PRE BUDGET MEETING

States Demand Higher Allocation under 50-yr Interest Free Loans

More flexibility for capex assistance, raising borrowing limit among other demands

Deepshikha Sikarwar

FM Nirmala Sitharaman chairs a pre budget meeting in Jaisalmer on Friday

Jaisalmer: Several states Friday asked the Centre to enhance the allocation under 50-year interest-free loans while continuing the window, enhanced flexibility for assistance under capex scheme and increase in borrowing limit to support their local economy. Some states also wanted a borrowing mechanism for some of their agencies on the lines of the central agencies, people aware of the matter said.

In a customary pre-budget consultation here, states also flagged need for state-specific road development projects and Railway projects and wanted the central government to bear a larger share of land acquisition costs for projects. States sought additional funds for disaster relief as also assistance under the Jal Jeevan Mission to set up water storage facilities. Several states wanted the borrowing ceiling raised to 3.5% of the GSDP (Gross State Domestic Product) from 3% now for 2025-26 sans any conditions. "There is an urgent need for strengthening the economy for which the growth of sub-national economies is also critical," Kerala finance minister K N Balagopal said, seeking a special ₹2000 crore package in the upcoming union budget, besides a ₹24,000 crore package immediately to tide over the liquidity stress by scheduling it over two years from 2025-26.

INFRA PROJECTS

States also flagged need for state-specific road development projects and Railway projects

The last budget had unveiled an enhanced long-term interest-free loan of ₹1.5 lakh crore for states to bolster their capital spending.

World Bank Okays $800 M Loan to Develop Amaravati

Our Bureau

New Delhi: The World Bank on Friday said it cleared a $800 million loan for integrated urban development of Amaravati in Andhra Pradesh, to help establish the city as a "well-managed, climate-resilient growth centre" that generates jobs.

The multilateral body's financing will also catalyse more than $600 million in private sector investment to help the city become financially sustainable, it said in a statement.

"The $800 million loan requested by the Government of India to develop Amaravati as an economic hub and state capital for Andhra Pradesh, has a final maturity of 29 years, including a grace period of six years," it said.

The bank will bring global expertise to support the design of city institutions and infrastructure, said Auguste Tano Kouame, the World Bank's country director for India.

"With its urban population expected to double to 950 million by 2050, India aims to build sustainable and liveable cities as growth hubs, and Amaravati offers an exciting opportunity to model this urban transformation," Kouame said.

BID TO REGULATE LARGE COMPANIES

Digital Competition Law Unlikely Before Second Half of FY26

Inter-ministerial consultations will lead to delay

Banikinkar Pattanayak

New Delhi: A proposed digital competition law to regulate large players is unlikely to be finalised before the second half of the next fiscal, as the government intends to have comprehensive inter-ministerial consultations due to the complexity of the subject matter, people aware of the development said.

The idea is to bring in such a law that would neither stifle innovation nor make compliances onerous but ensure that large players don't take advantage of their dominant positions to distort competition in the market, one of the officials involved with shaping the formal policy ET. "So, it would take some time," the person added.

Also, the corporate affairs ministry is currently focused on amending the insolvency and companies laws first, on top of scaling up the PM Internship Scheme.

A panel led by then corporate affairs secretary Manoj Govil had in March suggested a new antitrust law with an ex-ante framework to regulate large digital players, leaving out small players, including start-ups, from its ambit to ensure innovation by them isn't hampered.

Ex-ante regulations usually aim to disallow certain practices from being pursued. Under the existing ex-post framework, violations of the competition law are investigated after they take place.

The panel had submitted a draft bill, along with its report, for deliberations by various ministries and other stakeholders.

Given the integrated nature of the digital ecosystem, the precise impact of ex-ante regulations for large players on the smaller ones needs to be assessed as well, the people said.

A number of big technology firms, including Apple, Meta, Google, Amazon and Flipkart, had opposed ex-ante regulations before the Govil panel.

"Regulating competition proactively in the fast-evolving digital sector is a very complex issue, which warrants further deliberations, more so when an ex-ante framework is proposed by the panel. Unless it's properly framed, there could be unintended consequences. So, the approach is–better to be safe than sorry," said another person. Apart from the MCA, the inputs of the Ministry of Electronics and Information Technology on the new law are going to be very crucial. The Govil panel had suggested that the new law apply only to "systemically significant digital enterprises" that have a "significant presence" in India. The penalty for violations could be as high as 10% of the entity's global turnover, it had said.

