TFO MACHINES

In the capacity addition we have planned the four TFO machines, which will add the value to the existing plant, there is a huge demand for TFO yarn in the market (it is known as TWO FOR ONE yarn). The method of twisting two or more single yarns is called doubling or folding or ply twisting.

Advantages

- 1) **Building Cost saving** - Planned to install in the existing building so saving of building cost to the company.
- 2) Value addition to the company
- 3) **High demand in the exports** - TFO yarn is in high demand in the overseas market.
- 4) **Increase in the turnover of the company** - As there is high demand of TFO yarn in the overseas market we will purchase yarn from local market, will Convert it to Double/ TFO yarn and export the same to overseas market.
- 5) **Subsidy** - Govt of Maharashtra provide 40% capital subsidy for this setup.

Compact Attachment

In this value addition we are adding two compact attachment also, compact attachment produce superior quality yarn,

Advantages

- 1) Value addition to the company
- 2) **Subsidy** - Govt of Maharashtra provide 35% capital subsidy for this setup.
- 3) **Sale on premium** - Generally compact yarn sale at Rs. 4-5 premium in the market as population of high speed auto looms are increasing so the demand for compact yarn is highly demandable in the market.
