Forward Looking & Disclaimer Statement

MAHARASHTRA SEAMLESS LIMITED

This document contains “forward-looking statements” about our business, financial performance, skills and prospects. Statements about our plans, intentions, expectation, beliefs, estimates, prediction or similar expression for the future are forward-looking statements.

Forward looking statements are based on management’s current views and assumptions and involve known and unknown risks that could cause actual results, performance or events to differ materially from those expressed or implied by those statements. These risks include but are not limited to risks arising from uncertainties as to future oil and gas prices and their impact on investment programs by oil and gas companies, steel prices worldwide and domestic, economic & political conditions. We can not assure that outcome of these forward-looking statements will be realised.

The Company disclaims any duty to update the information presented here. The material presented can not be used for any other purpose in any form without our express written consent.

Maharashtra Seamless – Segments & Capacities

MAHARASHTRA SEAMLESS LIMITED

Seamless Pipes	ERW Pipes	Renewable Energy	Rig
• Maharashtra • 450,000 mt/annum • Telangana • 200,000 mt/annum	• API certified • High frequency • PSL 2 • 125,000 mt/annum	• Solar • 50 MW AC at Maharashtra & Rajasthan • Wind • 7 MW at Maharashtra	• New generation offshore jack up rig • On 3 year contract till November 2028

- Market share of 55% in seamless pipes segment with manufacturing facilities at Nagothane & Mangaon in Maharashtra and Narketpally in Telangana.
- Market share of 18% in the API certified, high frequency ERW pipes segment with manufacturing facility at Nagothane in Maharashtra.
- On installation of finishing facilities at Telangana, existing capacity of 100,000 mt/annum will be activated.

Capital Allocation

Sl.	Particulars	Rs. crore	Location	Estimated annual turnover increase
1	Heat treatment, finishing facilities & EMI for capacity enhancement	184	Narketpally (USTPL)	By Rs. 800 crores
2	Solar plant (captive) to enhance annual cost savings by Rs. 20 crore	80		
3	Complete line for cold drawn pipes including pilger & drawbench	100	Mangaon (MSL)	By Rs. 50 crores
4	OCTG line & billet pre-heating surface	95		By Rs. 50 crores
5	Hot mill upgrade - Hot mill to PQF (14”)	350	Nagothane (MSL)	By Rs. 1000 crores
6	EMI machine (14”), 3 Roll sizing mill (14”)	22		Normal replacement expenditure
7	Flying saw & Ultrasonic Testing Machine (7”)	10		
8	Mill upgrade including annealer, hydro, Ultrasonic Testing (ERW)	6		
9	Electronic upgrade of EMI & Ultrasonic Testing Machine (OCTG)	5		
	Total capital expenditure	852		
	Financing through internal accruals			
	Net cash as on 30 September 2026 (refer slide 12)	3701		

- In pursuance of increased focus on value addition products in pipe and renewable energy segments, above capital expenditure will be fully met from accumulated cash and internal accruals. There will be additional working capital requirement of Rs. 300 crores in USTPL and Rs. 250 crores in MSL which will also be funded from internal accruals.

Order book of MSL as on 10 November 2026

MAHARASHTRA SEAMLESS LIMITED

Rs. crore

Segment	Maharashtra	Telangana	ERW	Total	%	Remarks
ONGC & OIL	736*	-	1	737	33%	*Includes drill pipes orders of Rs. 0.27 crore
Others	951	196^	319	1466	67%	^Includes cylinder pipes orders of Rs. 144 crore
Total	**1687**	**196**	**320**	**2203**	**100%**	

Our order book is supported by back-to-back booking of raw material leading to locking of margins on each order and minimising impact of fluctuating raw material prices.

Anti-Dumping Duty:

- The Ministry of Finance, on recommendation of Directorate General of Trade Remedies (DGTR), has implemented anti-dumping duty by way of a minimum import price for a period of 5 years from 28 October 2021 on various types of seamless pipes from China. As an interim measure, this duty has been further extended till 27 January 2027.

