

US PRESIDENT TARGETS VENEZUELAN OIL BUYERS

Fresh Trump tariff concerns for India

RAVI DUTTA MISHRA & SUKALP SHARMA
New Delhi, March 25

IN A FRESH challenge to India's oil import diversification strategy amid rising geopolitical uncertainties, US President Donald Trump has threatened to impose 25% "secondary tariffs" from April 2, in addition to any existing tariffs, on countries such as India and China that import Venezuelan oil.

"Venezuela has been very hostile to the US and the freedoms we espouse. Therefore, any country that purchases oil and/or gas from Venezuela will be required to pay a tariff of 25% to the US on any trade they conduct with our country. All documentation will be signed and registered, and the tariff will take effect on April 2," Trump said in a social media post late Monday. According to a *Financial Times* report, Trump told reporters that the 25% tariff on buyers of Venezuelan crude would be in addition to any existing levies. As per the executive order published Monday evening, once applied, the tariffs would remain in place for one year "after the last date on which the country imported Venezuelan oil," unless the US commerce secretary approved their earlier removal, the report said.

India resumed crude oil imports from Venezuela in

December 2023 after a gap of over three years, as the US temporarily eased sanctions on the Venezuelan oil sector. While the US sanctions came back within a few months, some volumes of Venezuelan crude have continued to make their way to various countries, including India, through specific sanction exemptions held by some oil companies. Notably, the US itself was the second-biggest destination for Venezuelan oil in 2024. China accounted for the highest share in Venezuela's oil exports.

The share of Venezuelan oil in India's overall oil imports of over 4.5 million barrels per day (bpd) is currently not as significant as it used to be. India imported around 65,000 bpd of Venezuelan crude in January and 93,000 bpd in February, according to data from commodity market analytics firm Kpler. India, specifically private sector refiners RIL and NEL

(Nayara Energy), was a regular buyer of Venezuelan crude prior to imposition of US sanctions on Caracas in 2019. Following the sanctions, oil imports from Venezuela stopped within a few months. As per India's official trade data, Venezuela was New Delhi's fifth-largest supplier of oil in 2019, providing close to 16 million tonnes of crude to Indian refiners.

The fresh tariff threat is particularly significant as India's oil dependency continues to rise and is on course to surpass the record levels of the last financial year. According to the latest data from the oil ministry's Petroleum Planning & Analysis Cell (PPAC), India's oil import dependency stood at 88.2% in April-February, up from 87.7% in the corresponding period of FY24.

Additional restrictions on Venezuelan crude could have a limited impact on global oil supply, which could in turn translate into a hardening of prices to some extent. That may not be good news for net importers of crude, including India. Petroleum minister Hardeep Singh Puri has long maintained that India is willing to buy Venezuelan oil if the economics are favourable and provided that the oil is not under sanctions. As the world's third-largest consumer of crude oil, India relies on imports for over 85% of its requirements.

New tax Bill pushed to monsoon session

WHILE SEEKING THE House nod, finance minister Nirmala Sitharaman said the Finance Bill has offered 'unprecedented tax relief' to honour taxpayers while rationalising customs tariffs to boost manufacturing, promote exports and provide relief to the common man.

With the passage of the Finance Bill 2025, the Lok Sabha completed its part of the Budgetary approval process. The Upper House, Rajya Sabha, will now consider the Bill.

The minister said the removal of equalisation levy on online advertisements will address uncertainty in international economic conditions. The withdrawal of the 6% levy is seen as government ceding some autonomous ground on taxation of the digital economy.

Addressing apprehensions about the potential withdrawal of the income tax rebate in future years if collections slow down, the minister said 'even

during Covid, we did not raise taxes. Where we've come up with a rebate to benefit the middle class, an element of suspicion is being brought in saying what if?

The Centre has sharply raised the income tax exemption limit to ₹12 lakh from ₹7 lakh in the new tax regime, which the government said would leave around ₹1 lakh crore cash in the hands of taxpayers. It also lowered its fiscal deficit estimate for 2024-25 to 4.8% of GDP from 4.9% and is

projected to come down to 4.4% in 2025-26.

Talking about customs tariff rationalisation, she said these changes would support manufacturing, promote exports and provide relief to the common man.

In the Budget, the FM had proposed to add 35 additional capital goods for EV battery manufacturing, and 28 additional capital goods for mobile phone battery manufacturing to the list of exempted capital goods to boost domestic manufacturing.

