LatentView Reports Q1FY27 Revenue Growth of 21.6% with YoY Revenue Growth and Adjusted EBITDA Margin at 20.4%; AI Continues to Scale Across Engagements

Chennai, India – August 1, 2026: Latent View Analytics Limited (BSE: 543398, NSE: LATENTVIEW), an AI-driven analytics, data engineering, and consulting firm, today announced its financial results for the **first quarter ended June 30, 2026.**

Rajan Sethuraman, Strategic Advisor to the CEO, LatentView, said,

"We reported revenue growth of 21.6% on a YoY basis, supported by continued momentum in our Financial Services and TMT practice, which grew by 110% and 4% on a YoY basis, respectively. AI continues to play an increasingly important role across our business, impacting 81% of our engagements, with 35% of our projects focused on delivering AI-driven outcomes for our clients.

Our GenAI and multi-agent systems are enabling clients to migrate legacy code, monitor environments in real time, and analyze marketing performance to tap into their most pertinent business opportunities. That is the full spectrum, from data engineering to the commercial front line.

I am delighted to welcome Sonal Ramrakhiani as the CEO of LatentView. She joins us at an inflection point for both the Company and the industry, and I look forward to supporting her closely through this transition over the next few months."

Sonal Ramrakhiani, Chief Executive Officer, LatentView, said,

"We have a strong foundation in place that enables us to accelerate further. Our priority for the rest of the year is to build on that momentum by deepening client relationships and staying focused on growth. As AI reshapes what's possible for businesses, we are committed to delivering measurable outcomes that help our clients move faster, create impact, and act with confidence."

Rajan Venkatesan, Chief Financial Officer, LatentView, said,

"Our Q1FY27 performance reflects the resilience of the business, with strong growth in Financial Services largely offsetting the softness in the CPGR segment arising from certain one-time projects in Q4FY26. Adjusted EBITDA margin for the quarter stood at 20.4%, impacted by annual wage hikes effective from 1st of April, along with seasonally higher visa and marketing costs. We remain focused on driving sustainable and profitable growth through disciplined cost management, operational efficiency, and AI-led productivity initiatives."

Key Financial Highlights

Particulars **₹ *Million***	Q1FY27	Q4FY26	QoQ Growth	YoY Growth	FY26
Total Operating Revenue	**2,869**	**2,886**	**(0.6%)**	**21.6%**	**10,602**