Policy Implementation:

- Domestic manufacturers are encouraged and preferred for development of import substitution products.
- Ministry of Steel has revised their DMI & SP policy from 01 April 2025 for 5 years. Seamless & ERW pipes have been made ‘Melt & Pour’ in the revised policy which means that in all PSU projects, seamless & ERW pipes made only from domestic steel can be supplied.
- For requirements of upto Rs. 200 crores, only domestic tenders are floated which excludes foreign players.

Sales & Marketing Update

New discoveries Suryamani and Vajramani, were made by ONGC in OALP-VI block MB-OSHP-2020/2 and OALP-III block MB-OSHP- 2018/1, both in the offshore Mumbai basin. In the Mahanadi basin discoveries were made in the MN-DWHP-2018/1 block, previously classified as a restricted area due to national security interests. New oil blocks 'Amrit' and 'Moonga' have also been discovered in offshore Mumbai.

After long period of slowdown, tender issuance by oil companies have improved. However, more improvement is required in a growing economy especially in periods of geo political turbulence. Crude oil output dropped 2.5% in 2024-25 & also by 2.50% in 2025-26. Natural gas production declined by 1% in 2024-25 & by 3.7% in 2025-26. The decline in domestic production has led to a higher import bill, with India importing a significant portion of its crude oil (88%) and natural gas (51%) needs.

According to Ind-Ra's 2QFY26 Project Tracker, project awards declined 27 per cent year-on-year (yoy) in H1 FY26 and 13 per cent yoy in Q2 FY26. Although tender announcements had reached record highs but awarding was slow, we are now seeing actual awarding of contracts and purchase orders.

Our cylinder pipes have been approved with all major CNG cylinder manufacturers and consistent demand from our trusted buyers are being received. The in house development of cylinder pipes has reaped dividends and saved precious foreign exchange on account of import substitution.

We have successfully dispatched orders of subsea sour service seamless pipes (another value addition & import substitution product). Domestic market size for subsea sour service seamless pipes is 35,000 mt. Orders for drill pipes (value addition & import substitution product) have been dispatched and fresh orders are awaited. Domestic market size for drill pipes is 10,000 mt. Active efforts are being made to penetrate export markets.

Market Trends – Huge Potential

OPEC has guided for global oil demand in calendar year 2026 at 106 mn barrels per day rising in calendar year 2027 to 108 mn barrels per day with increased requirement being met from non-OPEC countries such as USA, Norway & Canada.

