estate Trust for the purpose of IPO and subsequent investor reporting under the provisions of SEBI (REIT) Regulations, 2014.

1.5 Disclosures

This Valuer hereby certify that:

- iVAS Partners (Valuer Registration Number: IBBI/RV-E/02/2020/112), represented by its partner Mr. Shubhendu Saha (Valuer Registration Number: IBBI/RV/05/2019/11552), is registered as a registered valuer entity under Section 247 of the Companies Act, 2013 and The Companies (Registered Valuers and Valuation) Rules, 2017, as amended, and is eligible to be appointed as Valuer under the provisions of the SEBI REIT Regulations, 2014, as amended and that the Summary Report has been prepared in accordance with these regulations.
- iVAS Partners (represented by Mr. Shubhendu Saha - Partner, iVAS Partners) is not an associate of the KRT REIT, its Sponsors, their respective Sponsor Group, the Manager or Trustee.
- The Valuer, has the required minimum five years of experience in the valuation of real estate assets, as required under the SEBI REIT Regulations, 2014.
- The Valuer has not been involved with the acquisition or disposal within the last twelve months of any of the Assets valued under this Summary Report.
- The Valuer has adequate and robust internal controls to ensure the integrity of the Summary Report.
- The Valuer has sufficient key personnel with adequate experience and qualification to perform services related to asset valuation at all times.
- The Valuer has sufficient financial resources to enable them to conduct their business effectively and meet their liabilities.
- The Valuer has acquainted itself with all laws or regulations relevant to such valuation.
- iVAS Partners is not prohibited from acting as a valuer under applicable law.

- The valuation of assets undertaken is impartial, true and fair and in accordance with the SEBI REIT Regulations, 2014.
- The Valuer and any of its employees involved in valuation of the REIT Assets are not invested in and shall not invest in units of the REIT or in the Assets being valued during the time such entity/person is designated as valuer of such REIT and not less than 6 months after ceasing to be valuer of the REIT.
- The Valuer has conducted the valuation of the REIT Assets with transparency and fairness and has rendered and shall render, at all times, high standards of service, exercise due diligence, ensure proper care and exercise professional judgement.
- The Valuer has acted with independence, objectivity and impartiality in performing the valuation.
- The Valuer has discharged its duties towards KRT REIT in an efficient and competent manner, utilizing its knowledge, skills and experience in best possible way to complete the said assignment.
- The Valuer has not and shall not accept remuneration, in any form, for performing a valuation of the REIT Assets from any person or entity other than Management or its authorized representatives.
- The Valuer has no present or planned future interest in the Management, Trustee, the Sponsors to the KRT REIT and its sponsor groups or the Asset SPVs, holdcos, investment entities and the fee for this Summary Report and the valuation exercise is not contingent upon the values reported herein. Our valuation analysis should not be construed as investment advice; specifically, we do not express any opinion on the suitability or otherwise of entering into any financial or other transaction with the Management or the Asset SPVs/ holdcos/ investment entities.
- The Valuer shall before accepting any assignment from any related party to the KRT REIT, disclose to Management, any direct or indirect consideration which the Valuer may have in respect of such assignment
- The Valuer shall disclose to the KRT REIT, any pending business transactions, contracts under negotiation and other arrangements with the Management or any other party whom the KRT REIT is contracting with and any other factors which may interfere with the Valuer's ability to give an independent and professional valuation of the asset; as on the date of valuation, there are no impediments for Valuer to give an independent professional value opinion of the asset.
- The Valuer has not made false, misleading or exaggerated claims in order to secure assignments.
- The Valuer has not and shall not provide misleading valuation, either by providing incorrect information or by withholding relevant information
- The Valuer has not accepted and shall not accept an assignment that includes reporting of the outcome based on predetermined opinions and conclusions required by the Management
- The Valuer has not accepted the said assignment which interferes with its ability to do fair valuation
- The valuation undertaken by the Valuer abides by International Valuation Standards (effective from 31 January 2025, as applicable on the date of valuation), for valuation in compliance with The Companies (Registration of Valuers and Valuation) Rules, 2017
- The Valuer understands that most of these Assets are wholly/partly owned/ tenanted by related parties, hence, any transactions related to these Assets from the related parties being valued would be related party transactions.
- The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the Assets based on the title report prepared by Cyril Amarchand Mangaldas, Indus Law, Parinam and Trilegal

(hereinafter referred to as 'Legal Counsels'). The Valuer does not have the expertise or the purview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective Assets have title that is clear and marketable.

