Scrip Symbol: MGSL**ISIN:** INE132901013**Subject: Three-Year Annual Rate Contract (ARC) awarded by Adani Infra for Geospatial, LiDAR & Surveying Solutions**

Dear Sir/Madam,

Pursuant to our commitment to keeping stakeholders informed about key business developments, we wish to inform you that Matrix Geo Solutions Limited (the “Company”) has secured a three-year Annual Rate Contract (“ARC”) from Adani Infra for providing geospatial, LiDAR, surveying, mapping and allied technology-enabled services.

1. Nature and Scope of the Engagement

The ARC provides a framework under which the Company may undertake geospatial and surveying requirements of Adani Infra during the contract period, based on specific project requirements and work orders. Services under the engagement include LiDAR surveying and mapping, drone-based aerial surveying, topographical and engineering surveys, aerial photogrammetry, 3D mapping and modelling, GIS and geospatial data solutions, digital terrain and surface modelling, and infrastructure mapping and asset intelligence.

The ARC provides the Company an opportunity to participate in multiple geospatial and infrastructure-related requirements across the Adani Group. Given the Group’s diverse infrastructure and business verticals, the engagement may create a broader spectrum of recurring business opportunities across multiple projects and Group companies, subject to specific project requirements, work orders, scope of services and commercial terms.

2. Significance

The engagement strengthens the Company’s positioning as a technology-enabled Infrastructure Intelligence company and provides an important platform for building a long-term relationship with the Adani Group, while deepening the Company’s participation in India’s growing infrastructure ecosystem.

3. Important Disclosure

The ARC is a framework agreement and does not stipulate any fixed minimum order value or guaranteed revenue commitment. Actual business under the ARC will depend upon specific project requirements, work orders, scope of services, commercial terms and successful execution during the contract period. Such opportunities should not be construed as confirmed orders or assured future revenue unless and until specific work orders or contracts are received.

This is for your information and records.

Thanking you,

Yours faithfully,
For Matrix Geo Solutions Limited

Avneesh Kumar
Company Secretary & Compliance Officer