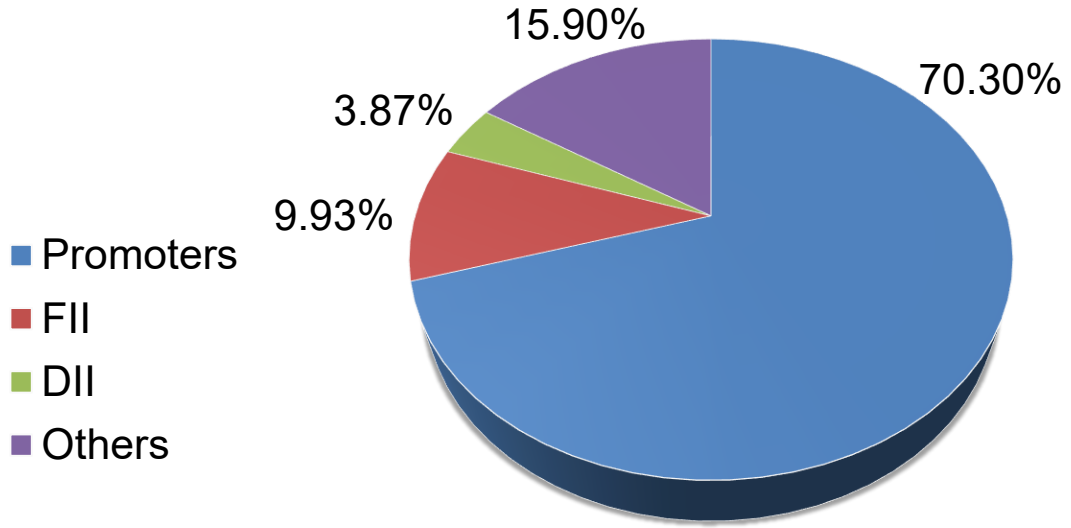

Strategic Petroleum Reserve (SPR) in USA remains at multi decade lows on account of frequent draws to contain inflation. Current level of 280 mn barrels is significantly lower than last decade average of 650 mn barrels. Refilling of SPR had commenced but was impacted by emergency release caused due to Middle East hostilities.

India's oil demand is projected to rise 30% to 7.2 mn barrels per day in 2030 from 5.6 mn barrels per day in 2024 as against a global expansion of 7%. India's natural gas demand is projected to double to 133 BCM in 2030 from 64 BCM in 2019 as against a 12% rise in global gas demand. India plans to almost double its oil refining capacity to 450 MT in the next 10 years to meet rising domestic fuel demand as well as cater to export market.

In India, there used to be sustained demand from ONGC & Oil India. Market sources had earlier indicated that around 500 new onshore and offshore wells are drilled every year. Taking a conservative estimate of seamless pipes requirement of 200 mt per well, we estimate fresh requirement of 100,000 mt per year. This is in addition to the regular requirement generated from development and work over wells.
Offshore jack up rigs operating in India have increased indicating gradual increase in capital expenditure in oil & gas sector.

ONGC, its joint venture ONGC Petro additions Ltd (OPaL) and its subsidiary Mangalore Refinery and Petrochemicals Ltd (MRPL) will implement expansion plans to double production of these companies to 8 million metric tonnes per annum by 2030 by spending Rs. 1 lakh crore.

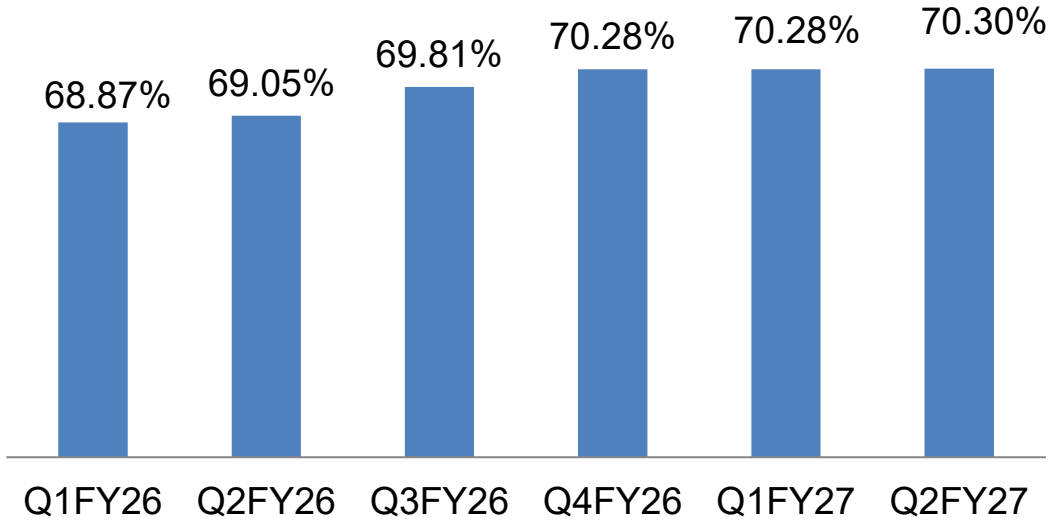

Shareholding Structure – 30 September 2026

Key changes – Q2 FY27 v/s Q1 FY27

- Promoter holding increased from 70.28% to 70.30%
- FII holding increased from 9.72% to 9.93%
- DII holding increased from 3.84% to 3.87%
- FII + DII increased from 13.56% to 13.80%
- No. of FII + DII increased from 194 to 197