1.6 Assumptions, Disclaimers, Limitations & Qualifications to Valuation

Valuation Subject to Change:	The subject valuation exercise is based on prevailing market dynamics as on the date of valuation and does not take into account any unforeseeable developments which could impact the same in the future
Our Investigations:	The Valuer is not engaged to carry out all possible investigations in relation to the Subject Assets. Wherever in the Summary Report the Valuer has identified certain limitations to our investigations, this is to enable the reliant party to instruct further investigations as considered appropriate or the Valuer has recommended to undertake necessary investigation prior to reliance. The Valuer is not liable for any loss occasioned by a decision to not conduct further investigations.
Assumptions:	Assumptions are a necessary part of undertaking valuations. The Valuer adopts assumptions for the purpose of providing valuation advice because some matters are not capable of accurate calculation or fall outside the scope of our expertise, or our instructions. Assumptions adopted by iVAS Partners will be formulated on the basis that they could reasonably be expected from a professional and experienced Valuer. The Reliant Parties accepts that the valuation contains certain specific assumptions, and acknowledges and accepts the risk that if any of the assumptions adopted in the valuation are incorrect, then this may have an effect on the valuation
Information Supplied by Others:	The valuations are based on the information provided by the Management. The same has been assumed to be correct and has been used for valuation exercise. Where it is stated in the Summary Report that another party has supplied information to the 'Valuer', this information is believed to be reliable, but the 'Valuer' can accept no responsibility if this should prove not to be so We have assumed that where any information relevant to our valuation is supplied by the Instructing Party, or by any third party at Instructing Party's direction, it is correct and comprehensive and can be safely relied upon by us in preparing our valuation. We would recommend that before any financial transaction is entered into based on the valuations, you obtain verification of any third-party information provided. We also recommend that you check the validity of the assumptions we have adopted in the Summary Report (where we have been unable to verify the facts through our own observations or experience)
Matters which affect or may affect the valuation	If the Reliant Party becomes aware of any matters which affect or may affect the valuation, then Valuer must be advised of those matters. The Reliant Party's failure to do so will disentitle the Reliant Party to place reliance on the valuation and reliance must not be placed on the valuation/s under any circumstance
Future Matters:	To the extent that the valuation includes any statement as to a future matter, that statement is provided as an estimate and/or opinion based on the information known to the 'Valuer' at the date of this document. The 'Valuer' does not warrant that such statements are accurate or correct
Map and Plans:	Any sketch, plan or map in this Summary Report is included to assist reader while visualizing the Assets and the Valuers assume no responsibility in connection with such matters. Further. all maps and plans quoted in the Summary Report are solely for illustrative purposes only. While they are extracted from public sources, they may be not to scale. Valuer does not warrant that such dimensions shown are accurate.
Site Details:	The Valuer notes that there are encumbrances, however, no options or pre-emptions rights in relation to the Assets based on the title report prepared by Legal Counsels has been adopted. The Valuer does not have the expertise or the purview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective Assets have title that are clear and marketable.
Asset Title:	For the purpose of this valuation exercise, the Valuer has relied on the Title Reports prepared by the Legal Counsels for each of the Assets and has made no further enquiries with the relevant local authorities in this regard. The Valuer understands that the Subject Assets may have encumbrances, disputes and claims. The Valuer does not have the expertise or the purview to verify the veracity or quantify these encumbrances, disputes or claims. For the purpose of this valuation, the Valuer has assumed that the respective assets have title that are clear and marketable. We recommend that a suitable Asset Lawyer or similar reviews these assumptions and confirm they are reasonable before relying on this report.
Environmental Conditions:	In preparing our valuation we assume that no contaminative or potentially contaminative use is, or has been, carried out at the asset. We do not undertake any investigation into the past or present uses of either the asset or any adjoining or nearby land, to establish whether there is any potential for contamination from these uses and assume that none exists. Should it, however, be subsequently established that such contamination exists at the asset or on any adjoining land or that any premises have been or are being put to contaminative use, this may have a detrimental effect on the value reported

Town Planning:	The current zoning of the Subject Assets has been adopted on the basis of review of various documents (title deeds & approval documents) provided by the Management and the current land use maps for the subject region. The same has been considered for the purpose of this valuation exercise. Further, it has been assumed that the development on the Subject Assets adheres / would adhere to the development regulations as prescribed by the relevant authorities. The Valuer has not made any enquiries with the relevant development authorities to validate the legality of the same. Our valuations are prepared on the assumption that the premises comply with all relevant statutory enactments and Building Codes and Regulations, that a valid and up-to-date Fire Certificate has been issued. We assume that all necessary consents, licenses and authorizations for the use of the asset and the process carried out therein have been obtained and will continue to subsist and are not subject to any onerous conditions.
Area:	The total leasable area considered for the purpose of this valuation exercise is based on the rent rolls provided by the Management as of September 30, 2026. However, the Valuer has not undertaken additional verification and physical measurement for the purpose of this valuation exercise
Condition & Repair:	In the absence of any information to the contrary, the Valuer has assumed that there are no abnormal ground conditions, nor archaeological remains present which might adversely affect the current or future occupation, development or value of the asset; the asset is free from rot, infestation, structural or latent defect; no currently known deleterious or hazardous materials or suspect techniques will be used in the construction of or subsequent alterations or additions to the asset and comments made in the asset details do not purport to express an opinion about, or advice upon, the condition of uninspected parts and should not be taken as making an implied representation or statement about such parts
Not a Structural Survey:	The Valuer states that this is a Summary Report and not a structural survey
Legal:	Unless specifically disclosed in this Summary Report, the Valuer has not made any allowances with respect to any existing or proposed local legislation relating to taxation on realization of the sale value of the Subject Asset. We do not read legal documentation. Where legal documentation is provided to us, we have given regard to the matters therein but recommend that reliance should not be placed on our interpretation thereof without prior verification by your legal advisors. Unless disclosed to us, we assume that there are no outstanding statutory breaches or impending litigation in respect of the asset. We further assume that all documentation is satisfactorily drawn and that unless disclosed to us, there are no unusual or onerous restrictions, easements, covenants or other outgoings which would adversely affect the value of the relevant interest(s). In respect of leasehold Assets, we will assume that your landlord will give any necessary consents to an assignment. Unless notified to the contrary we assume that each asset has a good and marketable title and is free from any pending litigation
Others:	Considering the unorganized nature of real estate markets in India, all comparable evidence (if any) provided in the Summary Report has been limited to the basic details such as the area of asset, rate at which transacted, broad location, etc. other specific details would be provided only if the information is available in public domain
Other Assumptions/ Observations:	Please note that all the factual information such as tenants' leasable area, lease details such as lease rent, lease commencement and lease end date, lock – in period, escalation terms, etc. pertaining to the Subject Assets is based on the rent roll provided by the Management as of September 30, 2026, and the same has been adopted for the purpose of this valuation exercise. The rent rolls have been cross-checked with copies of the lease deeds on a sample basis as shared with the Valuer to verify the authenticity. Any change in the above information will have an impact on the assessed value and in that case the Valuer will have to relook at the assessed value. All measurements, areas and ages quoted in the Summary Report are approximate. We are not advisors with respect to legal, tax and regulatory matters for the transaction. No investigation of the respective Asset SPVs holding the assets' claim to title of assets has been made for the purpose of this Summary Report and the Asset SPVs' claim to such rights have been assumed to be valid. No consideration has been given to liens or encumbrances against the assets. Therefore, no responsibility is assumed for matters of a legal nature.
Flooding risk:	We have assumed that either there is no flooding risk or, if there is, that sufficient flood defenses are in place and that appropriate building insurance could be obtained at a cost that would not materially affect the capital value.

