TV budgets fade, streaming holds, films steal spotlight

Asia's content spend to drop 2% to \$15.8 billion in 2025 as streaming overtakes pay-TV: Media Partners Asia report

VANITA KOHLI-KHANDEKAR
Pune, 11 September

At \$7 billion, South Korea will remain the biggest spender on programming across television (TV), films, and streaming in 2025. India comes a close second at \$6.2 billion in a list of seven countries that also includes Malaysia, Indonesia, the Philippines, Vietnam, and Thailand. However, overall, the money spent on shows, films, and other programming will go down by 2 per cent to \$15.8 billion in 2025 in these markets.

A large part of this decline comes from the fall in investment in TV. Streaming platforms, too, are pulling back on costly originals as they focus on profitability. That means programming spend on streaming will remain stable, as it has for three years now. Spending on films is expected to rise over 2024. Streaming will emerge as the single largest vertical for content investment in 2025 with a total spend of \$5 billion, overtaking pay-TV across these markets.

Those, among other things, are what Media Partners Asia's (MPA's) Asia Video Content Dynamics 2025 report points out. The subscription-only report was announced on September 11.

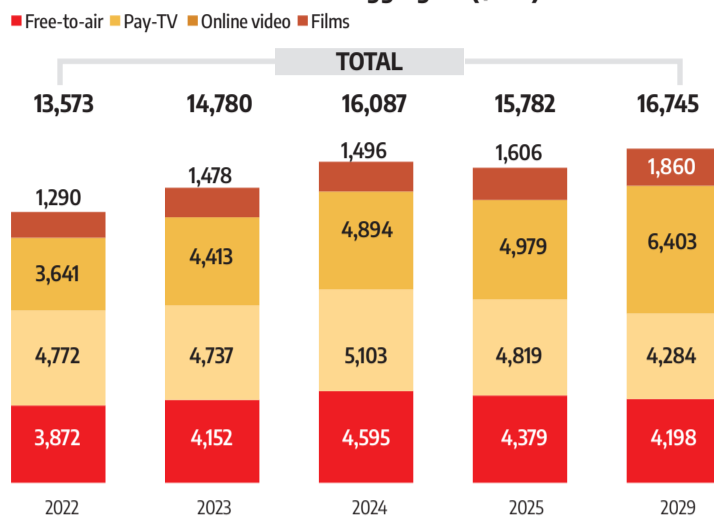

"There are massive headwinds in TV. All markets are seeing a 10-20 per cent decline in revenues," says Vivek Couto, executive director, MPA, pointing to the first of the major findings of the report. "All the major leaders — JioStar in India or CJ in South Korea — are doing very well. They will invest in TV but will keep it frugal. Streaming has momentum, but it is also under pressure," adds Couto.

Most streamers are prioritising profitability over growth while expanding advertising-supported tiers. Streaming might make up for revenue, but can it deliver the fat 30-50 per cent operating margins that TV did in the pre-pandemic era? That is the big question.

The other big finding is the focus, across markets, on artificial intelligence to rationalise costs and push up

The viewpoint

Content investment — markets aggregate (\$ mn)

Market & vertical share (2025 investment: \$15,782 mn) in %

both the top line and the bottom line. Among other highlights, India generated 21.5 billion hours of premium video-on-demand viewing in the second quarter of 2025, led by Jio-Hotstar (56 per cent share), with Amazon (Prime Video and MX Player) holding a combined 25 per

cent share. Sports remain a critical growth driver, with cricket continuing to anchor engagement. Netflix maintained leadership in most markets, capturing between 50 and 80 per cent of viewing in South Korea, Indonesia, Malaysia, and the Philippines.

RBI purchases 4.16 acre from Mumbai Metro for ₹3,472 crore

Central bank has bought the land parcel for self-use and commercial purposes

PRACHI PISAL
Mumbai, 11 September

The Reserve Bank of India (RBI) has bought a 4.16-acre parcel at Nariman Point, a prime business district in Mumbai, for ₹3,472 crore from the Mumbai Metro Rail Corporation Ltd (MMRCL).

