- The Company operates in only one segment i.e. paper and therefore as per Ind AS 108 segment reporting is not required.
- The figures of current quarter (i.e., three months ended March 31, 2025) and the corresponding previous quarter (i.e., three months ended March 31, 2024) are the balancing figures between the audited figures in respect of the full financial year and the published year to date figures upto the end or third quarter of the respective financial years, which have been subject to limited review.

- The Company recorded a cash loss of Rs. 576.07 lacs during the financial year, primarily due to reduced realizations and a significant increase in input costs, which impacted both production levels and overall profitability. In response to these challenges, the Company implemented a strategic shift, diversifying its operations and optimizing its product portfolio with a renewed emphasis on writing and printing paper. As a part of this transformation, targeted investments were made in fixed assets to enhance the brightness and quality of our paper products. The positive results of these investments began to materialize in the end of fourth quarter. Further, in alignment with the growing demand for sustainable packaging, the Company is adding value to its Kraft Paper segment by planning to manufacture paper bags and sacks. This initiative supports the global shift toward environmentally friendly alternatives to plastic and opens up new revenue opportunities. Looking ahead, the Management is confident that the ongoing strategic transformation will lead to an improvement in the Company's net worth. To support this turnaround and ensure operational efficiency, the promoters have expressed their intent to infuse additional capital into the Company as and when required.
- Previous period's figures have been regrouped wherever necessary to confirm current period's classification.
