L&T Heavy Engineering Dispatches Mega Tubular Reactors

Hazira (Surat, Gujarat), January 11, 2022: The Heavy Engineering arm of Larsen & Toubro dispatched two large Ethylene Oxide Reactors, weighing 1,200 Tons each from Hazira, Gujarat to a large petrochemical complex overseas.

This was a repeat order after four identical Reactors were supplied by L&T to the same client in 2020 amidst Covid-19 pandemic during the first wave. The Reactors were manufactured at L&T's state-of-the-art Heavy Engineering Complex located at Hazira near Surat.

These highly complex reactors are crucial equipment for production of Mono Ethylene Glycol in the petrochemical complex.

Commenting on the occasion, **Mr. Anil V. Parab, Member - L&T Executive Committee, Senior VP & Head Heavy Engineering** said, "Such a repeat order is testimony of our unique ability to handle these large & complex equipment and customer's confidence on our reliable delivery performance even during the unprecedented Covid-19 pandemic."

"Our focus on high-end products, in-house development of distinctive manufacturing technologies and various digitalization initiatives have helped us to become a reliable partner to our clientele. Delivering such a key equipment to our client, meeting all the requisite international quality and safety standards, is a matter of great pride for us," added Mr. Parab.

L&T's 'A. M. Naik Heavy Engineering Complex' is a Globally benchmarked, state-of-the-art, fully integrated, digitally-enabled manufacturing facility. It continues to contribute to the "Make in India" mission. All L&T Heavy Engineering facilities are well equipped with Industry 4.0 solutions for engineered-to-order manufacturing. The heavy engineering business of L&T has a proven track record of supplying technology-intensive equipment and systems to global customers in the Refinery, Oil & Gas, Petrochemicals, Fertilizers and Nuclear Power sectors.

Background:

Larsen & Toubro is an Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing and

Services. It operates in over 50 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
