| Are there any favourable/unfavourable events affecting the viability of these object(s)?                 | Yes            | Company declaration and Prospectus                                                               | There has been a delay in the utilisation of issue proceeds earmarked for the capex objective. Against the planned utilisation of Rs.49.93 crore and Rs.37.93 crore in FY26 and FY27 respectively, the Company had deployed only Rs.4.76 crore till Q1FY27. The slower-than-planned deployment may adversely impact the implementation timeline of the project and could lead to delays in achieving the stated objective and operational benefits. | The delay in repayment of loans is due to foreclosure charges and delay pertaining to Capex is on account of finalization of quotations which are under approval with the committee appointed by the board of directors                                |
| Is there any other relevant information that may materially affect the decision making of the investors? | Yes            | Stock Exchange website                                                                           | The Company's Share price as on July 30, 2026, stands at Rs.284 per share against an issue price of Rs.561 per share, reflecting a decline of ~49%. The significant decline in shareholder value since the public issue may materially affect decision making of the investors.                                                                                                                                                                     | The Board believes the post-listing share price movement reflects prevailing market conditions and investor sentiment and does not impact the Company's operational performance or its ability to execute its stated business plan and IPO objectives. |

The over utilisation of Rs. 1.39 crores observed by MA in Q3 is essentially funds transferred from monitoring account pending utilisation of their stated objects (i.e. Capex/debt repayment) and temporarily parked in the CC account. This resulted in reduction of debit balance under the CC a/c to the extent of Rs. 1.39 crores. The same has utilized in the fourth quarter. |                           |                                       |

The company's offer document states: "We intend to deploy the Net Proceeds towards the Objects as disclosed in the table above, in accordance with the business needs of our Company. However, the actual deployment of funds will depend on a number of factors, including the timing of completion of the Issue, market conditions, our Board's analysis of economic trends and business requirements, competitive landscape, as well as general factors affecting our results of operations and financial condition. Depending on such factors, we may have to reduce, revise or extend the deployment period for the stated Objects, at the discretion of our management and in accordance with applicable laws. In the event that the estimated utilization of the Net Proceeds in a scheduled Fiscal is not completely met, including due to the reasons stated above, then it shall be utilized in the next Fiscal or if required, the amount scheduled for deployment in a specific Fiscal may be utilized in an earlier Fiscal, as may be determined by our Company, in accordance with applicable laws. Any variation in the utilization of Net Proceeds as disclosed in this Prospectus shall be subject to certain compliance requirements, including prior approval of the shareholders of our Company."

\*As per the prospectus, the amount of Rs.101.27 crore earmarked for repayment of loans and Rs.49.93 crore earmarked for capex was required to be deployed by FY26. However, as of Q1FY27, MEIL had deployed Rs.97.98 crore and Rs.4.76 crore towards repayment of loans and capex respectively, resulting in delay in deployment.
