MAXIMISING THE MINIMUM

In the first of a two-part series, we look at MSP promises in poll-bound states

IMAGING: AJAY MOHANTY

This election season has seen political parties take interesting positions through their promises, one of the more novel ones being the promise of an Indian Premier League team for Madhya Pradesh. However, once you look beyond the novelty, the promise of substantial rise in the minimum support price (MSP) stands out, particularly when seen against the extension of the free food grain programme by five years.

The hikes in wheat and paddy MSP in the key states that contribute a significant amount to the central pool would mean the Centre might find it difficult not to replicate the same increases nationally. MSPs are announced for the entire country, and states can only give a bonus on top of them.

But, ensuring central procurement of surplus grains purchased by announcing hefty bonuses over the MSP is tricky.

The National Democratic Alliance (NDA) government at the Centre, ever since it came to power in 2014, has been wary of buying wheat and rice from states that declare bonuses over MSP over and above what is required for meeting their public distribution system (PDS) needs.

It had even issued an order desisting states from doing so.

Not only that, the Commission for Agriculture Costs and Prices (CAC), in several of its reports had advocated limiting paddy procurement from states that announce bonuses over MSP or levy additional cess and surcharges. CACP is the main body that fixes MSPs for more than 20 crops every year.

"Arbitrary hikes in MSP could have a negative impact on the fiscal deficit both for the states as well as the central government. The announcements grossly undermine the role of bodies like the CACP, which do elaborate calculations to arrive at the MSP. Agreed, from the farmer's point of view, the MSP hikes might be good, as at the state level the production cost is different for different states, but it hampers diversification," S Mahendra Dev, former CACP chairman and former director of Mumbai-based Indira Gandhi Institute of Development Research, told *Business Standard*.

The Centre prohibits states from not arbitrarily declaring bonus over MSPs, as it invariably leads to excess procurement and production.

Central agencies are saddled with stocks far in excess of what is required for PDS operations.

This, in turn, leads to a spike in the storage and transportation of grains, further burdening the national exchequer.

If poll-bound states have to fall in line with the MSPs declared by parties, they will have to do so in violation of the central order or bear the full expense of the surplus procured at rates higher than MSP. Else, the raised MSPs announced will have to be implemented nationally by the central government.

"From the farmers' point of view, we not only want a higher MSP but also a law made nationally that prohibits any purchase of farm goods either by private

players or government agencies below the MSP. Just announcing MSPs is not enough and this (the law) was one of main demands of the agitating farmers against the now repealed three farm Acts," said farmer leader Abhimanyu Kohar, a leading voice of the Sanyukt Kisan Morcha (SKM).

Minimum to maximum

For the 2024-25 season, the MSP for wheat just announced is ₹2,275 per quintal. The MSP for wheat announced by the Bharatiya Janata Party (BJP) in its manifesto, at ₹7,000 per quintal, is 18.68 per cent higher. The Congress manifesto promises MSP for wheat that is 14.29 per cent more than the current one.

For paddy, the promises are more ambitious. The current MSP of common-grade paddy is ₹2,183 per quintal. The

STRAW IN THE WIND

All-India procurement of rice, wheat and coarse grains on a marketing year basis

*Till October 31, 2023; Note: The marketing year for wheat runs from April to March and that of paddy runs from October to September. Source: Food ministry

MSPs/bonus/minimum sale promised by parties in poll-bound states

State	Crop	BJP	Congress	Actual MSP*
Madhya Pradesh	Wheat**	2,700	2,600	2,275
Madhya Pradesh	Paddy**	3,100	2,500	2,183
Chhattisgarh	Paddy	3,100	3,200	2,183
Telangana	Paddy	NA	2,683***	2,183
Rajasthan	NA	NA	NA	NA

*For wheat, the actual MSP is for 2024-25 marketing year (Apr-Mar); for paddy, it is for 2023-24 marketing year (Oct-Sep); the paddy MSP is for common grade paddy
**In MP, the Congress manifesto does not talk about MSP or bonus, but it says that crops won't be purchased at rates below what have been mentioned
***In Telangana, the Congress hasn't announced an MSP but promised a bonus of ₹500 per quintal over the prevailing MSP. Note: States don't announce MSP but can give bonus over them. Manifestos awaited in Rajasthan. Source: Manifestos and news reports

MSP announced by the BJP for Chhattisgarh is nearly 42 per cent higher, and that by the Congress is nearly 46.59 per cent more than the prevailing MSP.

For neighbouring Madhya Pradesh, the hikes proposed by the BJP and Congress for paddy are 42 and 14.52 per cent more than the current figure. The Madhya Pradesh Congress manifesto says that once in power it will not buy at prices less than what has been mentioned in the document, though it does not say whether the rates will be MSP or not.

In Rajasthan, the third poll-bound state, both parties are yet to announce their manifestos, but they might not be able to buck the trend. In Telangana, a major paddy producer, the Congress has announced a ₹500 per quintal bonus over the MSP, while the ruling Bharat Rashttra Samithi has also promised benefits. The BJP is yet to release its manifesto for the state.

If the government wants to reach the targeted MSP in the first year itself, there will be a significant drain on the national exchequer in terms of rising economic costs. The inflationary impact of that could be immense for crops like paddy, and hurt India's export competitiveness, even if full exports were allowed.

Some traders say if paddy prices are around ₹32-31 a kg, it would mean that rice won't sell much below ₹50 in the domestic markets.

The problem on the procurement front is worse. Sukhpal Singh, professor at Indian Institute of Management (IIM) Ahmedabad and former chairperson of its Centre for Management in Agriculture, said the tall promises acknowledge that MSPs need to align with the C2+50 per cent norm, as laid down by the Swaminathan Commission, as against the A2+FL cost matrix currently practised.
