L&T Construction Awarded (Large*) Contract for its Smart World & Communication Business

Mumbai, April 07, 2020: The Smart World & Communication Business of L&T Construction has secured a large order from the Indian Army to establish a first-of-its-kind, state-of-the-art **Unified Network Management System** to Manage, Support and Operate the countrywide Armed Forces Network under the Network for Spectrum (NFS).

"This is an extremely crucial and sensitive project for the Ministry of Defence and we are proud that the Ministry has reposed their faith in our technical, engineering and solutioning capabilities to execute this project," said Mr. S.N. Subrahmanyan – CEO & Managing Director, Larsen & Toubro. "It involves creating a centralized network monitoring, management and control system for all the seven layers under NFS which interconnects 414 Defence stations," he added, describing the scope of the mandate.

The project involves the creation of a resilient Cloud based IT infrastructure on Infrastructure as a service (IAAS) model. The scope also includes Next Generation Operations System and Software (NGOSS) based Unified Network Management System, Eight Network Operations Centers (NOCs) consisting of National NOCs, Disaster Recovery NOCs, Regional NOCs, Security Operation Centers, Tier III Data Centres and Training Infrastructure. The facilities under this project will allow real time monitoring of the complete IT network backbone of the Indian army and provide complete visibility of deployed Network assets, leading to optimal utilization of resources.

The project is to be implemented in 18 months followed by 3 years of warranty and 7 years of AMC during which L&T will provide Managed Maintenance Services including SLA monitoring, service impact analysis and root cause analysis for the countrywide Armed Force Next Generation Network.

Background:

Larsen & Toubro is an Indian multinational engaged in technology, engineering, construction, manufacturing and financial services with over USD 21 billion in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
