Lupin Receives Tentative Approval from U.S. FDA for Dolutegravir, Emtricitabine and Tenofovir Alafenamide (DETAF) Tablets

Mumbai, Baltimore, January 31, 2023: Global pharma major Lupin Limited (Lupin) today announced that it has received tentative approval from the United States Food and Drug Administration (FDA) under the U.S. President's Emergency Plan for AIDS Relief (PEPFAR) for its New Drug Application for Dolutegravir, Emtricitabine and Tenofovir Alafenamide (DETAF) Tablets. This product would be manufactured at Lupin's Nagpur facility in India.

DETAF would be a welcome new addition in the management of HIV infections and will be available for supplies to low- & middle-income countries.

Commenting on the same, **Mr. Naresh Gupta, President - API and Global Institution Business, Lupin** said, "We are committed to providing affordable and quality treatment options to patients in low- and middle-income countries. We are pleased that U.S. FDA has tentatively approved DETAF, which will significantly enhance our HIV portfolio."

About Lupin

Lupin is an innovation-led transnational pharmaceutical company headquartered in Mumbai, India. The Company develops and commercializes a wide range of branded and generic formulations, biotechnology products, and APIs in over 100 markets in the U.S., India, South Africa, and across the Asia Pacific (APAC), Latin America (LATAM), Europe, and Middle East regions.

The Company enjoys a leadership position in the cardiovascular, anti-diabetic, and respiratory segments and has a significant presence in the anti-infective, gastro-intestinal (GI), central nervous system (CNS), and women's health areas. Lupin is the third-largest pharmaceutical company in the U.S. by prescriptions. The company invested 8.7% of its revenue in research and development in FY22.

Lupin has 15 manufacturing sites, 7 research centers, more than 20,000 professionals working globally, and has been consistently recognized as a 'Great Place to Work' in the Biotechnology & Pharmaceuticals sector.