The transaction was registered on September 5 for a stamp duty of ₹208.3 crore, according to the documents accessed through CRE Matrix, a real estate data analytics firm. The RBI purchased the land for self-use and commercial purposes, according to the documents. The central bank's

headquarters are in Fort, South Mumbai.

According to a Maharashtra government resolution in March 2023, the land was transferred to MMRCL with absolute rights to "own, use, develop, transfer, or sell". MMRCL was allowed to enter into third-party transactions for the land.

The RBI, in a letter dated November 8, 2024, expressed its willingness to acquire the land, which earlier had offices of government departments and a political party. The offices spread over 113,500 square feet (10,544.41 square metres) of carpet area, which "required rehabilitation or

relocation".

After discussions, RBI's obligation to provide alternate premises for the offices was waived and it paid a mutually agreed amount to MMRCL. This payment released RBI from any "past, present, or future obligations" for the rehabilitation area.

At a meeting chaired by chief secretary, Maharashtra government, on May 29 it was agreed that the payment of Rs 600.82 crore would cover the cost of the rehabilitation area.

Through the sale deed, MMRCL and RBI agreed that the land would be transferred on a freehold basis.

THE TRANSACTION WAS REGISTERED ON SEPTEMBER 5 WITH A STAMP DUTY OF ₹208.3 CR

WhatsApp user data our private property, Meta tells NCLAT

BHAVINI MISHRA
New Delhi, 11 September

User data collected by Meta from WhatsApp is Meta's private property to enhance the platform's technology, the firm argued before the National Company Law Appellate Tribunal (NCLAT) on Thursday.

The NCLAT was hearing application by Meta Platforms and WhatsApp challenging the Competition Commission of India (CCI) order imposing a fine of ₹213.14 crore on the tech giant for alleged abuse of its dominant position related to WhatsApp's 2021 privacy policy. The appellate tribunal, however, stayed a part of the CCI order, which had imposed a five-year ban on the company's data-sharing practices in India.

"By leveraging user data from WhatsApp, Meta can enhance its technology. It's (user data) collected by me, it's my personal property. Shall I give it to my competitors?", senior advocate Arun Kathpalia, appearing for Meta, argued.

He said there is no change in the data sharing policy of 2021 from the privacy policy of 2016. The users who opted out of not sharing their data would continue to do so with the latest privacy policy as well.

Meanwhile, senior advocate Kapil Sibal, appearing for WhatsApp, argued that the CCI

THE NCLAT WAS HEARING APPLICATION BY META AND WHATSAPP CHALLENGING THE CCI ORDER THAT IMPOSED A FINE OF ₹213.14 CRORE ON THE TECH GIANT FOR ALLEGED ABUSE OF ITS DOMINANT POSITION RELATED TO WHATSAPP'S 2021 PRIVACY POLICY

has no jurisdiction to declare the date of privacy policy to be banned.

"That's not their jurisdiction. Entire approach of CCI is legally erroneous and outside the purview of Section 4 of the Competition Act," he argued. Section 4 of India's Competition Act, 2002 prohibits the abuse of a dominant position in a relevant market.

He added that five million users of the messaging platform never raised privacy concerns but CCI is raising it on their behalf. Kathpalia also argued on similar lines saying that the CCI is pulling the trigger from the shoulders of the consumers. "Not a single survey was done by the CCI and the action taken by it was without any evidence," he argued.

In March, the NCLAT deferred the hearing in the case, citing the upcoming Digital Personal Data Protection (DPDP) Rules. The government has released the draft rules for consultation, with notification expected by

this year.

In January, the appellate tribunal had said that the five-year ban by CCI may lead to the collapse of the business model of WhatsApp since it is a free platform.

