Review plans to ease travel: PM

Its implications for India were also discussed during the meeting, the Prime Minister's Office (PMO) said in a statement. Modi's directive to officials comes a day after the civil aviation ministry announced the resumption of scheduled international flights to and from India from December 15 after 20 months of coronavirus-induced suspension.

During the meeting which lasted for about two hours, the PM spoke about the need to be proactive in light of the new variant and urged people to be more cautious and take proper precautions like masking up and maintaining social distance, the PMO said. In a tweet after the meeting, Modi said, "reviewed the COVID-19 and vaccination-related situation. In light of the new variant, we remain vigilant, with a focus on containment and ensuring increased second dose coverage." During the meeting, the Prime Minister was also given an overview of the sequencing efforts in the country and the variants circulating in the country, the statement said.

Modi directed that genome sequencing samples be collected from international travellers and community as per norms, tested through the network of labs already established under the Indian SARS-CoV-2 Genomics Consortium (INSACOG) and early warning signals identified for Covid-19 management, the statement said. Modi also spoke about the need to increase the sequencing efforts and make it more broad-based.

Stubble burning: Demand to decriminalise accepted

"The Government of India has agreed to this demand," the minister said.

With regard to withdrawal of cases against farmers during the agitation, Tomar said this is in the domain of the state governments. "Looking at the severity of the cases, the state governments have to take a call and the issue of compensation is also to be decided by them," he said, adding that every state will decide as per their state legislations.

Stating that there is no justification for the continuation of the agitation after the government announced

repeal of the three farm laws, Tomar said: "Therefore, I appeal to all farmers organisationally to end the protest ethically and show their big heart. They should return to their respective homes." The minister said the protesting farmers' had initially demanded repeal of the three farm laws, which the government agreed to keeping their interest in mind.

The Cabinet has approved a bill to repeal the three farm laws, which will be introduced in the beginning of the coming session of Parliament starting November 29, he said. Tomar also said that the government is unhappy that it could not succeed in convincing some of the protesting farmers' unions about the benefits of the farm laws.

Bill to repeal laws in LS on Monday

The Farm Laws Repeal Bill, 2021 has been listed for introduction and passage in Lok Sabha on the first day of the Winter Session of Parliament on Monday. Union agriculture minister Narendra Singh Tomar will introduce the bill in the house, which was approved by the Union Cabinet on Wednesday.

Meanwhile, the SKM has suspended its November 29 tractor march to Parliament and will hold a meeting next month to decide its future course of action. Cases against farmers, building a memorial for farmers who lost their lives (during the protest), suspension of Ajay Mishra 'Teni' from the Union Cabinet. He said a reply is awaited and SKM will hold another meeting on December 4.

— PTI

WTO defers ministers' meet

The ministerial will now be held "as soon as possible when conditions allow", according to a WTO statement.

The B.1.1.529 variant detected in South Africa has been classified as a "variant of concern" by the World Health Organisation, which says it may spread more quickly than other variants.

The postponement followed the announcement of travel restrictions and quarantine requirements in Switzerland and many other European countries.

"Given these unfortunate developments and the uncertainty that they cause, we see no alternative but to propose

to postpone the Ministerial Conference and reconvene it as soon as possible when conditions allow," Castillo told the General Council. "I trust that you will fully appreciate the seriousness of the situation."

WTO director-general Ngozi Okonjo-Iweala said the travel constraints meant that many ministers and senior delegates could not have participated in face-to-face negotiations at the ministerial Conference. "This would render participation on an equal basis impossible," she said.

Many delegations, she said, have long maintained that meeting virtually does not offer the kind of interaction necessary for holding complex negotiations on politically-sensitive issues.

WTO members unanimously endorsed the decision and pledged to continue working to narrow their differences on key topics like the global trade body's response to the pandemic and the negotiations to draft rules for pruning harmful fishery subsidies.

"This does not mean that negotiations should stop. On the contrary, delegations in Geneva should be fully empowered to close as many gaps as possible. This new variant reminds us once again of the urgency of the work we are charged with," the DG said.

This marks the second time that the pandemic has forced a postponement of the

12th ministerial conference. The meeting was originally due to take place in June 2020 in Nur-Sultan, Kazakhstan. Although the General Council decided to move the meeting to Geneva, Kazakhstan was chosen to chair the meeting.

Paytm loss widens to ₹473 crore

"We have improved our expenses, with continued and increased investments in technology and merchant base expansion. Clearly, the monetisation and focus on non UPI business is showing up in our results and costs. We are committed to innovation and continued investments in India's payment and financial services inclusion," a Paytm spokesperson said.

