EPS	**3.50**	**1.15**	**304%**	**4.73**

Management Commentary:

"Our financial performance reflects the strength of our business model and the progress we have made in scaling operations. Revenue growth of approximately 65%, coupled with a more than 3x increase in profitability, demonstrates the operating potential of our business.

We believe Lead Reclaim is entering an important phase of its growth journey. Our focus remains on expanding manufacturing capabilities, improving capacity utilisation, strengthening our product portfolio and building deeper relationships with customers across industries.

Looking ahead, our ambition is to build Lead Reclaim into a significantly larger and more diversified rubber recycling company. We intend to pursue capacity-led growth while maintaining a disciplined approach towards capital allocation, operational efficiency and profitability.

We remain optimistic about the long-term opportunities in the recycling industry and are committed to translating these opportunities into sustainable growth and shareholder value.", **by Mr. Jayeshh Patel, Managing Director.**
