Press Release

Cipla's US Subsidiary Receives Final Approval for Generic Renvela® Tablets

Mumbai, October 27th, 2017: Cipla Ltd, a global pharmaceutical company which uses cutting-edge technology and innovation to meet the everyday needs of all patients, announced that its subsidiary, InvaGen Pharmaceuticals Inc. (collectively Cipla), has received final approval for its Abbreviated New Drug Application (ANDA) for Sevelamer Carbonate Tablets, 800 mg, from the United States Food and Drug Administration (USFDA) to market a generic version of Genzyme's Renvela® Tablets, 800 mg.

Sevelamer Carbonate Tablets, 800 mg is a AB-rated generic equivalent to the reference listed drug (RLD), Renvela® Tablets, 800 mg of Genzyme Corporation and are indicated for the control of serum phosphorus in adults with chronic kidney disease (CKD) on dialysis.

Renvela® Tablets had US sales of approximately $1.85B for the 12-month period ending August 2017, according to IMS Health. Commercial launch will commence immediately.

About Cipla Ltd.

Cipla is a global pharmaceutical company which uses cutting edge technology and innovation to meet the everyday needs of all patients. In the last 80+ years, Cipla has emerged as one of the most respected pharmaceutical names in India as well as across more than 80 countries. Our portfolio includes over 1500 products across wide range of therapeutic categories with one quality standard globally.

Whilst delivering a long-term sustainable business, Cipla recognises its duty to provide affordable medicines. Cipla's emphasis on access for patients was recognised globally for the pioneering role played in HIV/AIDS treatment as the first pharmaceutical company to provide a triple combination anti-retroviral (ARV) in Africa at less than a dollar a day and thereby treating many millions of patients since 2001. Cipla's research and development focuses on developing innovative products and drug delivery systems.