Paytm expense of payment processing charges increased by 36% to ₹670 crore during the reported quarter from ₹492.4 crore in the same period of 2020-21. The employee benefits expense was up 35% to ₹386.5 crore from ₹286.2 crore, while the company's expense in software, cloud and data centre increased by 56.5% to ₹112.9 crore from ₹72.1 crore during the period under review.

"Our focus remains on continued customer and merchant expansion, and strengthening our business capabilities to cash in on the opportunities presented by the Indian internet ecosys-

tem and rapid adoption of financial services," the spokesperson said.

Paytm's gross merchandise value (GMV) in the second quarter more than doubled to Rs 1,95,600 crore from ₹94,700 crore in the corresponding quarter of 2020-21.

The company's average monthly transacting users (MTU) during the reported quarter increased by 33% on a year-on-year (YOY) basis to 5.74 million, Paytm said in a statement. The revenue from payments and financial services grew 69% YoY basis to ₹8,42.6 crore while commerce and cloud services revenue grew by 47% on Y-o-Y basis to ₹2,43.8 crore, the statement said.

The company said that the number of loans disbursed grew by 714% on YoY to over 28 lakh during the reported quarter. "The lending business continued to show strong growth as a result of the rapid scale-up of all of the company's lending products, including Postpaid (Buy-Now-Pay-Later), consumer loans and merchant loans.

The company's financial institution partners disbursed around 1.3 million loans in October 2021, a

472% increase in numbers of loans disbursed YoY and aggregating to a total disbursement of ₹62.7 crore," the company said. In value terms, the disbursement increased by 418% in value terms, according to the statement.

Paytm said that its merchant base grew to 2.3 crore during the reported quarter from 1.85 crore in the second quarter of financial year 2021. Shares of the company closed at ₹1,781.15 apiece, down by 0.86% on the BSE on Friday.

Small is big: How the 'Chhotu' LPG cylinder is a bestseller

State-run oil marketing companies are said to have appreciated the proposal of retailing through fair price shops, and have even committed their support. The consumer affairs ministry had requested the Union ministry of petroleum and natural gas for leveraging electronic point of sale (ePoS) devices for sale of 5 kg small cylinders from fair price shops. "We are looking into the business model and a

pilot has been started in Kerala," state-run Indian Oil Corporation Ltd (IOCL) told FE. "As per preliminary discussions and business model proposed, the retail sale price of small cylinder at FPS will be same as market price," IOCL added.

As for IOCL, the 5 kg small cylinder is primarily marketed to cater to the needs of customers such as migrant labourers, students, food hawkers who were dependent on the grey market due to lack of address proof, etc. The sale of these small cylinders recorded a significant jump in FY20 after it was re-launched under the 'Indane Chhotu' brand name in December, 2020. Sales grew further in FY21 when subsidies on standard 14.2 kg domestic cylinders were stopped.

To encourage regular refill, a swap option from the standard 14.2 kg connections to 5 kg connections was offered to Pradhan Mantri Ujjwala Yojana (PMUY) consumers.

As FE reported earlier, of the eight crore PMUY beneficiaries, 3.2 crore did not refill their LPG cylinders in the first quarter of FY22. The govern-

ment not paying any subsidy on LPG since May 2020 has led to rural households spending nearly 10% of their monthly expenditure on the cooking fuel, a recent study by the Council on Energy, Environment and Water (CEEW) has said. The report, released in September, said 85% households in the country have LPG connections, and 80% of the non-user households cited affordability issues for not having an LPG connection.

A drop in global crude oil prices, and hence global LPG product prices since May 2020, gave the government an opportunity to withdraw the subsidy. The end consumers had not felt the pinch till November 2020 thanks to muted global LPG prices. Even without subsidies, domestic LPG cylinders cost just around Rs 600, close to the price at which the subsidy kicked in. While the global prices have since risen, the government has not reinstated the subsidy. India imports more than 55% of its LPG requirement and the cost of an unsubsidised cylinder depends on global rates.

Xiaomi to open plant in Beijing with annual output of 3 lakh cars

REUTERS
Shanghai, November 27

CHINESE SMARTPHONE GIANT Xiaomi Corp will build a plant that can produce 300,000 vehicles annually in Beijing for its electric vehicle unit, authorities in the capital said on Saturday.

The plant will be constructed in two phases and Xiaomi will also build its auto unit's headquarters, sales and research offices in the Beijing Economic and Technological Development Zone, the government-backed economic development agency Beijing E-Town said on its official WeChat account.

Beijing E-Town said it anticipated the plant reaching mass production in 2024, a goal announced by Xiaomi's chief executive Lei Jun in October.

In March, Xiaomi said it would commit to investing \$10 billion in a new electric car division over 10 years. The company completed the business registration of its EV unit in late August.