The Budget also proposed to fully exempt Basic Customs Duty (BCD) on cobalt powder and waste, the scrap of lithium-ion battery, lead, zinc and 12 more critical minerals. This is in addition to the 25 critical minerals fully exempted from BCD in the July 2024 Budget. This will ensure supply to cutting edge manufacturing technology companies in India.

AI staff to fly economy from April

THROUGH THE MERGER of Vistara, 53 A320 planes with three-class configuration belonging to the erstwhile carrier, were absorbed into the Air India fleet.

Owing to a global supply chain crisis hurting the seats category, the pace of Air

India's retrofit programme has slowed down. The airline is now pushing for upgradation of the rest of the plane's interior, keeping the seats upgrade programme subject to availability of seats at a later date.

IndiGo and SpiceJet are the

only other carriers to offer business class or premium economy seats. IndiGo started with business class on select routes only a few months ago whereas SpiceJet, which calls its premium economy class as SpiceMax, has been offering it since 2014.

Samsung tax demand...

INVESTIGATORS FOUND THAT Samsung "transgressed all business ethics and industry practices or standards in order to achieve their sole motive of maximising their profit by defrauding the government exchequer," Bajaj added.

Samsung was ordered to pay \$520 million, consisting of unpaid taxes and a penalty of 100%. Seven India executives face fines of \$81 million, among them the network division's vice president, Sung Beam Hong, chief financial officer Dong Won Chu and Sheetal Jain, a general manager for finance, as well as Nikhil Aggarwal, Samsung's general manager for indirect taxes, the order showed. "The issue involves the interpretation of classification of goods by customs," Samsung said in a statement, adding it com-

plied with Indian laws. "We are assessing legal options to ensure our rights are fully protected."

India's customs authority and the finance ministry did not respond to Reuters' queries. Reliance also did not respond. The incident comes as India toughens oversight of foreign companies and their imports.

Volkswagen and New Delhi are locked in a legal battle in which the automaker is challenging a record demand of \$1.4 billion in import back taxes on grounds of misclassifying car parts. The German company denies any wrongdoing in what it called a 'matter of life and death' for its India business, but the dispute has rekindled foreign investors' fears over tax tussles. —REUTERS

Sugar export quota to remain

INDIA PLANS TO maintain its one-million-tonne sugar export quota for the current season, according to a person familiar with the matter, easing worries about possible supply restrictions that boosted global prices last week.

India will not bar outbound shipments as the world's second-biggest producer will have enough stockpiles at the end of this season on September 30, even after a drop in production, said the person, who asked not to be identified as the information is confidential. The country's supplies are adequate to meet domestic demand for more than two months before crushing for next year's crop begins, the person added.

Some news reports last week had suggested that the country was mulling restricting overseas sales because of lower production estimates. India's local consumption will be lower this year compared with the last season, when elections boosted demand for beverages and sweets, the person said. —BLOOMBERG

Govt open to duty cut on 55% of US imports

IN THIS CATEGORY of goods, India is ready to 'substantially' lower tariffs or even scrap some entirely, on imported goods worth more than \$23 billion from the United States, one of the sources said. The commerce ministry, the prime minister's office and a government spokesperson did not reply to mails seeking comments.

Overall, the US trade-weighted average tariff has been around 2.2%, data from the World Trade Organisation shows, compared with India's 12%. The United States has a trade deficit of \$45.6 billion with India. During Prime Minister Narendra Modi's US visit in February, the two nations agreed to start talks towards clinching an early trade deal and resolving their standoff on tariffs. New Delhi wants to strike a deal before the reciprocal tariffs are announced and assistant US trade representative for South and Central Asia Brendan Lynch was set to lead a delegation of officials from United States for trade talks from Tuesday.

The Indian government officials warned that cutting tariffs on more than half of US imports hinges on securing relief from

reciprocal tax. The tariff cut decision was not final, with other options under discussion such as sectoral adjustments of tariffs and product-by-product negotiations rather than a wide cut, said one of the officials.

India is also considering wider tariff reform to lower barriers uniformly, but such discussions are in early stages and might not figure immediately in talks with the United States, said one of the officials. Even though Modi was among the first leaders to congratulate Trump on his election victory in November, the US president has continued to call India a 'tariff abuser' and 'tariff king,' vowing not to spare no nation from tariffs.

New Delhi estimated increases of 6-10% in tariffs on items such as pearls, mineral fuels, machinery, boilers and electrical equipments, which make up half its exports to the United States, due to reciprocal tax, both sources said.

The second official said the \$11 billion worth of pharmaceutical and automotive exports may see the most disruptive impact due to reciprocal tariff, given their dependence on the US market. —REUTERS