Site Conditions:	We do not commission site investigations to determine the suitability of ground conditions and services, nor do we undertake environmental or geotechnical surveys. We have assumed that these aspects are satisfactory and also that the site is clear of underground mineral or other workings, methane gas or other noxious substances. In the case of asset which may have redevelopment potential, we proceed on the basis that the site has load bearing capacity suitable for the anticipated form of redevelopment without the need for additional and expensive foundations or drainage systems (unless stated otherwise)
Hazardous & deleterious materials	Unless otherwise noted, we have assumed that the improvements are free of Asbestos and Hazardous Materials, or should these materials be present then they do not pose significant risk to human health, nor require immediate removal. We assume the site is free of subsoil asbestos and have made no allowance in our valuation for site remediation works. Our visual inspection is an inconclusive indicator of the actual condition/presence of asbestos/hazardous materials within the asset. We make no representation as to the actual status of the Asset. If a test is undertaken at some time in the future to assess the degree, if any, of the presence of any asbestos/hazardous materials on site and this is found to be positive, this valuation must not be relied upon before first consulting iVAS Partners to reassess any effect on the valuation. Unless specifically instructed, we do not carry out investigations to ascertain whether any building has been constructed or altered using deleterious materials or methods. Unless specifically notified, our valuation assumes that no such materials or methods have been used
Heightened Market Volatility	The recent escalation of the conflict in the Middle East has introduced significant volatility and uncertainty to global markets. With many Middle Eastern countries now impacted, this conflict has significantly disrupted transport throughout the region, negatively impacting global energy and financial markets along with logistical supply chains and tourism. This has created an environment of profound geopolitical instability in the region. The situation remains highly fluid, with the potential for further military escalation, shifts in diplomatic relations, or changes in international sanctions being largely unpredictable. The potential impact on the Indian economy, and property market, remains uncertain, with the possibility of heightened global market volatility in the short-to-medium term. Experience has shown that consumer and investor behaviour can quickly change during periods of such heightened volatility. Lending or investment decisions should account for this heightened level of volatility and potential for deteriorating market conditions both domestically and globally. Caution is advised in this regard. Conclusions set out in this report are valid as at the valuation/report date only. Where appropriate, we recommend that the valuation/market is closely monitored, as we continue to track how markets respond to evolving events.
Development Valuation	The value of real estate developments is traditionally volatile and can be subject to rapid changes of value in short timeframes. Development projects appeal to specific types of purchasers and can be significantly impacted by many factors such as broader economic conditions, fluctuating levels of supply and demand for the product, changes in building costs and the availability and cost of development finance. All these (and more) factors could have a significant impact on the value and demand for the Subject Assets. Going forward there will be several key factors impacting the viability of some development projects and their underlying land values. Key concerns are fluctuations in construction costs, substantial new supply levels and easing investor demand for final product. In addition, we also note that ongoing monitoring and governance of banking systems may significantly restrict development capital and increase the cost of development finance. As experienced in previous market cycles, the value of real estate developments can undergo rapid and significant price corrections, as supply, demand and cost factors change. Any Reliant Party is strongly advised to consider this inherent risk in their investment and lending decisions. Lending and investment caution is advised in this regard. The applicant's ability to service debt should also be carefully considered, should development opportunities and settlements be extended, construction/funding costs increase, or sales rescinded
Construction Cost Volatility	Although general increases in material costs have stabilised since 2022, some specialised supply chains and construction related labour costs remain volatile with the potential for further increases. This has created uncertainty in cost estimates, which is likely to continue.

In addition, there are significant risks that delays may be encountered in sourcing specialised materials and labour, and as such, delivery risks are also heightened in this climate.

