L&T Hydrocarbon Engineering Wins (Significant*) Orders

Mumbai, September 21, 2021: L&T Hydrocarbon Engineering Limited (LTHE), a wholly owned subsidiary of Larsen & Toubro, has bagged two orders in the Construction Services segment - one each from GAIL India and Air Products Middle East Industrial Gases LLC.

The first order is for GAIL India's **Mumbai - Nagpur Pipeline** under which the company will be responsible for laying steel gas pipeline (24" x 224 KM) - Section 1 of Part A and construction of terminals along with associated facilities. The pipeline project, due to be laid alongside the upcoming Mumbai - Nagpur super communication expressway, has a schedule of 14 months.

LTHE's second order comes from Air Products Middle East Industrial Gases LLC for its **Industrial Gas Hub (IGH) Network project** at Jubail, KSA. Under the contract, the company will construct steam methane reformer (SMR) to produce hydrogen, an air separation unit (ASU) to produce oxygen and nitrogen, and hydrogen pressure swing adsorption (PSA) units. The overall duration of the project is 22 months.

Both the contracts were secured by LTHE's Construction Services Business which offers turnkey construction of refinery, petrochemical, chemical and fertilizer projects, gas-gathering stations and specializes in oil & gas terminals and field development including storage tanks and underground cavern storage systems for LPG, and cross-country hydrocarbon pipelines.

Background:

Larsen & Toubro is an Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing and Services. It operates in over 50 countries worldwide. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
