L&T Construction awarded (Large*) contract for Freight Facilities Package of Etihad Rail network Stage-2 in UAE

Mumbai, February 04, 2020: In a major international competitive bidding process, the Metallurgical & Material Handling Strategic Business Group of L&T Construction has been awarded an order by Etihad Rail Company PJSC for the Design and Build of Freight Handling Facilities at 7 strategic locations across United Arab Emirates.

Etihad Rail Company PJSC has been established under the Federal law of UAE, with the mandate to manage the Development, Construction and Operation of the UAE's national freight and passenger railway network.

This Design and Build Contract for Freight Facilities Package has been bagged against stiff international competition and is a major breakthrough project for L&T in the Stage-2 expansion phase of Etihad Rail. This project will be executed in Joint Venture with Power China.

The scope of work involves Design, Engineering, Procurement, Construction & Commissioning of Bulk Material handling systems (Rail loading and unloading systems) with associated civil and structural works, bulk material storage facilities, general cargo and container handling facilities with freight terminal management & control systems.

All the freight stations will include railway siding and track works apart from other infrastructure works such as bridges, buildings, roads & drains, water and electricity utility systems.

Background:

Larsen & Toubro is an Indian multinational engaged in technology, engineering, construction, manufacturing and financial services with over USD 21 billion in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