The potential for ongoing cost escalations and delays is high. This may place additional pressure on both the developers and builder's profit margins and development viability.

These inherent risks should therefore be given careful consideration in lending and investment decisions. Caution is advised in this regard.

2. Valuation Approach & Methodology

2.1 Scope of Valuation

The valuation exercise is to assess the Market Value of the Subject Asset(s) of Knowledge Realty Trust for Financial and Investor Reporting purposes to comply with the requirements of Regulation 21 of the SEBI (REIT) Regulations, 2014, as amended. The valuations have been conducted in accordance with the International Valuation Standards by the International Valuation Standards Council ('IVSC'), (effective 31 January 2025, as applicable on the date of valuation), and in accordance with the requirements of the SEBI REIT Regulations, 2014, as amended from time to time.

The Valuer has assessed the Market Value of each Individual Subject Asset(s), not the value of the portfolio, if all Assets were sold in one transaction. Where a summation of the individual Assets is provided, this is purely for reference only and should not be construed as the value of the portfolio.

2.2 Basis of Valuation

The valuations have been conducted in accordance with the International Valuation Standards by IVSC (effective from 31 January 2025, as applicable on the date of valuation) and is in compliance with the International Valuation Standards (IVS) and is in accordance with the SEBI REIT Regulations, 2014. The valuation exercise has been undertaken by appropriately qualified Valuer and is aimed at assessing the Market Value of the Subject Assets.

According to IVS 102, the Market Value is defined as:

'The estimated amount for which an asset or liability should exchange on the valuation date between a willing buyer and a willing seller in an arm's length transaction, after proper marketing and where the parties had each acted knowledgeably, prudently an**d without compulsion'.**

2.3 Approach and Methodology

The purpose of this valuation exercise is to estimate the Market Value of the Subject Assets. Market Value for the purpose of valuation outlined has been carried basis Income Approach. The same is detailed below –

Income Approach

The income approach is based on the premise that value of an income - producing asset is a function of future benefits and income derived from that asset. There are two commonly used methods of the income approach in real estate valuation namely, Direct Capitalization and Discounted Cash Flow (DCF).

2.4 Approach and Methodology Adopted

A large number of leases at the Subject Assets were executed at rentals prevalent at the time of signing of such leases or at a discount to prevailing market rental (for a few anchor tenants). Since the real estate industry is dynamic and is influenced by various factors (such as existing supply, tenants looking at spaces, quality of spaces available in the market, overall health of the economy, existing rentals, future growth plans, etc.) at a particular point in time, negotiated rentals may tend to move away from the prevalent market rents over a period of time. It has also been witnessed that the market rents for some assets or sub-markets increase or decrease at a rate significantly different from those agreed to in initial leases. These factors reinforce the need to review each of these leases in isolation to assess the intrinsic value of the asset under review.

Considering the objective of this exercise and the nature of asset involved, the value of the office component in the Subject Assets has been assessed through the Discounted Cash Flow Method using Rental Reversion and the value of the solar plants have been derived using Discounted Cash Flow Method. Further, the following steps have been adopted as part of IVAS's valuation for the respective Subject Asset.

Asset-specific Review:

- As the first step to the valuation of the asset, the rent rolls as of 30th September 2026 (and the corresponding lease deeds on a sample basis) were reviewed to identify tenancy characteristics for the asset.

- Title documents were reviewed for validation of area details, ownership of the asset.

Sub-market Review:

A detailed assessment of the site and surroundings has been undertaken with respect to the prevalent activities, change in dynamics impacting the values and the optimal use of the respective assets vis-à-vis their surrounding sub-market, etc. Further, a secondary research exercise has been carried out in the catchment areas for the respective assets to ascertain the transaction activity of commercial developments. This has been achieved through interactions with various market players such as developers, real estate brokers, key office tenants, etc. Peers to the assets were identified in terms of potential competition (both for completed and under-construction/future developments), comparable recent lease transactions witnessed in the sub-market were analysed along with the leasing and re-leasing history within the asset over the last 3 – 4 years. This was undertaken to assess the applicable market rent (Valuer's view on rental for the asset – used for leasing vacant spaces as well as upon releasing).

Cash Flow Projections:

A. Commercial Office

The cash flows for the operational and under-construction/future development area (if applicable) were projected separately to arrive at their respective value conclusion.

The Valuer has utilized the EBITDA to arrive at the value of the Subject Assets. The following steps were undertaken to arrive at the value for operational and under-construction/future development area respectively.

- The Valuer has projected future cash flows from the asset based on existing lease terms for the operational area till lock-in expiry of the leases or re-negotiation (using the variance analysis), whichever is earlier. Post which, the lease terms have been aligned with market rentals. For vacant area and under-construction/future development area, the Valuer has projected the market rent led cash flows factoring appropriate lease-up time frame. Further, these cash flows have been projected for 10-year duration from the date of valuation and for 11th year (for assessment of terminal value). These future financial benefits are then discounted to a present-day value (valuation date) at an appropriate discount rate.

- For each lease, the following steps have been undertaken to assess the rental and CAM revenue over a 10-year time horizon:

Step 1: Project the rentals and CAM revenue for identified tenancies up to the period of lease expiry, lock-in expiry, first escalation, second escalation, etc. whichever is applicable. In the event of unleased spaces, market-led rentals to be adopted with suitable lease-up time.

