Lord's Mark Becomes one of the Firm with 153 US FDA-Listed Products

Mumbai, Lord's Mark Industries Ltd, one of India's fastest-growing diversified conglomerates, has achieved a significant milestone by becoming one of the companies to secure US FDA registrations covering 153 orthosurgical products, setting a new benchmark for Indian medical device manufacturers.

All the orthosurgical products are manufactured within Lord's Mark Industries' globally aligned manufacturing ecosystem, built to meet the highest standards of regulatory compliance. The facility operates on internationally benchmarked production protocols, supported by strong quality management systems, validated processes, end-to-end traceability, and a compliance framework designed to meet US FDA requirements reflecting the

company's long-term commitment to building export-ready, world-class medical manufacturing from India.

The US FDA-listed portfolio covers a broad range of orthosurgical products, including orthopaedic braces, spinal and cervical supports, Lord's Activeguard knee and ankle braces, Lord's Activeguard compression stockings, Lord's Activeguard Hernia belts, Lord's Activeguard Elastic knee support, Lord's Activeguard Orthosis Soft & Hard cervical collar, Lord's Activeguard Chin support belt, Lord's Joywipes Disinfectant & Cleaning wipes, Lord's Activeguard Tennis Elbow Support, Lord's Magic Elastic Adhesive Bandage, Lord's Activeguard Abdominal Support, Lord's Activeguard ARS Pad, Lord's Activeguard

Travel Neck Pillow and post-surgical rehabilitation products, reflecting the depth and diversity of the company's manufacturing capabilities.

Commenting on the achievement, Sachidanand and Upadhyay, Managing Director, Lord's Mark Industries Ltd, said, "This milestone goes beyond regulatory recognition. It reinforces our belief that world-class medical devices can be designed, manufactured, and regulated from India at global scale. Being one of the company to secure US FDA recognition for 153 orthosurgical products reflects the strength of our Silvassa manufacturing platform, our regulatory discipline, and our long-term vision to position India as a trusted source of globally compliant healthcare solutions."

Fashion Forward Tech: Ai+ Smartphone introduces NovaWatch, a smartwatch series

New Delhi, Ai+ introduced NovaWatch, its smartwatch lineup that expands the brand's connected device portfolio across safety, everyday health, and personal style. Launching in Q1 2026, NovaWatch reflects Ai+'s belief that wearable technology should combine practical utility with fashion-forward design.

The Ai+ NovaWatch lineup includes Active, Wearbuds, Kids Geo fencing watch, and for the first time in the industry, Rotating camera LTE watch, each designed around a specific use case. Together, the range covers everyday health tracking, family safety, and style-led personal expression, reflecting Ai+'s focus on wearables that fit naturally into different lives and age groups. Active is designed for everyday users who want dependable health tracking in a clean, accessible form. It focuses on essential wellness metrics, with a design that feels famili-

iar and easy to use from the first day, and a form factor that is again a first in the industry.

Wearbuds is a flagship, first-of-its-kind smartwatch combining a smartwatch with built-in Bluetooth earphones, bringing audio and time-keeping into a single wearable. Designed to be worn through the day, it blends fashion-forward design with everyday convenience, removing the need to carry multiple devices.

Kids Geo Fencing 4G watch is built with family safety at its core, offering simple connectivity that helps parents stay in touch with their children. It provides reassurance without introducing the complexity or exposure of a smartphone. The Rotatecam 4G is aimed at users who see wearables as an extension of personal style.

Its rotating camera adds a playful, creator-led

Urban Co-operative Banks Sustain Positive Growth Momentum in FY25

Mumbai, Urban Co-operative Banks (UCBs) recorded sturdy growth in FY25, marked by balance sheet expansion, accelerated credit growth, robust profitability, healthy asset quality and improved capital buffers, according to the latest Trend and Progress of Banking in India report by RBI.

The consolidated balance sheet of UCBs expanded by 4.4% in FY25, higher than 4.0% in the previous financial year. Credit growth accelerated to 6.7%, highest in six years, with improvement across both the scheduled and the non-scheduled UCBs. Deposit growth improved to 5.2% from 4.1% in FY24. This momentum continued into H1 FY26, with deposit growth at 6.8% and credit growth at 6.4% by end-September 2025.

The statistics reflects the cumulative impact of regulatory reforms and consolidation. Data from the report shows that UCBs extended their multi-year recovery into FY25, marking a shift from balance sheet repair to steady, broad-based growth. Profitability strengthened sharply. Net profits rose 14.2% in FY25, following a 52% surge in

FY24, supported by reduced provisioning and better asset quality. This translated into higher returns on assets and equity, indicating a structural improvement.

Commenting on the report's finding, Shri. Prabhat Chaturvedi, CEO, National Urban Cooperative Finance and Development Corporation Ltd (NUCFDC), Umbrella Organisation of the UCB sector, said, "The data published in the report indicates consistent improvement in the balance sheet of the UCB sector. The sector is navigating a sustainable growth path amid reforms and a renewed focus on governance and compliance. Many UCBs, some over a century old, remain a vital pillar of India's financial inclusion architecture."

India's FY26 growth likely to be stronger than NSO estimate: Morgan Stanley

New Delhi, Jan 8 (IANS) India's economic growth is expected to outpace the National Statistical Office's (NSO) first advance estimate, reflecting "buoyant high-frequency data since September 2025 led by policy impetus," a new report has said. The report from Morgan Stanley estimated real GDP growth at 7.6 per cent year-on-year for FY26 -- above the NSO's first advance estimate which pegged real GDP growth at 7.4 per cent YoY. The consensus estimate for FY26 growth is at 7.5 per cent and the Reserve Bank of India's estimate is 7.3 per cent, the report said. The combined impetus from fiscal and monetary policy support, improved purchasing power and labour market outlook are likely to ensure consumption recovery gains more breadth. "Moreover, we anticipate a more broad-based pickup in capex, as improving investor sentiment encourages private investment activity. As such, domestic demand is likely to drive growth, amidst continued tariff and geopolitics-related global uncertainty weighing on ex-

ternal demand. We expect growth at 6.5 per cent YoY in F2027," the report said. The brokerage added that real GDP is forecast to track at about 6.9 per cent in the second half of FY26 versus 8 per cent in the first half, below the firm's implied 7.3 per cent. In nominal terms, GDP growth is

expected to soften to 8 per cent year-on-year from 9.7 per cent in FY25, weighed by a weak deflator, the report noted. Implied numbers for the second half of fiscal year indicated that consumption will likely slow while capex growth is expected to pick up pace, the report said.
