L&T Construction Wins (Large*) Contracts for its Power Transmission & Distribution Business in Bangladesh

Mumbai, January 20, 2021: The Power Transmission & Distribution Business of Larsen & Toubro has won a slew of Transmission Line orders in Bangladesh. The scope of these packages involves Design, Supply, Installation, Testing and Commissioning of Extra High Voltage Transmission Lines on turnkey basis.

A fast-growing economy in the region, Bangladesh has embarked on a programme to alleviate infrastructure deficiencies and upgrade its power system to sustain the growth. To cater to the power demand in emerging load centers and the Greater Dhaka region, several projects are afoot including construction of the country's first nuclear power plant.

"As Bangladesh aims to achieve universal electricity access this year, the enhancement of power transfer capacity will improve the reliability and efficiency of the country's grid and facilitate integrated development of its capital and the economic growth centers. These projects also will give a fillip to the cross-border electricity trade. The recent wins strengthen the leadership position of our business that caters to Power Transmission & Distribution and Renewables EPC projects in the region", said **Mr. T. Madhava Das, Whole-Time Director & Senior Executive Vice President (Utilities)**.

L&T's Power Transmission and Distribution business vertical is a leading EPC player in the field of power transmission & distribution and renewable energy. It offers integrated solutions and end-to-end services, ranging from design, manufacture, supply, installation and commissioning of transmission lines, substations, underground cable networks, distribution networks, power quality improvement projects, infrastructure electrification, fiber-optic backbone infrastructure, solar photovoltaic (PV) plants including floating solar, battery energy storage systems, mini / micro grid projects and related digital solutions. Besides being a dominant player in the Indian subcontinent, the business enjoys a significant share and a strong reputation in the SAARC, Middle East, Africa and the ASEAN regions.

Background:

Larsen & Toubro is an Indian multinational engaged in engineering, procurement and construction projects, manufacturing, defence and services with over USD 21 billion in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

*** Project Classification**

Classification	Significant	Large	Major	Mega
Value in ₹ Cr	1,000 to 2,500	2,500 to 5,000	5,000 to 7,000	>7,000