Step 2: Generating a market rental and CAM revenue stream for identified tenancies for the time period similar to the cash flows drawn in the aforementioned step.

Step 3: In the event the escalated contracted rental is above the market rent (viz. by 20%) post the lock in period, then contracted terms are discarded, and the terms are reverted to market. In the event the escalated contracted rent is below the market rent, the contracted terms are adopted going forward until the next term expiry. Intent of this step is to project the rental for respective leases until lease expiry as well as post expiry.

Step 4: Computing the monthly income based on rentals projected as part of Step 3 and translating the same to a quarterly income (for the next 10 years and 11th year – considered for calculation of terminal value)

Adjustments for other revenues and recurring operational expenses, CAM expenses, fit-out income (if any – the same has been considered below the Net Operating Income ('NOI') and does not get capitalized) and vacancy provision as percentage of total income, which includes lease rentals, parking rentals, CAM revenue and other income from signages and telecom towers (hereinafter referred as 'Total Income') have been adopted in-line with prevalent market dynamics. In addition, appropriate rent-free periods have been adopted during lease roll-overs to factor potential rent-free terms as well as outflows towards brokerage. For all assets, we have looked at the operational revenues and expenses to understand the recurring, non-recurring, recoverable and non-recoverable expenses and accordingly modelled the revenue and expenses for the asset.

The net income on quarterly basis has been projected over the next 10 years and the 1 year forward NOI (for 11th year) as of end of year 10 has been capitalized to assess the terminal value of the development. The quarterly net income over the next 10 years along with the terminal value during the end of year 10 have been discounted at a suitable discount rate to arrive at the Net Present Value ('NPV') of the asset through this approach.

B. Solar Plants

For the solar component, future cash flows from the assets have been projected based on the expected energy generation during the operational period, as outlined in the Power Purchase Agreement ('PPA') between the solar provider and the office entity, either executed or to be executed. Monthly income was calculated using the agreed-upon tariff (as per the PPA). Adjustments for operating expenses, maintenance/replacement costs, panel degradation, insurance, and other factors were made to determine the net income over the PPA term. This net income was subsequently discounted at an appropriate discount rate to calculate the asset's NPV.

