Won't hesitate to raise tariffs but can't be done unilaterally: Mittal

MEGHA MANCHANDA
New Delhi, 1 July

Bharti Airtel Chairman Sunil Bharti Mittal on Thursday said the company was ready for a tariff hike and will not hesitate, provided it is joined by others.

“We will not hesitate to raise tariffs, but it cannot be done unilaterally. We are not asking for a massive increase in tariffs, but we have to be mindful of the market,” said Mittal, in an interaction with the media.

The latest tariff hike by the three operators happened in December 2019. Since then, Bharti Airtel has been making a case for tariff hikes. However, it is not ready to blink first.

Bharti Airtel Managing Director and Chief Executive Officer Gopal Vittal had said in the past that the tariffs needed to go up and the average revenue per user needed to be close to ₹200.

Analysts believe that the case for a tariff hike may be further dampened after the announcement by Reliance Jio to unleash a cheap smartphone in

the market on September 10.

Goldman Sachs in a report said, “For Jio to be able to capture a sizeable share of the 2G customer base, we believe it will need to be competitive on both device pricing (which should not be materially higher than feature phone average selling price) and tariffs (which will need to be in line with 2G tariffs). Without either of

“...WE ARE NOT ASKING FOR A MASSIVE INCREASE IN TARIFFS, BUT WE HAVE TO BE MINDFUL OF THE MARKET. THE TELECOM INDUSTRY IS IN A TREMENDOUS AMOUNT OF STRESS. I HOPE THE GOVERNMENT AND AUTHORITIES ALL FOCUS ON THIS ISSUE AND INDIA'S DIGITAL DREAM REMAINS INTACT THROUGH THREE OPERATORS”

SUNIL BHARTI MITTAL
Chairman, Bharti Airtel

these, we think the traction on this smartphone could be limited, at least in the near term.”

Jio and Google will roll out one of the most affordable 4G smartphones on September 10, and expand their partnership to power 5G solutions in enterprise and consumer segments.

“The telecom industry is in a tremendous amount of stress. I hope the

government and authorities focus on this issue and India's digital dream remains intact through the three operators,” Mittal said after the OneWeb announcement.

Bharti-backed OneWeb, the Low Earth Orbit satellite communications company, announced the successful lift-off of another 36 satellites to mark the completion of its ‘Five to 50’ mission. With this major milestone, the company is on its way to deliver connectivity across the UK, Canada, Alaska, Northern Europe, Greenland, and the Arctic Region.

As far as investment plans in the satellite endeavour are concerned, Mittal said, “There were some advance conversations going on, which we had mentioned earlier. It is not a huge sum of money but some amount of money where we can have a more strategic participation from the right candidate at the shareholder table. Whatever has to be done will be done in July.”

He even added that the companies should be breaking even 24 months from the date of full commercial service.

Vi seeks 1-yr reprieve on ₹8K-cr instalment

MOUMITA BAKSHI CHATTERJEE
New Delhi, 1 July

Vodafone Idea (Vi) has approached the government to seek one-year moratorium on payment of spectrum instalment of over ₹8,200 crore, due in April 2022.

Vi, in a letter to the telecom secretary on June 25, 2021, said it would be “unable to pay the instalment of ₹8,292 crore due on April 9, 2022” due to “cash being used for payment of AGR (Adjusted Gross Revenue) dues and the inability of the operations to generate the required cash in a predatory pricing situation”.

According to the letter, seen by PTI, the company has requested the Department of

Telecom (DoT) to grant it another year of the moratorium to pay this instalment in April 2023 instead of April 2022 and has made it clear that “it is almost inevitable” that the firm will not be able to pay the said amount in April 2022.

Vi has also said that while it is working on raising new funding for the past six months, “investors are not willing to invest in the company because they believe that unless there is a significant improvement in consumer tariffs, the health of the industry will not recover and they will incur a loss on their investment”.

A detailed mail sent to Vi on the issue did not elicit a

response.

In its communication to the DoT, Vi said that after the grant of a two-year moratorium earlier, AGR judgement was pronounced, which has taken away ₹7,854 crore of cash as upfront payment.

Also based on the current

demands of the DoT, it will have to pay AGR instalments of about ₹9,000 crore in March 2022. Given the company's request for corrections on those demands, while the amount may reduce to nearly half, it will still take away liquidity to the extent of ₹12,500 crore

from the business. Vi has also rued the lack of movement on floor price regulation that aimed “to address the current situation of predatory pricing and losses”.

The floor price regulation was a support that the industry had expected from the government, but it has not happened, Vi has flagged in its letter to the telecom department.

Vi has further highlighted the poor health of the telecom industry, “which is a result of a prolonged period of prices remaining below the costs”.

“This has resulted in a situation, where we have a challenge in meeting some of our large payment obligations,” the company has said. PTI
