**Sub: Intimation Regarding Participation of SCANDRON, a Subsidiary of Magellanic Cloud Limited, in AERO India 2025**

Respected Sir/Madam,

We are pleased to inform you that SCANDRON, a subsidiary of Magellanic Cloud Limited, participated in AERO India 2025 held at Air Force Station, Yelahanka, Bengaluru, from 10th February 2025 to 14th February 2025, where it unveiled its CARGO MAX 20KHC Drone.

The CARGO MAX 20KHC Drone is designed to address last-mile logistics challenges, especially for the Indian Army in high-altitude regions. The drone is capable of carrying a consignment of **200 kg at sea level and 120 kg at high altitudes**. It can also facilitate fuel deliveries at lower altitudes and supports mid-mile logistics in urban areas, reducing congestion between warehouses.

Notably, Scandron is the only company in India to have received the DGCA type certification for a logistics drone, reaffirming its leadership in the drone logistics sector.

We believe this innovation will significantly enhance logistical operations in both the military and commercial sectors.

We kindly request you to take this information on record.

Thanking You,  
Yours faithfully,

**For MAGELLANIC CLOUD LTD**