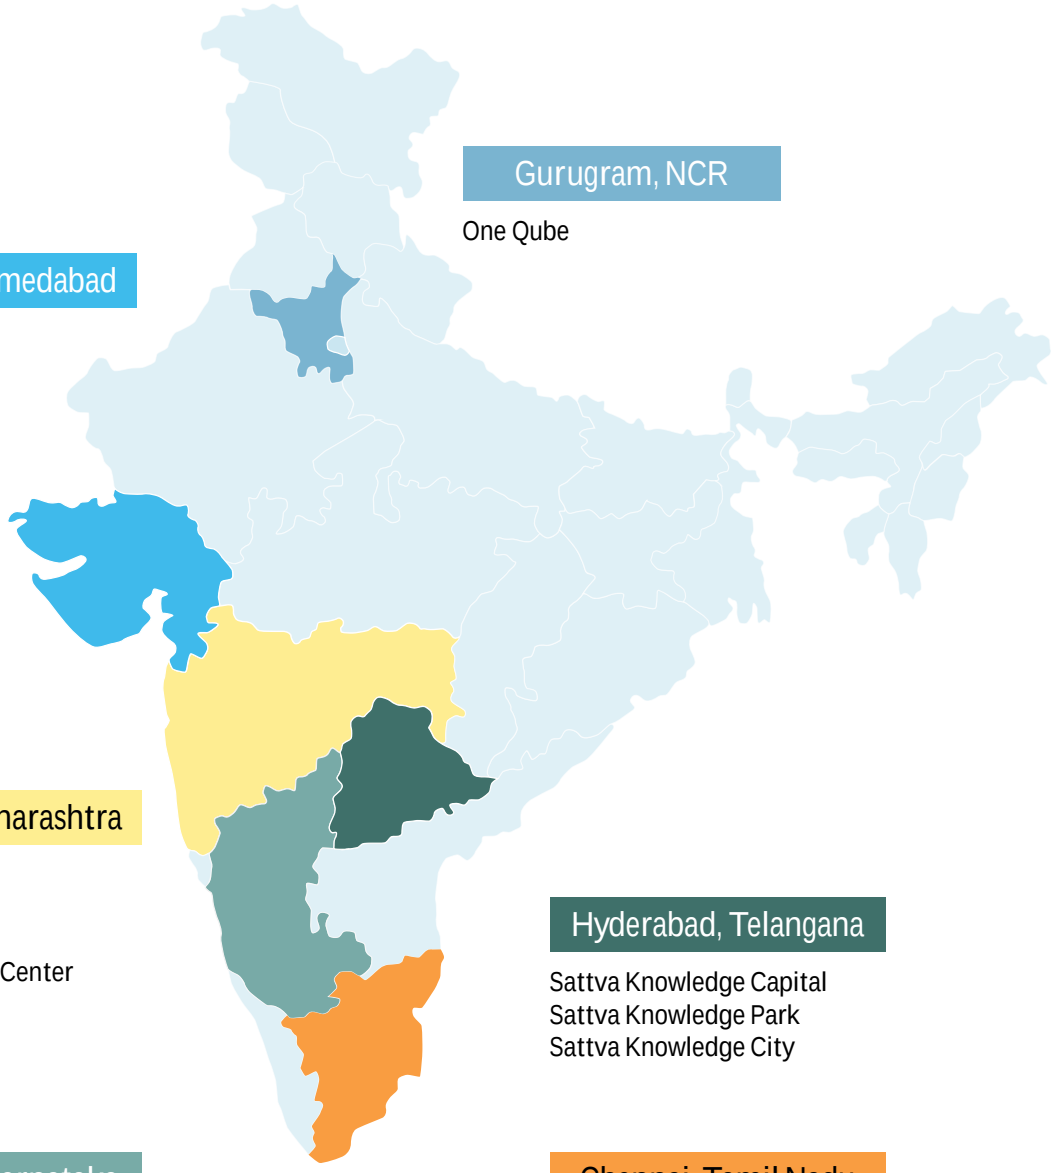

2.5 Information Sources for Valuation

Asset related information referred to for the valuation exercise have been provided to the Valuer by the Management unless otherwise mentioned. Valuer has assumed the documents to be a true copy of the original. The rent rolls have been cross-checked with the lease deeds on a sample basis to verify the authenticity. Additionally, wherever possible, Valuer has independently revalidated the information by reviewing the originals as provided by the Management. Further, details related to area and ownership has been adopted based on rent roll and title report as provided by the Management.

Sattva Eminence	Business Center	0.2	2,373	2,123	250

[5] *The Allocation of value to CAM is based on CAM Revenue Margin (i.e. CAM Revenue less CAM Expense) distributed and/or collected by four separate entities, namely Sattva Infra Management Pvt. Ltd, Sattva Properties Management Limited, BSP Office Management Services Pvt. Ltd. and Pluto Solista Business Parks Pvt. Ltd. via CAM Service Management Agreements with the tenants and/or Asset SPVs/ Entities, as applicable for each Asset.*

a) The valuation is based on the critical assumption that the CAM business is inextricably linked to the rental income and the terminal value of the Asset. Our valuation is computed assuming that any directly associated CAM service and the Asset shall be sold together as a single transaction.

b) The Allocation between the Property and CAM has been done for the purpose of the REIT disclosure requirements and does not represent the individual Market Value of each component, if valued or transacted independently. It is for illustrative purposes only.

[6] *Inclusive of CAM Revenue attributable towards area sold on a strata basis and or area under ownership of landowner for Assets namely One BKC, One Trade Tower, One World Center, Sattva Spectrum, Sattva Touchstone, Sattva Knowledge Court, Sattva Eminence, Sattva Horizon, Sattva South Avenue, Sattva Cosmo Lavelle and Sattva Magnificia (I & II) (viz. leasable area not under ownership of SPV owning the Subject Asset).*

5. Assets

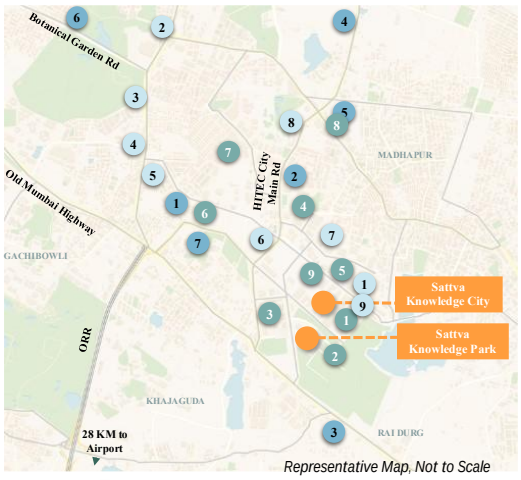

5.1 Sattva Knowledge City

Asset Name:	Sattva Knowledge City
Asset Address:	Plot No.2, Survey No. 83/1, Raidurg Panmaktha Village, Serilingampally Mandal, Ranga Reddy District, Telangana.
Land Area:	Based on review of the title report, we understand that the land area of the Subject Asset is 30.0 acres.
Brief Description:	The Subject Asset is an operational business park situated in Raidurg, a well-established commercial and residential hub located towards west of Hyderabad witnessing significant real estate development activity across various asset classes including commercial offices, residential, retail and hospitality. Further, the asset comprises seven distinct blocks – Block A, B, C, D, E1 (Magma), E1 (Elixir) & Block E2 Octave which has been developed in a phased manner and has a total leasable area of 7.3 msf. Knowledge City offers a wide range of modern amenities including a dedicated amenity hub viz. 'Elixir Block', featuring a multi-purpose hall, a 500-seater open amphitheatre, an auditorium, a business center and health and wellness areas. The park also includes a people's hub with a 600-seater food court, F&B outlets and cafes, banks, a crèche, a medical clinic, as well as retail and grocery shops catering to the needs of its tenants and other patrons. Further, the Subject Asset is situated at a distance of 1 – 2 Km from Raidurg Metro Station (HITEC City), 11 – 12 Km from Punjagutta Crossroads, 17 – 18 Km from Secunderabad Railway Station and 34 – 35 Km from Rajiv Gandhi International Airport.
Statement of Assets:	Based on review of the rent roll dated September 30, 2026, the table below highlights the area statement of the Subject Asset:

