Press Release

Rakesh Verma, Co-Founder & CMD, MapmyIndia, Honoured with Lifetime Achievement Award at the 16th Geospatial World Forum in Madrid, Spain

Photo caption: Mr. Rakesh Verma, Co-Founder & CMD, MapmyIndia, being honoured with the Geospatial World Lifetime Achievement Award by His Excellency Mr. Dinesh K. Patnaik, Indian Ambassador to the Kingdom of Spain, at the Geospatial World Forum in Madrid, Spain.

New Delhi, 25 April, 2025: In recognition of his pioneering contributions to India's geospatial sector and his leadership in founding MapmyIndia — the country's leading location and deep-tech company — **Mr. Rakesh Verma**, Co-Founder and Chairman & Managing Director, MapmyIndia, has been conferred the prestigious **Lifetime Achievement Award** at the **16th Geospatial World Forum**, held in **Madrid, Spain**. The award was presented by **His Excellency Dinesh K. Patnaik**, Indian Ambassador to Kingdom of Spain.

Organized by the **Geospatial World Forum (GWF)** — the premier global platform for geospatial thought leadership and innovation — the award celebrates Mr. Verma's instrumental role in establishing indigenous digital mapping capabilities in India and taking Geo-tech to the global stage.

Award Citation

"Rakesh Verma, Co-Founder and CMD of MapmyIndia, is a visionary whose pioneering efforts laid the foundation of India's digital mapping industry. At a time when geospatial innovation was nascent, he dared to dream of a self-reliant India in mapping. His leadership and advocacy have driven critical policy reforms and technological innovation, shaping MapmyIndia into a national geospatial powerhouse. Beyond business, his commitment to education and social good is commendable. We are honored to present him with the Geospatial Leadership-Lifetime Achievement Award."

Responding to the honor, **Mr. Rakesh Verma** said *"I accept this recognition with immense pride and deep gratitude. But this achievement is not mine alone. I share it with Rashmi Verma, Co-Founder & CTO of MapmyIndia, without whom this journey would never have begun. I also dedicate this award to Rohan Verma,*

Director at MapmyIndia, whose vision and leadership have been instrumental in scaling the company and driving technological advancements in our solutions.

I extend this recognition to everyone who has contributed to building MapmyIndia, and most importantly, to our country — India.

My sincere thanks to the Geospatial World Forum and the esteemed jury for this incredible honour. This award is a tribute to the enduring spirit of Indian enterprise and innovation. I hope the MapmyIndia journey, and our success in building world-class geospatial technology, inspires the next generation of entrepreneurs and innovators to dream boldly and build indigenously."

Established in 2007, the **Geospatial World Forum Awards** recognize and celebrate outstanding contributions by professionals, institutions, government bodies, and businesses in the global geospatial ecosystem. Winners are selected through a rigorous and credible evaluation process led by an eminent international jury. This year's jury was chaired by **Dr. Greg Scott (Australia)**, Director, SDG Data Alliance, PVBLIC Foundation, and included **Dr. Nadine Alameh (USA)**, Director, Taylor Geospatial Institute; **Willy Govender (South Africa)**, CEO, Terra Group; **Sallie Payne (Belgium)**, Secretary General, EuroGeographics; and **Raj Alla (India)**, CEO, IIC Technologies.

About MapmyIndia & Mappls (C.E. Info Systems Ltd) www.mapmyindia.com & www.mappls.com

C.E. Info Systems Ltd (NSE: MAPMYINDIA; BSE: 543425) is India's leading advanced digital maps and deep-tech company, popularly known in India as MapmyIndia and globally as Mappls. The company offers proprietary digital maps as a service ("MaaS"), software as a service ("SaaS") and platform as a service ("PaaS"), including its advanced digital map data, software products, platforms, application programming interfaces ("APIs"), IoT and solutions to new-age tech companies, large businesses, automotive OEMs, government organisations, developers and consumers. The company has served more than 2000 enterprise customers since its inception. The company pioneered digital mapping in India in 1995 and has earned its market leadership position in this industry and built a strong moat by capitalizing on our early mover advantage, developing proprietary and integrated technologies, full-stack product offerings, continuous innovation and robust sustainable business model. The company also built India's very first internet mapping platform and portal, MapmyIndia.com (now called Mappls.com) in 2004. The company's free Mappls app for consumers provides the best and fully indigenous maps, navigation, safety, hyper-local and IoT gadget-enabled experience for Indian users.

MapmyIndia has built India's most comprehensive, accurate, feature-rich and continuously updated digital map data product down to address and urban building level detail pan India, covering all towns, villages, and the entire road network of the country. The company is building not just 2D maps, but also 3D (with landmarks, terrains and city models), 4D (updating in near real-time), HD (high-definition and high-accuracy), RealView (geo-tagged 360-degree panoramas, videos and photos representing actual ground reality), and hyper-local geo-

demographics data-rich maps, to continuously evolve its AI-powered Digital Metaverse Twin of the Real World. The company is also building digital maps for other regions in the world and has integrated global maps for over 200 countries into its Mappls platform. The company's platform provides extensive and comprehensive functionalities and an ever-expanding set of use cases, including mapping, location and navigation, geospatial data analytics, GIS (geospatial information systems) and AI, GPS tracking and IoT-based fleet management, logistics optimisation and workforce management, drone-based solutions, developer APIs, N-CASE solution suite (for Navigation, Connected vehicle telematics and services, ADAS safety i.e. advanced driving assistance systems, Shared and Electric) for Automotive & Mobility Tech (A&M), and Consumer tech and Enterprise digital transformation solution suite (C&E).