"The ban of five years, which was imposed in paragraph 247.1 (of CCI order) may lead to the collapse of the business model which has been followed by WhatsApp LLC. It is also relevant to notice that WhatsApp is providing WhatsApp services to its users free of cost," the order said.

At the same time, the NCLAT refused to stay the fine of ₹213.14 crore imposed by CCI and told Meta, which owns WhatsApp, to deposit 50 per cent of the fine amount within two weeks for a stay to be effected.

Meta, which has already paid 25 per cent of the fine amount, will be refunded the money paid if it wins the case.

The part of the CCI order which the NCLAT has upheld (247.2 and 247.3) said WhatsApp must provide an explanation on what user data is shared with Meta and that data-sharing for purposes beyond WhatsApp services cannot be any condition for accessing WhatsApp in India.

Furthermore, users must have an opt-out option for such data-sharing via in-app notification as well as the option to review and modify their choice by going to WhatsApp settings. Future policy updates should also comply with such changes, the CCI order said.

Delhi restaurants prepare for packed Sunday as India-Pak match buzz continues

AKSHARA SRIVASTAVA
New Delhi, 11 September

Even as tickets for the upcoming Asia Cup match between arch-rivals India and Pakistan remain to be sold out, cafes and restaurants in the national capital are gearing up for a packed house on Sunday.

"We are completely sold out for the upcoming match," said a café owner in Delhi, who did not wish to be named. He added that while the stadium may not be filling up, there continues to be a buzz on the ground.

However, establishments are shying away from promoting match screenings on their premises.

"With the memory of the Pahalgam terror attack and the subsequent Operation Sindoore in people's minds, not many seem expressively enthusiastic about the upcoming match," he further said, adding that his establishment is keeping promotions for the marquee event very low-key.

"We usually promote any match-day offers we run, but this time we decided to not do that. Despite that we are expecting an increase in business," he said.

Several café chains are running offers on beer buckets as they get ready to screen the match on Sunday evening.

"We expect at least a 50 per cent uplift in business compared to a regular weekend. High-profile cricket matches bring groups of friends together, and that's when pitcher deals and watch-party formats really shine for us," said Rahul Singh, founder and chief executive officer (CEO) at The Beer Cafe, which is hosting a watch party across its outlets with live commentary.

WITH THE MEMORY OF PAHALGAM ATTACK FRESH IN PEOPLE'S MIND, RESTAURANTS ARE SHYING AWAY FROM PROMOTING MATCH SCREENINGS ON THEIR PREMISES

"The India-Pakistan clash is more than a match, it's a cultural event. We do expect an uptick in business, but the real impact is in the energy and engagement it brings. These moments help us strengthen our connect with customers," Singh added.

At SOCIAL, fans can choose from buckets of three, six, and nine beers as they join live screenings at its outlets across the country.

Multiplex chain PVR INOX, too, entered a strategic partnership with sports consulting firm ITW Universe and the Asian Cricket Council to showcase key matches nationwide in over 200 screens.

End practice of recruiting Indians into Russian military: MEA

PRESS TRUST OF INDIA
New Delhi, 11 September

India on Thursday urged its citizens to stay away from offers to join the Russian Army and demanded Moscow to end its practice of recruiting Indians as support staff into the Russian military.

The Ministry of External Affairs (MEA) said it has taken up the matter with Russian authorities, both in Delhi and Moscow.

New Delhi's move came following reports that some Indians on student and business visas were forced into joining Russian military units deployed on the frontlines of the war in Ukraine. The ministry cautioned its Indian nationals to not take offers to join the Russian military in view of inherent "risks and dangers" involved.

"We have seen reports about Indian nationals having been recruited recently into the Russian army," MEA spokesperson Randhir Jaiswal said.

"The government has on several occasions over the past one year underlined the risks and dangers inherent in this course of action and cautioned Indian citizens accordingly," he said.

Jaiswal was responding to media queries on the issue.

"We have also taken up the matter with Russian authorities, both in Delhi and Moscow, asking that this practice be ended and that our nationals be released," he said.