Particulars	Total Leasable Area (sf)	Committed Occupancy[8] (%)
Completed	7,299,534	99.7%
Under Construction / Future Development	-	-
Total	7,299,534	99.7%

5.2 Sattva Knowledge Park

Asset Name:	Sattva Knowledge Park
Asset Address:	Plot No. 16, Survey No. 83/1, Raidurg Panmaktha Village, Serilingampally Mandal, Ranga Reddy District, Telangana.
Land Area:	Based on review of the title report, we understand that the land area of the Subject Asset is 10.0 acres.
Brief Description:	The Subject Asset is an operational business park located at Raidurg, a well-established commercial and residential hub located towards west of Hyderabad, witnessing significant real estate development activity across various asset classes including commercial offices, residential, retail and hospitality. Further, the asset is spread across 2 blocks viz. Tower I and II and has a total leasable area of 3.3 msf. The Subject Asset has been developed phase wise and is operational since the year 2022, with the latest block (Tower II) being completed in the year 2023. Additionally, the Subject Asset has a 0.2 msf of dedicated amenities zone with a range of amenities such as a 500-seat food court, F&B outlets and cafes, multi-purpose court, tennis court and an indoor badminton court. The property also includes a creche, banks and ATM, medical clinic and general stores. Further, the Subject Asset is situated at a distance of 2 – 3 Km from Raidurg Metro Station (HITEC City), 11 – 12 Km from Punjagutta Crossroads, 17 – 18 Km from Secunderabad Railway Station and 34 – 35 Km from Rajiv Gandhi International Airport.
Statement of Assets:	Based on review of the rent roll dated September 30, 2026, the table below highlights the area statement of the Subject Asset:

Particulars	Total Leasable Area (sf)	Committed Occupancy[8] (%)
Completed	3,306,630	96.3%
Under Construction / Future Development	-	-

5.29 Fintech One

Asset Name: Fintech One

Asset Address: Survey No. 500, Village Ratanpur, Taluka And District Gandhinagar, Gujarat.

Land Area: Based on review of the title report, we understand that the land area of the Subject Asset is 0.8 acres.

Brief Description: The Subject Asset is an operational business center located at GIFT City, Ahmedabad and has a total leasable area of 0.5 msf. The Subject Asset is a standalone development having an elevation of 2B+GF+20 upper floors and has been operational since November 2020. The Subject Asset has amenities such as a more than 300-seater food court, a gym and an indoor sports area.

The sub-market viz. GIFT City is India's first operational smart city (IGBC Platinum Rated) and International Financial Services Centre offering tax incentives, single-window clearances, and regulatory exemption offers high-quality office spaces, data centers, and residential facilities, designed to meet the needs of global businesses.

Further, the Subject Asset is situated at a distance of 2 – 3 Km from Golden Quadrilateral Highway & GIFT City Metro Station, 6 – 7 Km from Medra Railway Station, 10 - 11 Km from Gandhinagar and 16 - 17 Km from Sardar Vallabhbhai Patel International Airport. Its connectivity is further set to enhance with various infrastructure developments, including the Line 3 of Ahmedabad Metro which connects GIFT city with key locations across Ahmedabad, bullet train project between Mumbai and Ahmedabad (expected by 2027), and the Sardar Vallabhbhai Patel International Airport.

6. Annexure

6.1 Discount Rate Adopted

For discounting the cash flows, an appropriate discount rate has been calculated on the basis of estimated 'Weighted Average Cost of Capital' (WACC). The same is detailed in sections below.

Cost of Equity:

The cost of equity has been estimated using the Capital Asset Pricing Model (CAPM). For the purpose of this analysis, the underlying market inputs, including beta, capital structure, etc. have been derived with reference to the constituents of the NIFTY Realty Index as of the valuation date.

The key inputs adopted in the CAPM analysis are summarized below:

- Risk-Free Rate (Rf):

  The risk-free rate represents the return available on a risk-free investment and serves as the base return expected by investors before considering market-related risks. For the purpose of this valuation, the yield on the 10-year Government of India Security (G-Sec) has been adopted. As per published data by RBI[13] as of 2nd October 2026, the 10-year G-Sec yield stood at 7.23%.

- Market Return (Rm):

  The market return represents the expected return from investing in the broader equity market and reflects the premium required by investors for assuming market risk. For this analysis, the market return has been derived using the average of 10-year rolling returns of the BSE SENSEX over the preceding ten-year period, resulting in an estimated market return of 11.75%.

- Beta (**β**):

  Beta measures the sensitivity of returns relative to movements in the broader equity market and serves as an indicator of systematic risk. For the purpose of the analysis, following are the steps followed:

  - Peer Companies Selection: The constituent companies of the NIFTY Realty Index as of the valuation date were selected as comparable companies.
  - Unlevered Beta: The observed levered betas of the individual peer companies were first unlevered using their respective debt-to-equity ratios to isolate the underlying business risk of each company. The resulting unlevered betas were then weighted based on the respective index weights of the peer companies, resulting in a weighted average unlevered beta of 0.90
  - Re-levered Beta: Subsequently, the weighted average unlevered beta was re-levered using the peer group's weighted average debt-to-equity ratio of 48.5% and a corporate tax rate of 25.17%, resulting in a representative levered beta of 1.22 for use in the CAPM framework.