Single Window System Grants ₹4.81 L Approvals

Our Bureau

New Delhi: The government Friday said that till October 14, 7.1 lakh approvals have been applied and 4.81 lakh approvals have been granted via the National Single Window System, including FDI approvals, petroleum-related services, hallmarking and start-up registration.

The national portal integrates the existing clearance systems of the various ministries and departments of the centre and state governments.

The national portal integrates the existing clearance systems of the various ministries and depts of the centre and state govts

In its year end review, the Department for Promotion of Industry and Internal Trade also said that from 2000 to 2024, a total FDI inflow of $991 billion was recorded, with 67% received during the last ten financial years (2014-2024).The department also said that the production linked incentive schemes for 14 sectors have achieved significant milestones, including investments of ₹1.46 lakh crore, production/sales of ₹12.5 lakh crore, exports worth ₹4 lakh crore and employment for 9.5 lakh individuals. "Over 1,300 manufacturing units across 14 sectors under 10 ministries/departments have been established in 27 states/UTs," the DPIIT said.

Safeguard Duty? Probe Begins on Steel Imports

Our Bureau

New Delhi: India has initiated a probe into an alleged increase in imports of certain steel flat products into the country following a complaint from the Indian Steel Association.

In a notification, the Directorate General of Trade Remedies (DGTR) said that it has started the investigation into imports of Non-Alloy and Alloy Steel Flat Products used in various industries, including fabrication, pipe making, construction, capital goods, auto, tractors, bicycles, and electrical panels.

The DGTR said that the Indian Steel Association, on behalf of its members—ArcelorMittal Nippon Steel India, AMNS Khopoli, JSW Steel, JSW Steel Coated Products, Bhushan Power & Steel, Jindal Steel and Power, Steel Authority of India—has filed an application seeking imposition of safeguard duty on imports of these products into India.

The product under consideration of the probe includes hot rolled (HR) coils, sheets and plates; HR plate mill plates; cold rolled (CR) coils and sheets; metallic coated steel coils and sheets; and colour coated coils and sheets.

Imports of core steel more than doubled to $18.6 billion in FY24, driven by demand for items not widely produced in India, such as flat-rolled and specialty steels used in advanced sectors like defense and aerospace. Earlier this month, the government discussed imposing a 20% safeguard duty on steel to protect against cheap imports, steel overcapacity in China and its impact on India if the US restricts or imposes tariffs on the alloy, and the issue of stuck consignments at ports. For the purpose of the probe, it will consider the imports happened during October 2023 to September 2024.

The authority will also examine data pertaining to 2021-24.

Sudden increase in volumes hurting domestic industry: focus on Oct 2023-Sept 2024 period

As per the notification, cold rolled grain oriented electrical steel, cold rolled non-oriented electrical steel coils and sheets, coated-electro galvanized steel, tinplate and stainless steel are excluded from the investigation.

The applicant has alleged that there is a "recent, sudden, sharp and significant" increase in the volume of imports, which has caused "significant" injury to the domestic industry in India, according to the notification. "They have sought imposition of safeguard duties to protect the domestic industry engaged in the production of like articles or directly competitive products from such serious injury and threat thereof being caused by the imports," DGTR said.

The applicant has requested for the imposition of provisional measures citing the existence of critical circumstances. It has asked to impose the duty for four years.

NHPC to Invest ₹5,500 cr in Setting Up 1,000 MW Solar Project in Bihar

Patna: NHPC Ltd, India's largest hydropower company, will invest ₹5,500 crore in setting up a 1,000 megawatt solar power project in Bihar, its chairman and managing director Raj Kumar Chaudhary said Friday.

The firm signed an MoU with the state government for the investment at the Bihar Business Connect 2024 investor summit here. "We have proposed to invest ₹5,500 crore in setting up a 1,000 MW solar power project," he said.

The project could be set up in 1.5-2 years from the date of land acquisition. "Land is crucial for solar projects. And we would urge the state government to facilitate land acquisition so that we could do the project on time," he said.

The company has almost 7 gigawatts of operational hydropower plants and 9.3 gigawatts of capacity is under construction, according to its website.

Chaudhary said NHPC is also proposing to set up a small solar plant, electricity from which would be used to make green hydrogen. "The green hydrogen produced will be used to power passenger buses," he said. —**PTI**