Cost of Equity = Risk-Free Rate (Rf) + Beta (**β**) × (Market Return (Rm) **–** Risk-Free Rate (Rf))

Based on the above parameters, the CAPM analysis resulted in a post-tax cost of equity of 12.76%. This was adjusted using the applicable corporate tax rate of 25.17%, resulting in a pre-tax cost of equity of 17.06%.

The derived cost of equity reflects the blended risk characteristics of listed real estate companies, whose portfolios typically comprise a combination of land banks, under-construction projects, development assets, and stabilized operational properties.

[13] *The Risk-Free Rate adopted is based on the 10-year Government Securities Yield (G-Sec) rate in India as published by RBI as of the October 2nd, 2026. Risk free rate as published by RBI*

Accordingly, adjustments have been made to the computed cost of equity viz. 17.06% to reflect the differing risk-return characteristics associated with various stages of construction.

- Stabilized / Operational Assets (14.50%): Reduced from the baseline cost of equity to reflect the presence of recurring income streams, established occupancy, and the absence of development, execution, and approval-related risks.
- Under-Construction Assets (16.00%): Increased above the baseline cost of equity to reflect the additional risks associated with construction, leasing, execution, and asset stabilization.
- Future Development Assets (18.50%): Increased further to reflect the greater uncertainty associated with planning, approvals, construction, market absorption, and long-term development risks.

Cost of Debt

Completed Assets

The cost of debt represents the return required by lenders for financing real estate assets and is primarily influenced by asset quality, tenancy profile, sponsor strength, financing tenure, and overall credit risk. For stabilized, income-producing office assets, debt pricing is typically benchmarked against prevailing Lease Rental Discounting (LRD) rates, reflecting their established cash flows and relatively lower risk profile.

Based on discussions with lenders active in the LRD market, prevailing financing rates for Grade A office assets currently range between 7.50% and 8.50%, depending on the characteristics of the asset and borrower.

As a market cross-check, the cost of debt observed across comparable listed office REITs ranges from 7.20% to 8.20% in recent quarters. Further, the subject assets currently have financing rates between 7.00% to 7.54%, with the portfolio's weighted borrowing cost at approximately 7.20% as of the valuation date[14]

Considering the prevailing market evidence, comparable REIT financing costs and the existing debt profile of the subject assets, cost of debt assumption of 8.10% has been adopted for the operational assets for the purpose of this valuation.

Under Construction / Future Developments

For under construction/ future development developments, the cost of debt has been considered based on prevalent Construction Finance (CF) lending rates based on the prevailing market benchmarks which are in the range of 10% to 12%.

Weighted Average Cost of Capital (WACC)

Office Assets

The cash flows have been discounted at Weighted Average Cost of Capital to arrive at the NPV of the future cash flows. The assumptions adopted to ascertain the WACC have been based on the prevailing market benchmarks.

Completed Office Assets

The following discount rates have been assumed for the purpose of valuation for completed assets forming part of KRT REIT portfolio.

[14] *Based on discussions with Management, the cost of debt for the overall portfolio is expected to be approximately 7.4%, reflecting the impact of the recent RBI rate hike.*

Further, the debt and equity proportions[15] are determined using market-led loan-to-value (LTV) ratios and stabilized ratio over the tenure of the loan which typically ranges from 45% to 55% for completed assets. This proportion can vary depending on parameters like LTV eligibility and cost of debt for different asset classes.

Considering these market benchmarks and the characteristics of the subject assets, a debt-equity ratio of 47.5: 52.5 has been adopted for the operational office assets for the purpose of this valuation.

The table below represents WACC adopted for the purpose of this valuation exercise.

Particulars	Proportion	Cost
Debt	47.5%	8.10%
Equity	52.5%	14.50%
WACC		11.46%

Under-Construction Office Assets

The following discount rates have been assumed for under-construction assets forming part of KRT REIT portfolio:

Particulars	Proportion	Cost
Debt	60.0%	10.00%
Equity	40.0%	16.00%
WACC		12.40%

Future Development Office Blocks

For future development blocks in Sattva Global City, we have assumed the following WACC:

Particulars	Proportion	Cost
Debt	60.0%	10.00%
Equity	40.0%	18.50%
WACC		13.40%

The table below represents asset wise WACC adopted for the purpose of this valuation exercise for office assets:

Asset Name	Status as on Date of Valuation	WACC
Sattva Knowledge City	Completed	11.46%
Sattva Knowledge Park	Completed	11.46%
Sattva Knowledge Capital	Completed	11.46%

Solar Plants

Completed: For the completed solar plant viz. Karnataka Solar I, Prima Bay Solar and One BKC Solar we have assumed similar WACC in line with completed office assets i.e. 11.46%

Under Construction

For the under-construction solar plant viz. Karnataka Solar II, we have considered WACC as highlighted below considering the financing for solar plants, tenure of construction, approval risk, etc.:

Particulars	Proportion	Cost
Debt	50.0%	9.25%
Equity	50.0%	15.25%
WACC		12.25%

Source: iVAS Assumption

The table below represents the WACC adopted for Solar Plants for the purpose of this valuation exercise:

Asset Name	WACC
One BKC Solar	11.46%
Prima Bay Solar	11.46%
Karnataka Solar I	11.46%
Karnataka Solar II	12.25%
